THE GRIDIRON.

Now the U. of M. and Chicago fought for victory.

During the four years that the U. of M. has held the championship of the west, on the football field there has been a feeling that Trainer Fitzpatrick and Coach Yost could and did and would make the team invincible, but the swift and skillful playing of Chicago University's eleven was a surprise, and for a time in the first half gave the backers of the Ann Arbor players the shivers. The errors made by the home eleven were costly.

Four touchdowns were made by the Ann Arbor eleven, all earned by hard played football, marked by a few brilliant dashes through, but by one run of any great length—that a sprint for 45 yards made by Hewton—the ball being advanced generally by the out-drifts of Weston, Tom Hammond and Longman, varied at times, until his legs gave out and he was unable to continue on this line of work by quarterback runs by Norcross. Three of these touchdowns came in the first half, and one, the one above referred to, in the second. Chicago had gone in each half, the first being earned by a great exhibition of line bucking, after a series of judgment in the backfield and put the U. of M. within striking distance of the goal. The other was tucky in its nature, Eckersall snatching the ball out of the air after one of Michigan's too numerous fumbles, and running unblocked for 35 yards for a touchdown.

The second half was a hard-fought and fast-played battle for the game and resulted in a score of 22 to 12 in favor of Michigan. The attendance was not less than 10,000. Numerous special trains brought in thousands from Chicago, Detroit and other parts of the state.

United States corn yield is now estimated at 2,553,000,000 bushels.

KUROKI IS DEAD.

TO STAND ALONE.

The Brave and Skillful Commander A New Political Move for the Southern States.

Nemirovich-Danchenko, the well known Russian war correspondent, telegraphing from Mukden on the 12th, says the reports of the death of Gen. Kuroki are confirmed. According to his report, the splinter of a shell struck Gen. Kuroki, tearing out a portion of his breast and abdomen. He died October 4 at Liao Yang and his body was sent to Japan. A rumor is persistently circulated that a kinsman of the mikado, Shosanji, literally "Little Third Prince," has been appointed to succeed Gen. Kuroki, but the actual command of the army has been entrusted to Gen. Nodzu, who is reviewing operations.

The advances for five weeks have closed, but the present lines of defense must be considered permanent in view of the strong fortifications constructed. The Japanese positions at several points are only 800 paces distant from ours and must be considered to be definitely occupied by the enemy. The latter's fortifications are acknowledged by all competent persons to be skilfully constructed. Their trenches in many places are so cleverly concealed as not to be noticeable a short distance away, the earth removed being carefully thrown in front of the trenches. The general position causes a great tension on both sides.

PEACE PROPOSED.

Japan Offers, but Russia Rejects the Proposal.

Japan unofficially has made representations to Russia looking to peace.

This action has resulted in failure and such representations even privately are not likely to be repeated by Japan.

Instructions have been sent to Gen. Nogi, in front of Port Arthur, to use all possible means to restrain his men when his final assault on the Russian fortress has been successful. Grave

fear is felt that, should the Russian commander insist on fighting to the last, all that can be done by the Japanese officials will not prevent a slaughter of the Russians. The Japanese troops are wrought up to a high state of tension by cruelties practiced by the Russians on their wounded, and by the useless slaughter of their comrades, and the feeling is intensely bitter among the Japanese privates. The officers, also, have this feeling of bitterness, but can be depended upon to do all possible to restrain their men.

Nine Perished.

A dispatch from Washington confirming the statement that Japan had indicated her willingness to entertain peace suggestions from President Roosevelt or King Edward created much interest in London. Baron Hayashi, the Japanese minister, said:

"After the fall of Port Arthur Japan would, I believe, be ready to treat for peace on no higher essential basis than that Russia should evacuate Manchuria, Japan also agreeing to similar evacuation. The two great difficulties in the way of any suggestion of peace are, first, the apparent opposition of Emperor Nicholas' present advisers to a settlement of any kind; second, the preservation of Russian prestige. When a nation's prestige, if not gone, is severely impaired, it is a difficult matter even with the best of intentions to preserve it."

A Miniature Robbery.

Two masked men have robbed a train on the Milwaukee railroad at the world's fair, and after securing money and valuables amounting to \$100, escaped. The train, carrying the engineer and three passengers, one of them a woman, was making its last trip and was crossing a deserted plot of ground when the two bandits, with drawn revolvers, forced the engineer to stop.

TALL STORIES OF THE KAW.

One of the Most Altitudinous Denied by a Man From the West.

John Cameron, a little breed of the Kaw, is from the Rockies. His place is on the Kaw river. The Kaw ambles serenely—sometimes through Kansas City, Kan., and Mex. They tell a few stories about the Kaw.

"Most of them are true," said Mr. Cameron, "especially the one about a stream that got lost in the white mountains."

"Kaw, too, is a little stream, and he is pushed out by an excavator. I have never seen the Kaw to be real downright muddy, but," said Mr. Cameron, "the water is pushed out by a stream that got lost in the white mountains."

MANCHESTER ENTERPRISE, Manchester, Mich.

THURSDAY, NOVEMBER, 17, 1904.

Election is over and most people are anxious to drop politics and get down to business, which pays better.

Of the citizens of the republic, more come from the university of Michigan than from any other university.

Manchester's apportionment of primary school money is \$1,440.75; Bridgewater, \$688.69; Freedom, \$1,026.10; Sharon, \$747.15.

It is announced that Russia will fight to the bitter end. If she don't do something before long Japan won't be long in bringing her to that point.

Congressman Charles E. Townsend of Jackson wishes through the ENTERPRISE to express his hearty thanks to all the friends who so loyally supported him.

The limited cars on the Jackson-Detroit electric line will start one week from Monday. They will make three stops at Ann Arbor and Ypsilanti and one at Chelsea and Grass Lake.

An experienced shoe dealer advises the wearing of two pair of socks in the winter, to keep the feet warm. One pair may be woolen or both may be cotton and not very thick at that and give good satisfaction.

The "deadly cabbage snake" story which had its origin at Milan, turns out to have been the result of a scheme from the fertile brain of a local joker. He manufactured the "serpents" from horse hair preserved in a bottle of alcohol — Free Press.

One West Virginia court has ruled that automobiles shall be barred from the high ways. This action may be looked upon as extreme and unjustifiable but it shows the temper of those who may have been driven from the road by the "devil wagons."

We invite township officers, school officers and others wanting job printing to patronize the ENTERPRISE. We have latest styles of type, use best stock and make prices reasonable for the quality of work done. Our work is sure to please. Don't forget us.

Some of our citizens think it ill advised to have a republican blow out here next Monday night. Those democrats who helped elect the officer would rather that things be left quietly alone. But, we suppose the elect has gone forth and there will be music and dancing.

The price of Portland Cement is very low and but few plants can make a profit at the price it is now selling at, less than 90 cents a barrel. The Bronson plant has shut down and several more are running at a loss and will have to close down. We learn that the Manchester proposition is meeting with favor in cement centers and prospects are that the plant will be completed next spring.

We wish that those who write items for the ENTERPRISE would be more careful and give all particulars, as a little carelessness on their part often renders the item useless, by which means the writer is disappointed because it does not appear and we loose the item. Often such items as this are sent to us: "Mrs Smith visited at Mrs. Jones recently." The item should state when Mrs. Smith made the visit. If it was within a few days or a week, the writer ought to know it, if it was longer ago we do not want the item. Fresh news is what we want.

There is considerable rejoicing at Lansing over the results of the election. One who is not a resident of the city, has little idea of the number of her residents who are regularly sucking the public tit. There are men, and women too, long past the middle age, who have kept hold of the public tit and lived on public patronage so long that they would not know what to do should they be discharged now. Some of those people are good chaps, and save the salary they receive, but many of them have outlived their usefulness, if they ever had any. It is quite likely that there will be some changes among them after January first.

We are sure his many Manchester friends will be pleased to learn that Bert Conklin has been given the position of trainmaster at the union station of the Ohio Central railroad at Toledo.

Art Jaeger and Frank Skat went to Ypsilanti yesterday to see them shoot the oil-cail, but as the man bringing the nitro-glycerine from Bowling Green, got lost on the road, the well was not shot until today.

Mr. & Mrs. Cornelius Carr, Mr. & Mrs. Frank English, Mr. & Mrs. A. J. Waters, Mrs. Homer Hall and Miss Neva Logan went to Lima Tuesday to attend the ponoma grange meeting and report having had a delightful time.

The Detroit Journal of the 16th contained a half-page picture of Jacob J. Haarer, of that city, a former Manchester boy and step-son of Mrs. E. G. Haarer late of this village, now living with her daughter in Norvell township. The Journal also said: "Certain friends of the mayor-elect believe that ex-Ald. J. J. Haarer will get the refusal of the department of public works when the present incumbent, William H. Mayberry steps out. It is generally conceded that Haarer is qualified for the position, as he has a long and valuable experience as chairman of the committees on streets, and is familiar with the wants of the different districts of the city, and with the different paving materials."

Mr. & Mrs. J. A. Gooly year received the sad news last Saturday, of the death of G. A. Sims, city surveyor of Galveston, Texas. He will be remembered as husband of Linbie Sims former resident here and daughter of Mr. & Mrs. Andrew Sims, now of Wichita, Kansas. Mr. Sims died from double pneumonia Nov. 5th.

Mr. Sims had charge of the construction of the great sea wall which protects the city from the encroachments of the gulf and is one of the greatest engineering achievements of the age.

Ell Hoy Lewis, whose death is noted in another column, was at one time one of the principal contractors and carpenters in this village. He came here from Clinton, not long after the close of the civil war, when Manchester had taken its new lease of life and was on the boom, and the residences of Dr. Lynch and W. H. Lehr are among those he constructed. His wife died soon after he came here and he married a widow Shigley. He moved to Elkhart, Ind., about 1875. During the past three years he has lived here part of the time with his son Charles, and part of the time with his son Ed. at Fairmount, Ind. He left eight children, Henry, who was in Texas when last heard from; Charles of this village; Mrs. Mary Dock of Kalamazoo; Ed. D. Lewis of Fairmount, Ind.; Nick, of Los Angeles, Cal.; Mrs. Helen Hatch of Toledo; Mrs. Bert Shigley of Elkhart, Ind.; and Geo. Shigley of Omaha, Neb. The funeral will be held at the residence of his son Charles at 10 o'clock, Friday morning, Rev. Moon officiating.

The methodist missionary society supper Tuesday night netted \$10.

We call attention to change in society cards in first column on first page.

Doc Dowling has been doing some repair work for the electric light plant.

The price of live stock has declined somewhat and is lower than last year.

The ponds were partly frozen over Tuesday morning for the first time this season.

Mr. & Mrs. Lyman Baldwin have moved into their pretty and convenient residence.

The weather is fine but the prospects are that we will have a storm before many days.

Howard Clark and his men are building a fine porch in front of J. H. Klugley's new residence.

The young ladies are making arrangements to give a leap year party on Thanksgiving evening.

Mrs. LaMar Brown and Mrs. Barbara Holmes have moved into the rooms in the Unterkircher house.

H. H. Fellows has bought the Wm. Trols place next to M. T. Prout's and has moved his family there.

The Michigan telephone company have gotten out a new directory which has been distributed to subscribers.

St. Mary's society gave a pedro party at Mr. & Mrs. Eugene Kirchgesener's new home, last Thursday evening.

We learn that Foster Brothers have sold upwards of 40 Singer sewing machines in the past three months.

Jaeger & Dietle will give special bargains at the east side store this coming week as announced in their advertisement, this week.

Fred Widmayer has a new advertisement this week of those famous stoves and ranges he is handling, the round oak stove and majestic range.

Station Agent Spencer has received some elegant office desks for use in the Lake Shore freight office. They are the latest patterns of antique oak.

Manchester grange has ordered a card for our society column on first page. The grange met last evening and conferred the third and fourth degrees.

Wheat certainly looks fine, some farmers say it never looked better at this season of the year. A good rain would improve its chances for the winter we think.

The meetings at the universalist church this week, have been very well attended and the interest seems to be on the increase. Rev. Stocking is a fine sermonizer.

Saturday and Sunday were disagreeable days to be out of doors. The wind blew strong and the air was raw. There was a destructive storm on the lakes Sunday night.

The republicans are going to have a blow out here next Monday evening. The Sharon and Manchester bands will furnish music and the county officers elect are invited.

A bright light was seen in the northeast last Saturday evening, which we learn was caused by the burning of marsh grass around Four Mile lake by the employees of the cement company.

Manchester was well represented at the foot ball contest, at Ann Arbor, last Saturday. Men, women and children, went over on the special train to see the game and most of them took occasion to call on friends at the county seat.

As next week Thursday will be thanksgiving we wish to print the ENTERPRISE on Wednesday, therefore those wishing advertisements changed should hand in copy on Monday. Our correspondents are requested to forward items earlier than usual.

The Lake Shore freight office though only an old box car with windows and doors and temporary desks, is really as nice, comfortable and better lighted place than the one was that was burned. The agent and railroad boys hope that the company will soon begin work on the long promised new station building.

The township board have had a well sunk in the little grove opposite the cemetery and hope to get a sufficient supply of water to meet all demands. The well is down 28 feet, it is 4 feet in diameter and there is four feet of water in it. They intend to build a neat house about 12 feet square, over the well, in which to place the engine and pump.

Loates & Hoffer were obliged to serve papers on the trackmaster of the Lake Shore road, last Friday, to prevent him from dumping dirt into the pond. They saw the trackmaster before they put any dirt in and cautioned him against doing so, but he was quite independent and went right on, so Loates & Hoffer, to protect their interests, served papers on him.

Clatoe Maesoe will not come here next Monday night to confer the 3rd degree. They have backed out. They could not get a special train for less than \$45 and they would not drive the seven miles even though the roads are good, the weather fine with moonlight nights. Well, the Manchester boys are going to have a good time just the same. They will do the work themselves, eat their own grub and smoke their own cigars.

OUT THE WAY

That's What The Auto Driver Thinks.

The New York Tribune Farmer says: "Automobiles, defiantly and insolently run at illegal speed and otherwise violating the common rules of the road, have so abused the highways that other traffic has been largely excluded from them. It is easily within bounds, as every intelligent observer knows, to say that thousands of people in the last year or two have given up driving, or have confined their driving to inconvenient hours and to out of the way and undesirable roads, because of the imminent peril to limb and life caused by automobiles on our favorite parkways. The matter has now gone further than that, and in the last few days we have seen the public formally and by prescription debarred for a time from a great system of roads in order that the latter might be monopolized by engines."

Not only the road practice, but also the manners of some chauffeurs, are becoming increasingly offensive. They are characterized with an arrogance and a contempt for common courtesy that are intolerable. These persons do not think of turning out to pass other vehicles which they overtake or meet. They blow premonitory blasts upon their horns, and expect the others to turn out and give them the centre of the road. If a horse is frightened into running away or a carriage is upset or smashed by a collision, the chauffeur does not think of halting to give aid or to express regret. He grins at his victim and puts on extra speed to get away and escape identification.

Farmers and horsemen and horse-women everywhere seem to have it in for the automobile. They ought to know that the machine has come to stay and they might as well prepare to make the best of it.

We remember that they made the same cry against the bicycle, and the traction engine, but it did no good, and it will be the same with the automobile.

Well, we have met people in the road, driving a pair of horses that acted about as independent and refused to give the lawful half of the road and we think many wheelmen chuckle with satisfaction at the thought that the road hog has at last met his match.

Albert Feldkamp entered the high school Monday. There are 77 in attendance of this number 41 are non-residents. There are three non-residents below the high school.

Certificates of scholarship for the first ten weeks were given out Tuesday. It is hoped that all parents will ask for them and help to secure better results in case the standings on the cards are not satisfactory.

There was a large attendance at alpha, Monday evening, and all seemed interested in the program, especially in the debate, "Resolved that the world owes more to railroads than to navigation," which was decided in the negative. The young men's orchestra played well and was heartily applauded.

SCHOOL NOTES.

The high school now has a light weight football team.

Thanksgiving vacation begins next Wednesday night. School begins again on Monday the 28th.

The high school foot ball team go to Clinton next Tuesday afternoon to play a return game with the high school team there.

Mrs. Josephine Kennedy and Mrs. Ada Collins of Jackson and Mrs. Libbie Kane of Mason have been visiting Mrs. Fred Weaver the past week.

James Kirk has sold his farm to John Martin and next Tuesday will have an auction to dispose of his stock and tools. He talks of going to Oklahoma.

"Eben Holden," which will be seen at the New Bradley Opera house on Friday, Nov. 18, is one of the best rural plays ever written. It was dramatized by Edward E. Rose from the popular novel of the same name by Irving Bacheller. The scholarly critic of the New York Sun said in his review of the play that "Eben Holden is an exceptionally lovable old chap who slips into the hearts of his audience. The play is full of fun, and its little love story is handled so prettily that the piece is soaring a success."

Parties desiring wedding invitations, announcements, cards, address cards, etc. either engraved or printed are requested to call at the ENTERPRISE office and see samples of our work. The latest styles of stationery, engraving and type used in all our work.

"A public office is a public trust" has not been the motto of public officers at Detroit. A cleaning up has been started and Detroit Hoffman has owned up to a whole lot of private business.

Geo. Hard went to Ann Arbor last Wednesday and returned Friday accompanied by his wife who has been at the hospital there.

Farmers and horsemen and horse-women everywhere seem to have it in for the automobile. They ought to know that the machine has come to stay and they might as well prepare to make the best of it.

We will show you how to bake "just such biscuits as mother used to make," with only one-half the fuel now used.

The readers of this paper will be pleased to learn that there is a substantial difference between the Swiss steamboat companies, to avoid disputes as to the age of children, and the Catherines. Hail's Catherines are the only positive evidence of the fact that the Swiss steamboat companies, to avoid disputes as to the age of children, have established measurement rules. Under 2 feet in height go free; children under 4 feet 4 inches, and dogs pay half fare.

The First Umbrellas.

Those who suppose that the umbrella is a modern contrivance will be surprised to learn that umbrellas may be found sculptured on some of the Egyptian monuments and on the Nineveh ruins. That umbrellas bearing a close resemblance to those of to-day were in use long before the Christian era is shown by their representation in the designs on ancient Greek vases. The umbrella made its first appearance in London about the middle of the eighteenth century, when one Jonas Hanway, it is said, thus protected himself from the weather at the cost of much ridicule.—*Harper's Weekly*.

TERrible SUFFERING

THIS YOUNG WOMAN APPEALED IN VAIN FOR HELP.

When Hope had Almost Settled into Utter Despair Relief Came from an Unexpected Source.

Mrs. Emma Heidebreder, of No. 1326 Jay street, Burlington, Iowa, whose husband is an employe of the Rand Lumber Co., tells a story of painful suffering:

"For about five years," she says, "I had a host of physical afflictions kept me in bed and prostrate the greater part of them the rest I was going into consumption. At times I was so weak that I could not comb my hair or even wash my face. Then excruciating pains ran suddenly up my thigh and I had to be carried to bed screaming in my agony. I could no longer do my work and the pain upon my husband's purse was very heavy. I craved food, but what I ate only gave me discomfort. My liver was torpid, and often I had to be carried to the door for air to save me from suffocation.

"The worst was the pain which seared us if my thigh were being pushed out of my body. The best doctors could do was to deaden it by narcotics. Once they thought I could not live for more than two years. In one of my worst attacks, a friend said, 'Why don't you try Dr. William's Pink Pills? They are the only thing that ever helped my rheumatism.'

"I did not believe it. After using one box I was skeptical. I continued to use the pills for two long months with no relief. Then I decided I was well. For a time I was enabled to do all my house work, but I longed to get out to the country. I took a long trip to the Wabash Park in the summer, but I was still in pain.

SQUIRE JOHN

A TALE OF THE CUBAN WAR

BY ST. GEORGE RATTBORNE

CHAPTER VI.

The Room That Faced Edinburgh Castle.

Jack amuses himself the following day knocking about the city, taking a tram ride down to Leith, and watching the fishermen there and at Nowhaven come in with their catch.

Then he spends some time up at the Castle—a most fascinating spot for all temporary sojourners in Edinburgh; observes the Highlanders go through their drill, and, like all Yankees, mentally compares them with the boys in blue at home.

Jack dines at the hotel and then promenades Princes street, observing the throng, until he is near the appointed hour, when he retires to his room, and prepares for the reception of his expected guest, having given orders that the Spaniard be shown up when he arrives.

He anticipates a lively scene when the disclosure is made, and feels that his future course must be in a great measure governed by circumstances.

Four by the clock, the bells are just ringing, the hour, when he hears voices, and then comes a rap on the door.

"Come in!" sings out Jack in his genial way. So the door swings open to give admittance to the urban dog.

He is just as striking in his appearance as on the preceding night, and wears the same dark velvet jacket. People turn to gaze after him in the street, especially when a large cream colored sombrero rests jauntily on his head and every one must have guessed he is some distinguished artist, which attention pleases the worthy senior exceedingly.

Holding his wonderful headgear in one hand, he advances quickly, his face wreathed in smiles, and Jack immediately goes to meet him.

So they cross palms for the last time, it is only a question of minutes now ere these two will be glaring at each other across the table, deadly enemies.

"And how does our happy bridegroom find himself to-day?" Come, do

the fitters gall, or, after all, are you thinking only of the rich results to come from the enterprise?" asks Roblado, with a glance at the decanter.

"Help yourself, my dear sir—sherry, port, and genuine Scotch, mauldinary, as for myself, I'm feeling fairly bright, and I reckon as ye Yankees say, equal to the occasion. Don't drive yourself, senior," says another.

"Carramal! that is nectar fit for the gods! We shall not want for it after this—eh, Senor Jack?"—smacking his lips, after having half emptied one of the decanters.

"You have come then, to-day, for what specific purpose?"

"To arrange for the transfer according to our agreement. Of course your first move will be to go to London and prove your identity as Jack Travers to the legal gentlemen having the estate in charge. You will want the evidence of your marriage with the party named in the will. Here are the necessary proofs, including the regular certificate of marriage."

Senior Roblado is waking up to the seriousness of his cause, and as he speaks he raps his knuckles impatiently on the table, while his face no longer appears tranquil, but inflamed; his eyes blazing with gathering wrath.

"First of all, that I am not the person you took me for, I declared to you that I had signed no papers save those connected with my marriage. That is absolutely true. You have lied, but they were not written by my hand, nor did I ever see them. No wonder you look mystified, Senior Roblado. I shall have a little mercy upon you. Settle yourself comfortably, and listen, while I spin a little yarn that will make the whole thing as clear as noonday."

"Good—good! Then they recognize you as the genuine party in question."

"Everything passed off in my favor."

"Oh, what great luck we are having, Senor Jack! Fortune brings everything in my way—*—*who was only lately contemplating flight to Cuba where I have some interests that bring me in a scanty living. I hardly

had time to think when you came in."

"About my visit to the solicitors—there is no need of my hastening to see them, since I have already been to Chancery lane."

The Spanish artist looks anxious.

"You were bolder than I thought possible. Tell me, how did you succeed?" he demands, puffing vigorously.

"The result was all that could be expected," answers the young American coolly.

"Good—good! Then they recognize you as the genuine party in question."

"I had an appointment last night in the Canongate. While I waited for a friend to appear, a hansom, driven recklessly, lost a wheel and was wrecked. The inmate, a gentleman, was badly hurt, and while we waited for an ambulance to take him to Trinitarian hospital, he uttered various things in a half delirium, that attracted my attention. As I had once known the unfortunate gentleman, I thought it might be an act of charity to seek the house of seven gables, and let the good people know what had become of him."

"Well, I did so. You came to the door, and gave me no chance to explain—I was quick to perceive that you mistook me for Howard Spencer, and having already an inkling of the game, determined to allow myself to be drawn on, with the intention of finding out why that man had assumed the name of Jack Travers.

"You know the rest. I need not tell you I entered into the spirit of the game, and that I consider myself very fortunate in being the legal husband of so charming a girl."

The Spanish senior has some difficulty in finding his voice, and it is in a hoarse whisper he cries:

"But my letters! You had them. You are surely playing a Yankee joke on me."

A pretty serious one I am afraid, then. As to the letters, my Chinese servant picked them up when Spencer had been trotted off to the hospital. When you asked for letters I remembered them, and they seemed to fit him admirably."

"Then it is all true?"

"Absolutely, senior."

"You are not Howard Spencer?"

"Most certainly not. That gentleman does not bear a very enviable reputation around the Cripple Creek mining country, and I should seriously object to being compelled to start for him."

"You are not my correspondent, yet you know about the game. Carramal, you even tell me there is no necessity of hurrying to Chancery lane, because you have already seen the lawyer and it all right. What is all right? And you have even had the sublime assurance to marry my step-daughter and ward, while admitting that you are not the party named in

the special license! That is the height of impudence, sir—it is damnable!"

"Ah, Roblado, that is where I have gone. The special license was perfectly framed, even better than you thought, as I was not reduced to selling under false colors in order to fulfill its conditions."

The senior sees light all at once. "Malediction!" he shouts, in the most intense excitement; "then you are—"

"The genuine Squire John—known in the wild and woolly west as Jack Travers," replies the other, complacently.

CHAPTER VII.

Diamond Cut Diamond.

The picture when Travers proclaims his identity is certainly one well worth seeing, especially the consternation stamped upon the features of that remarkable man with whom Jack holds his interview.

Senior Roblado is apparently stricken dumb for the time being; the hand that holds the smoking cigar trembles as might an aspen leaf, and his fierce black eyes under the shaggy gray brows are fastened on the Yankee with the look of a hungry wolf.

"You are the genuine Jack Travers! You who sit there dare to tell me that as coolly as you might speak of your cigarette?" For Dios! man, I admire your nerve, though you have come near shattering mine with your devilish intelligence. I feared treachery; I prepared against it, but hola! you overwhelm me—Still, a Roblado never surrenders; we sometimes die in the last ditch."

"Ah, senior," laughs the tantalizing Jack, "you remember I warned you it was full thirty feet from my window and a hard pavement that of Prince street. Well, I have to tempt me, I beg."

The senior, who has risen halfway from his chair, drops back again; one glance at the muscular figure of the American has convinced the Spaniard that he cannot hope at his age to cope with such an athlete.

"All the Fates must be against me to bring you here at such a time. I believed you dead, Jack Travers; he grows hardly knowing what else to say."

"So did my dear friend Howard, and he had good reason to believe him self haunted by my ghost, since it was by his orders I was waylaid, robbed and thrown into Dead Horse Canon. But I am a favorite of fortune, and I escaped, as you see, to baffle your schemes."

"Then we have lost everything. You have swept the board, Senior Jack; but there is one thing still left to me."

(To be continued.)

GATORS AND TERRAPINS TAMED.

Washington Man Has Trained Gators to Come at His Call.

In one of the several places of public entertainment in the city, says the Washington Star, is to be witnessed the novel sight of the feeding of alligators and terrapins that have been trained by their owner. There are three alligators in the fountain in the garden and about a dozen terrapins of the diamond-back and slider families. Besides these products of southern waters there are several hard-shelled crabs to be seen swimming about in the water. Thus far no effort has been made to tame the crabs, but the other occupants of the pond have made friends with their owner. At any time the latter goes to the fountain and talks in a peculiar way the terrapins and alligators will come pell-mell toward the edge of the water and climb over each other's backs to get the pieces of cooked crab upon which they are fed.

One night last week several women were about the fountain watching the sight of the water pets enjoying the crab feast, and they were certain that they could bring the terrapins and alligators to the surface the same as their owner did.

"A treat for our party," was what one of the women said, "that I can bring them up to get some crab."

"And it's a treat that you can't see another."

Then the effort of making the peculiar noise was made, but with no signs of life appearing above the surface of the water. Again and again the noise was made, but it was not until their owner made the sounds that they appeared. Then there was the usual scramble for the crabs, and the sight was greatly enjoyed by those who witnessed it.

Chancery lane was the usual scene of the game, and the sight was greatly enjoyed by those who witnessed it.

The son laughed at his father's surprise.

"Sit down, father," he said. "You must be hungry, and this is a day when nobody is supposed to go hungry in America. It is Thanksgiving day."

"Every man who, by the sweat of his brow, has earned a Thanksgiving dinner for himself and his family is in duty bound to eat and drink and be merry and give thanks for the blessings he enjoys in this rich land of ours."

"Verily," responded the old man, "you have much to be thankful for when you can spread such a feast as this, which is only enjoyed by the rich of the people in the land of our birth."

And he and all his family feasted and made merry and rejoiced that

Reading as a Medicine.

The word "disease" signifies the absence of ease, and that want of ease is generally caused by thinking too much of one's self or one's own concerns. Nervousness is generally at the bottom of it. Now, if the doctors, when they find their patients all eaten up with too much thinking of themselves or their business, were to prescribe a course of Cervantes or Moliere or Balzac or Sterne or Dickens or Shakespeare, and as strictly enjoined thoroughness in this course as they would in the treatment of a disease, it would be a great remedy—the too persistent brooding over one's own troubles.

A dose of reading will often prove the best remedy.—Boston *Advertiser*.

The Fat Year

There's a wizard at work on the hillsides, there's a vanishing ghost in the valley, and there's the pipe of the spirit, and lead is a desolating waste in the wheat field, but here by the narrow gate the full year has empaled its plenteous horn. And the faces of children are graven, for God is in his justice and mercy has given good gifts to his least.

There's a presence abroad on the prairies—a triumph of fatuous year—

The out the dead face of the year—

There's a madding wake in the night, a doom written large on man's power all over the prairie land—

But the granaries are filled unto bursting,

And only the memory of famine has

driven the heart of the farmer appals.

And so, ere the winter shall whiten the land, bringing its measure of famine and

And the year that looks out on the page shall learn to be

MEN OF MANY FRIENDS.

Wide Acquaintance Made by Captains of Ocean Liners.

"Clemente Venerable said to me and Andrew, 'Cough, that George Gould, of New B. Rockwood, Jr., barked him up.'

The speaker, a man robust and brown, had a long, full voice, and from his eyes were turned on him, for the names he had used were names to conjure with.

"Take care, Captain Astor, for he wouldn't wear a French shoe."

"A man hour this man remained in the safe and during the time he affected every class from the highest to the lowest of other tables, home from home, his detached sentences like:

"My country is desolate, though from the walls of Jerusalem he could see the desolations which God had allowed to come upon them from the malediction of the nation."

"And the daughter of Zion, I play."

"Astor gave me that in memory."

"I told Ripling he couldn't write."

"I and I were looking at the sunset when the Duchess of Marlborough joined us."

"'Is left.' Not 'forasen,' but over as a survivor."

"'As a rotted in a vineyard.' A very good line, I think."

"The man withdrew. After he had come back a reporter asked him, 'What is the Godwin wealth in peace from books and bonds and the like?'"

"The Godwin wealth was blessed."

"The other source of wealth was the spoils of the nation, which was taken, unbroken from unjust sources, connected with treachery, selfishness and crime. As always, the Cain mark was on its forehead, bore a curse in its heart, and it brought an atmosphere of moral moralism."

"The Godwin wealth was blessed."

"'Pray, Morgan, asked John S. Godwin, 'What is the Godwin wealth in peace from books and bonds and the like?'"
