USES PRISONERS TO BUILD ROADS

**KALAMAZOO COUNTY KEEPS AT
WORK PETTY OFFENDERS IN-
STEAD OF IN JAIL.**

**EXPERIMENT IS PROVING A COM-
PLETETE SUCCESS AND THE
COUNTY GAINS THEREBY.**

**Since Last Spring Nearly 32 Miles of
Good Gravel Roads Have
Been Completed.**

**Drunkards, vagrants and petty criminals
have nearly completed building 32
miles of good roads for Kalamazoo
County. The work was started early
last spring, and with excellent weather
conditions the road commission has
been able to push the improvement
with great rapidity.**

**This is the only county north of
the Mason and Dixon line using
community prisoners on public improvements
and the scheme is only being tried
here as an experiment. So far, ac-
cording to members of the road com-
mission, it has worked out much more
successfully than anticipated.**

**Men formerly sent to jail to serve
from five to 20 days for drunkenness
or vagrancy are now sentenced to
serve on the road gang for a week
or two. Officers do not find it diffi-
cult to keep from 20 to 30 men on
the gang all the time. In fact, if
drunkenness among the local im-
migrants falls down for a week or two
and dry county visitors become scarce,
the railroad yards are usually raided
and a dozen or so hoboes picked up
and sentenced to work on the road.**

Detroit Census Figures.

**The greatness of Detroit and its
enormous increase in population in
the last 10 years, as proved by the
census figures just made public at
Washington, have created a country-
wide sensation.**

**That Michigan's metropolis could
leap from a population of 285,704 in
1900 to 465,766 in 1910, a gain of 68
per cent, has evoked exclamations of
wonder from New York to San Fran-
cisco.**

**Before the figures had been pub-
lished six hours letters of query and
congratulations began to arrive. Hun-
dreds of presidents and general man-
agers of big manufacturing plants in
other cities wrote to ask what extra-
ordinary advantages caused this
growth; others who knew Detroit and
who had long predicted that her star
was ascending wrote to say: "We
told you so" and "What will it be in
1920?"**

**From coast to coast all the big daily
newspapers carry today leading stories on
Detroit's sensational development. It
is the biggest feature of the entire
census report.**

The U. P. Enrollment List.

**From the upper peninsula is coming the
"explanation" that the enormous
enrollment figure up there is to be
accounted for by the fact that the
lists have not been revised, and in-
cludes dead men and men who have
moved away.**

**Deputy Secretary of State MHS
thus explains the explanation:**

**"The 58,000 enrollment given out
here is a corrected enrollment. We
take great pains to keep the figures
straight. When we have reason to
believe that the township clerks are not
taking proper care of the rolls and
striking out the names of the dead,
or those who have moved from the
territory, we call their attention to
this in a letter. In this manner we
are enabled to keep a fairly accurate
list."**

**There may be a few names very
few—in the enrollment that belong to
dead men, but if such names are on
the list, we do not know it."**

Survived With Neck Broken.

**William Spaniard, a man who
was so terribly burned last week and
was not expected to live, is recover-
ing and physicians state that he will
recover. Spaniard seems to bear a
charmed life. When a boy living in
Milto he was thrown from a horse
and his neck was broken. For weeks he
lingered near death, but eventually
recovered. Doctors state that his
recovery from the burns received in
the gasoline explosion is just as
marvelous as his recovery
after having his neck broken.**

Hipless, Sees Father Die.

**Unable to stir from his bed because
crippled, a son of John Elliott was
compelled to lie in and watch his father
die at Ionia.**

**The father had been kicked by a
cow while milking. The blow, over
his heart, crushed his ribs, and he
was dying from hemorrhage when he
staggered into the house. The crippled
son was the only other member
of the family in the house. There
are two other sons and a daughter,
but when help came it was too late
to save the father's life. He was 65
years old.**

Four Injured in Wreck.

**The Grand Rapids & Indiana flyer,
north bound, collided at Mendon, about
30 miles south of Kalamazoo, with an extra north bound freight
train that had orders to take siding
at Mendon for the passenger. Four
of the train crew are injured and one
of them may die.**

**Mrs. O. Bendetson's reward for the
honesty of a little girl who returned
her pocketbook containing \$380 in
cash and a \$100 check to a store-
keeper, after finding it in an alley,
was \$1. Mrs. Bendetson is the wife
of a farmer living near Lansing.**

**Through information furnished by
County Agent Baker of Muskegon
Lewis Morris, who was separated
from his family when a child, had
been re-united with his brother, Frank,
who lives only a few miles from
Lewis, whose home is in Stanislaw,
Poland. Mother and a sister of the brothers
lived some time ago.**

MICHIGAN ITEMS.

**Eight candidates appointed at a
mass meeting will revise the Traverse
charter for \$1 each.**

**Because of a shortage in the hay
crop, alfalfa is being imported from
Kansas to meet the demand for fod-
der.**

**Eleven deer have been taken to Isle
Royale as a "starter" for the state
game preserve there, by State Game
Warden Pierce.**

**There is every indication from let-
ters received daily by the dean of
the department that the class in jour-
nalism at the U. of M. this year will
be large.**

**In attempting to save a young woman
who had ventured out beyond
her depth in the surf at Venice, Cal.,
John H. Ridgway, aged 45, of Detroit,
lost his life.**

**Mrs. John Knoll, living five miles
from Helland, was so badly burned in
a gasoline stove explosion that she
died a few hours later. She was fill-
ing the reservoir when it let go.**

**David Lauder, aged 73, a pioneer
citizen of Port Huron, dropped dead
after proudly displaying a string of
fish he had just caught. He leaves a
widow, three daughters and two sons.**

**Leon Andton's motor crashed into
the plate glass front of N. E. Roby's
drug store, in Coldwater, when he
lost control of it, and pushed the
glass back two inches without break-
ing it.**

**The Robert Gage Coal Mining Co.
has abandoned its shaft near Owosso.
A three-foot vein of good coal was
found at 100 feet, but crumbling slate
above made it useless to attempt to
mine it.**

**Daniel Douglass, son of a Houghton
real estate dealer, was instantly killed
when his auto upset in a ditch, 16
miles north. Three other members
of the party escaped with severe
bruises.**

**Lansing police are of the opinion
that the fire in the storeroom of
George Deck, a few days ago, was
set by his enemies and they claim
to have enough evidence to warrant
an arrest.**

**That Michigan's metropolis could
leap from a population of 285,704 in
1900 to 465,766 in 1910, a gain of 68
per cent, has evoked exclamations of
wonder from New York to San Fran-
cisco.**

**Before the figures had been pub-
lished six hours letters of query and
congratulations began to arrive. Hun-
dreds of presidents and general man-
agers of big manufacturing plants in
other cities wrote to ask what extra-
ordinary advantages caused this
growth; others who knew Detroit and
who had long predicted that her star
was ascending wrote to say: "We
told you so" and "What will it be in
1920?"**

**From coast to coast all the big daily
newspapers carry today leading stories on
Detroit's sensational development. It
is the biggest feature of the entire

from his family when a child, had
been re-united with his brother, Frank,
who lives only a few miles from
Lewis, whose home is in Stanislaw,
Poland. Mother and a sister of the brothers
lived some time ago.**

**Peter Hill, of Port Huron, senior
member of the firm of Peter Hill &
Son, died Monday after a long illness.
He had been a director of the First
National bank 20 years and a member
of the board of estimates 20 years.
He was a native of Germany and
lived one son and two daughters.**

MANCHESTER, MICHIGAN. THURSDAY, AUGUST 25, 1910.

IMPROVED AND ADEQUATE VENTILATION FOR STABLE

A GREAT INVENTOR

STEEPLEJACK MILLER DEAD

Famous "Human Fly" Who Finally Met His Fate by a Fall at Los Angeles.

Illustration Shows How Air Is Pumped From Building at All Times, Regardless of Direction in Which Wind Is Blowing

Genius Who Holds 15,000 Patents and Whose Air Brake Is in Universal Use on Railroad Trains of the World.

The blankets softer than the clear water. A second blanket may be washed in the rinses water of the first, saving the soap.

Hang the blankets in the bright sun, and when perfectly dry, beat with a rattan-beater to raise the pile.

Day after day a high wind is blowing, and the brooklet has ceased its singing.

When the sun like a savage forms his scorching force, not rays like the arrow.

To the deep, sweet depths of the forest.

And then banks cushioned. That we only in woodlands learn.

ART OF KEEPING QUIET.

The blessed art of keeping quiet is one which, like Africa, is the mother of our prostration and a hundred other ills. The first lesson to learn is to keep quiet. One has been taught to the world that when a man is quiet and when fully dry shake until the feathers inside the covering are soft and light.

Laugh as a health measure by all means, but laugh as opportunity as possible.

Vacations are all right white, but last, but deliver us from the first week after.

It will be hard for the small boy to believe that not all ice cream cones are fit to eat.

A "dumb" for aeroplane stunters might properly be included in the list of summer cautions.

Western shopkeepers are having a hard time keeping up with the aca-

tic crops of alfalfa.

Notes shortens life, discovers some fellow who will not doubt live quietly to his hundredth birthday.

Paris is producing some interesting aeroplane literature. One machine is hit by lightning and melted.

The man who invented monorail would have pleased more of us if he had only made it easier to get.

Russia is opening a school of aviation. This ought to snuff the dead and wounded column considerably.

Pulling the wrong lever of an aero-

plane can never become a fixed habit with an aviator. One usually suf-

If it will help, we will say that the new hobbies skirts look like a man feels when his suspenders have broken.

Russia is opening a school of aviation. Let's hope that aviators will make a better showing than her navigators.

The diamond trust has been re-

newed for five years. But who can renew his note on the engagement ring that long?

The snake stories of the season are showing a fine crop. The fish stories will have a little head in coming up to their standard.

One Milwaukee man did not see his bride until he married her. Many brides do not see their husbands at all after marriage.

A Maryland man has caught a rat snake to chew tobacco. Fastidious Maryland people will refuse to associate with rat snakes, however.

Aviator-Harmon says that to be a successful bird man one must be absolutely indifferent to death, that being just about what most of us decide some time ago.

Another policeman has been shot in the leg when his revolver dropped from his pocket. We may have to invent some kind of bullet-proof vest to conserve them.

American women, says the great

truth in the face of Providence, may find confirmation in the fact that an aeroplane has been struck by lightning, although we have not stopped belling houses because it is occasionally hit by a bolt.

A convention of dentists at Denver has issued a number of "Dolts" for the benefit of the public. The idea is to let a boy eat half an apple and then the rest to a playmate. The small boy will unanimously endorse this suggestion.

Shooting a husband who comes home late under the impression that he is a burglar may lessen the heat of staying out too long, but it involves the risk of shooting several reasonably serviceable husbands.

A trolley line is to be built between St. Louis and Kansas City. The service is to be informed as to whether it is intended to give St. Louis people better chance than those now have to go to Kansas City or whether it is proposed to furnish a new outlet for Kansas City people.

Those who think that aviation is "sins in the face of Providence" may find confirmation in the fact that an aeroplane has been struck by lightning, although we have not stopped belling houses because it is occasionally hit by a bolt.

A convention of dentists at Denver

has issued a number of "Dolts" for

the benefit of the public.

The idea is to let a boy eat half an

apple and then the rest to a playmate. The small boy will unanimously endorse this suggestion.

Nellie Maxwell

HEN the flowers are parched by the wayside.

Then the brooklet soled,

the brooklet has ceased its singing.

The Enterprise

PERSONAL MENTION

By MAT D. BLOSSER

Art Jaeger has put a new engine into his launch.

FOR SALE—Murdy Plums now ripe. CHRISTIAN WAB.

Bundles of newspapers for general use at the house, 5 cents at ENTERPRISE office.

FOR SALE, a good span of work Horses, sold cheap if sold soon. E. E. STARK

Live poultry wanted every Wednesday at the Central Market. LUCKHART & KIEBLER

Two good soon of hand Truck Wagon and one Surrey for sale cheap. A. J. WUNSTER

Pure Cider Vinegar for sale, 15¢ a gallon. Discount on 10 gallons or more. J. C. HAWLEY

FOR SALE—Cement Post Machine. Makes 10 posts at once. Just the thing for the farmer. Will sell cheap. J. C. HAWLEY

Mr. & Mrs. Frank Merithew returned from sunny southern Alberta Saturday morning.

We received a pleasant call from Mr. & Mrs. Fred Wright of Trenton on Homecomers' day.

Mr. & Mrs. Ben Widmeyer drove over from Chelesa to visit Fred Heschke and family on Sunday.

Mr. Geo. Hahn who is taking treatment at Battle Creek sanitarium was at home on Sunday.

Fred Schuhle of Ann Arbor came Tuesday to visit his father Michael Schuhle until Friday.

Edna and Roy Lamming returned home Sunday after spending a week with their sister in Toledo.

Mr. & Mrs. E. T. Green and son Clarence of Ypsilanti spent Homecomers' day at T. J. Thorne's.

We have a good many people say that our Homecoming day was all right, but the students taken should not have been allowed here as their presence was offensive.

We have received an attractive souvenir of the Knights Templar conference at Clinton on the 15th, a memento sword from Ames L. Hough, a former Manchester boy who is with Schwabchild & Schaeffer on Stock buyers.

When there are so many visitors in town as there were on Homecoming Day it is impossible for the Extramurals to do the proper motion of each and every visitors to the office, but we appreciate their call and the many expressions of good will.

We were favored by a call from Homecoming day from Arthur Hahn whose father Mr. Hahn was for about a quarter of a century postmaster at River Raisin. Adolph has been at San Francisco, Calif., the past five years but has come back to his home state and is located at Pontiac for awhile. He brought his mother here with him to meet the old friends.

A number of our citizens went to Waukegan's lake last Thursday to attend the business men's picnic and report that there was a large crowd and a jolly time was greatly enjoyed. Everybody people are good about getting together on such occasions and they did not fail to close their stores, shop and residence for day and go to the lake for the fun they could get out of it.

In starting in a new year the publisher of the ENTERPRISE hopes for the support of all his old patrons and a whole lot of new ones. Prospects are very bright for a successful year. The past few months have proven the regard of the public for the ENTERPRISE and Manchester's good and new have for the ENTERPRISE and new have for letters of commendation and no room for us that we feel are an asset to us upon a more successful career. We shall continue to publish such news as is suitable to be read in the family circle and shall do all we can to boost Manchester.

Jackson County.

Among jurors drawn for the September term of circuit court are: Wm. MacEach, Gratiot Lake; Elmer A. Luce, Napoleon; Wm. Ferguson, Norwell.

Among successful winners of certificates at the examination we have the following teachers: Second grade, Hazel Crafts; and Gladys Flak, Grass Lake; Jessie Kay, Brooklyn; Gerle Smith, Napoleon; Alice Coulon, Brooklyn; Leslie Ott, Norwell; Third grade, 3rd grade, Helen Collins, Grace Bacon, Chelmsford; Second grade, Hazel Crafts, Grass Lake; Third grade, first year—Bettie Ward, Hazel Smith, Napoleon.

Washtenaw County.

The Ninth Michigan Infantry, veterans of the Civil War, will hold their annual reunion at Ypsilanti, Saturday, October 14 and 15. Gen. H. M. Duffield of Detroit is president and H. C. Polk of Ypsilanti, his secretary of his historical association.

Gould has been connecting the names of H. Paul of Bridgeport with the democratic nomination for county treasurer. Ann Arbor Daily Times. We believe that he would make a good officer. He has been a crack jack as a highway commissioner.

ATHLETICS STOP NARCOTICS USE

AN DEVELOP HEALTHIER BODIES AND STRONGER MINDS.

MUCH MONEY IS SPENT

Prof. C. S. Berry of the U. M. in a Lecture Before the Ann Arbor School of Religion Came Out Broadly for Athletics.

Lansing, Aug. 21.—Prof. C. S. Berry of the U. M., in a lecture before the Ann Arbor School of Religion, came out broadly for athletics.

"The problem of modern education is not the development of the mind, but rather education of the mind and body together," said he. "Toward this end, athletics should be established. It is estimated that five times as much money is being spent each year for athletics as was spent 15 years ago. The Y. M. C. A., the church and the social service organizations are the basis for moral development."

"From state statistics it has been found that the high school pupils are in small part to the teaching of the principles of hygiene, but mainly to the social part of the high school school.

Participents of this state voice for the good influences of athletics upon the moral development of the school.

Seventy-five per cent of the boys in the schools are interested in school athletics, and in order to do this they must be industrious in their work. The requirements of the Intercollegiate association are strict."

In conclusion, Professor Berry Fred

the following shot into the camp of the amateuristic camp of the literary professors:

"The state constitution, athletics, literature, etc., the form is do-

ing most for the moral development of the high school girl and boy. To the day teachers must be educated to see the importance of physical and mental development. We can develop healthier bodies and stronger minds in the young today, only by awakening the health conscience of the teachers."

Oliver Riding Plow

At 9:30 a. m. Roosevelt attended the saw

mill, and ended right there.

If the distressed damsel appeared he

would tell Eunice that he had

changed his mind; if she didn't

believe him, she would turn to him.

A bright idea had occurred to him.

He had written "in haste" on the

envelope of his letter, but by so doing

he had made it look as though

he had written it in a hurry.

He had decided to be a good, plain

girl, and Silas kept his eyes open

for what was coming.

He came on July 1st. A young

girl, with a smile, was the postman.

She had been sent by the man

in the village, came down to the mill pond to "lab."

"Silas was in the mill yard, wrestling the saw

and answer has been received as

yet—but it is expected soon.

The state grade, through the efforts of Grand Master P. H. Hall, has been organized. Over 1,000 lodges across the state. This first petition is attached to the one now

being received during the month of

July. This corresponds to an annual

rate of 22.3 per 1,000 estimated popula-

tion. The number returned was an

increase of 275 over June.

Ask Eddy to State Fair.

At 10:30 a. m. Roosevelt attended the

state fair, and ended right there.
