

DRY'S WINNERS  
N ELECTIONMOST POPULOUS COUNTIES ARE  
WON BY ANTI-SALOON  
FORCES.

## CAPITOL OF STATE TO BE ARID

Each Side Loses Two Counties to  
Other First Reports Indicate  
Eight Dry and Four  
Wet Victories.

Lansing—Inadequate returns from the twelve counties voting on the local option issue Monday indicate that the drys have won in eight and the wets in four by the following vote: counties voting dry:

County. Popula. Result  
Benton ..... 10,633 85 D.  
Kalkaska ..... 8,097 85 D.  
Mecosta ..... 19,466 45 D.  
Midland ..... 14,000 45 D.  
Saginaw ..... 10,445 45 D.  
Oscoda ..... 2,027 115 D.  
Ingham ..... 8,310 85 D.  
Roscommon ..... 2,774

Counties voting wet:

County. Popula. Result  
Alpena ..... 10,610 85 D.  
Clare ..... 9,240 155 W.  
Ogemaw ..... 8,807 45 W.  
Wexford ..... 20,761 10 W.

Clare and Wexford were previously dry and Ingham and Roscommon wet. These four are the only counties of change status by reason of Monday's vote.

It is the most notable victory ever won by the drys in Michigan. They are all the more gratified by the result of the vote of the state, now wet, goes dry by over 700 votes; Roscommon, the home of the governor, now dry, remains so by over 1,000.

Wexford, including the city of Cadillac is close, but appears to be wet by 10 votes on the face of the returns given to us by the wet by 4 for me.

The anti-saloon league claims Ingman, voted by 1,050 and the wet by 700 majority. It had probably gone dry by 700 majority.

Despite the blizzard and hard country roads, many people appeared rallied in force as usual on dry cause. There were abundant charges of colonization from dry sources but only one arrest was made.

The anti-saloon league claims Ingman, voted by 1,050 and the wet by 700 majority. It had probably gone dry by 700 majority.

Early returns from out of state indicate that the voting was light and the returns in cities and towns in the local option issue not involved and in many places ran high, which he ran early, kept the voters at home.

In Greenvale a revision of the charter of the state revenue commission for government was voted. St. John voted against a revision in Hillsdale, a proposition to good road system appears to have lost.

While the state revenue commission indicates are in Washington, they are not in the state, the state revenue commission is a result of their

revised by a large majority.

Local voted to re-elect its charter.

Shawnee Man Asses Again.

Corunna, Mich.—William R. Kent, deputy state tax examiner, who had been in the county two days, has filed a complaint with the state tax commission that the county has failed to meet his demands.

Rep. McLean, 19, son of Sam McLean, a farmer, south of Sandusky, was instantly killed when his foot slipped and he plunged head-first into the 5 1/2-wheel of a gasoline engine in motion.

George Kerian, 35, of Auburn, is at his home suffering from injuries suffered when a ton of slate and dirt fell upon him. He is in the hospital Sunday. Kerian was bending over to clean his clothes when the roof caved in. Miners say that it is remarkable that none of his bones were broken. Fellow miners dug him out.

Sexton repairs are being made along the Huron River front of the county several weeks ago and spent no weeks; comparing property sales with the assessed valuation of adjoining property, and the order of the state tax commission that the state tax commission is a result of their findings.

The drys tax examiners are in the county several weeks ago and spent no weeks; comparing property sales with the assessed valuation of adjoining property, and the order of the state tax commission that the state tax commission is a result of their findings.

TELEGRAPHIC FLASHES

Extensive repairs are being made along the Huron River front of the county several weeks ago and spent no weeks; comparing property sales with the assessed valuation of adjoining property, and the order of the state tax commission that the state tax commission is a result of their findings.

Best Amoskeag Apron Ginghams 6c yd.  
1 gr. Children's Muslin Pants 10c per  
Ladies' Dress Skirts, 10 per cent Discount  
Men's, Boys' and Youth's Suits and Hats, 10 per cent Off

Our New Grocery Department is  
Offering Some Attractive Specials  
for Saturday. Note hand bills.

Yocom, Marx &amp; Co.

## Manchester Enterprise

## Personal Mention

Mrs. Ethel Kiedel of Adrian was at home over Sunday.  
Miss Frieda Trumb of Detroit was at home over Sunday.

Miss Georgi, Wurster of Detroit was at home over Sunday.

Frank Masius went to Toledo Monday to see his sister who is ill.

Mr. &amp; Mrs. Frank Palmer have moved back to Bridgewater.

Fred M. Freeman was at Auburn, Ind., on business a few days ago.

Horner Fish was taken very sick last Friday with acute indigestion.

Wade and Ward Magin of Detroit visited their parents here over Sunday.

Miss Lizzie Lockhardt went to Charlevoix Saturday for a few days visit.

Will Blatford George Sherwood went to Waukegan's lake Tuesday to clean the cottage.

Ole Luberts and family of Detroit visited his parents from Thursday until Monday.

Brothers and sisters of Fred Kessler were here last week, called on account of his being sick.

Dr. E. M. Conklin is somewhat better this week than he was last week and is able to be at his office.

The death of Yeapleman in was to take a few days over his way to visit his brother in Clinton.

Mr. &amp; Mrs. John Steward and daughter, Mrs. Pauline, spent Sunday with Mr. &amp; Mrs. G. Field in Tecumseh.

Miss Anna Neyer of Ann Arbor came Saturday to visit her mother and sister until Wednesday.

Miss Edna Henderson returned to Ann Arbor Monday after spending the vacation at her home here.

W. H. Porter of Jackson once a Manchester boy was in town yesterday afternoon calling on old friends.

Mrs. O. F. Blane and son Leo of Tecumseh visited their mother, Mrs. John Kramer over Easter.

Geo. Wais drove over from Ann Arbor in his car and took his family home on Monday afternoon.

Mr. &amp; Mrs. Clifford Glover of Ann Arbor visited his parents, Mr. &amp; Mrs. Henry Landwehr over Sunday.

Herman Pfeiffer has been made Luke's horse agent Trenton in place of a man who has been sent to West Detroit.

Miss Estella Cope, who has a position in Frank's photograph gallery in Ann Arbor, visited her parents here last week.

Rev. Peter Scheurer of Elkhorn visited Dr. Schaefer on Tuesday. He had been to Detroit to attend the conference.

We learn that Mrs. Louie Weaver formerly member of Manchester chapter O. E. S. has been elected worthy matron of Lincoln chapter.

Mrs. George Walk and three children came from Ann Arbor last week to visit her mother, Mrs. C. Vogelbacher and remained until Monday.

## MEMORIAL DAY.

Special Observance of Memorial Day is Urged This Year.

With the fact in mind that only for a few years more will the commemorative exercises of Memorial Day be carried on by those who fought by the side of those who fell, Fred L. Kessler is most earnestly urging that schools, both normal and public, observe the day with appropriate exercises.

The spirit of patriotism and gratitude to those who answered the call of the nation, must be kept alive.

How rapidly the host of the Grand Army is vanishing is shown by the position rolls. During the year ending June 30, 1913, the number on the pension list was decreased by 36,000 deaths.

The inheritance left by those men of the youth of today is a debt to the nation.

The incriminating of this spirit is a duty of the school of no small importance. Our Manchester village schools have always insisted in the exercises held at the hall or at our grove cemetery and we have no doubt they will do so this year.

The ENTERPRISE suggests that the citizens will soon form a committee to observe the observance of the day, then have exercises done. It is high time to begin making arrangements and in order to get the matter started we would suggest that those interested meet at the ENTERPRISE office Monday evening April 20 at 7 o'clock am.

Mrs. Chester Glass went to Portland Saturday morning, where she got a horse and traps and drove back to Tecumseh stopping at Grand Lodge on her way back for a day or two to visit friends.

We met Mr. &amp; Mrs. Eha Conklin of Naples on the train Monday. They had been to Joliet for a few days with friends. They had a stay of a week or two ago from which he is recovering slowly.

G. M. Drake of Philadelphia removes his subscription for the ENTERPRISE, paying two years in advance. He has just returned from a fishing trip in Florida and from the account given in the STARS we judge he had his usual good luck.

Ole Wuerthner at Ann Arbor Tuesday was elected one of the four delegates to represent Western Michigan at the camp to be held in Bay City in June. He was also elected county commander for four years. Mrs. Wuerthner accompanied him.

A. M. KIRBLER

San Jak is the only safe medicine to use for kidney, liver and bladder trouble. Sold by A. A. Snowman. Adv.

Keep Fit's out.

Send in your orders early for Door and Window Screens, before flies come.

W. KIMBLE

For Sale, Two Registered Hoisted Frieden Bells, ready for service.

SCHUMACHER BROS.

I will pay the top price for Poultry brought in the early in the week.

# HAPPENINGS IN THE CITIES

## Picturesque Institutions of Gotham Eliminated

NEW YORK.—A picturesque bit of New York life is being eliminated pretty rapidly by that industrious young woman, Mrs. "Katie" Davis, our new commissioner of corrections. She threw up her hands in horror at the hoary old custom she found in our famous bastile, proceeded to get a new broom and made a clean sweep. She has even dared to squeeze the insidious evil of the woman charity worker, which is still in great vogue at Sing Sing.

Why, it's come to such a pass that it's almost impossible to pass a "shot of hop" to a friend temporarily detained.

A young woman called to see her husband, accused of petit larceny. She came more curious, and especially interested in a pretty little hat pin. It had a long, black, shiny head. And the pin was rudely drawn from the hat. It was hollow, in fact, had once served as the cap of a fountain pen. White cotton was packed inside and the core was a quantity of white powder. "About four grains of morphine," said Dr. Lichtenstein, the Tombs physician. So the young woman was soon occupying a cell near her husband.

The "morbidity parties" are a thing of the past, too. These sight-seeing expeditions have become a special joy to New Jersey commuters. In fact, there are rumors that certain railroads have run special excursions that ruralites might be "uplifted" by a vision of some of the famous Tombs residents. A walk over the Bridge of Sighs brought thrills to the New Jersey heart.

The death knell of the wine-champagne affairs indulged in freely by the more wealthy occupants of cells has been sounded, also. No prisoner is allowed to purchase more than 25 cents' worth of food at one time.

Another famous institution has passed in the rude closing up a Tom Sharkey's cafe. Alas, alas, and once more alas. Here I will shed a real tear. Tom's place was certainly much better than most of the rest in his neighborhood, and there are dark rumors about the genesis of the affair.

But Tom was declared out of order by a city magistrate and sent to the Tombs for 30 days, where he distinguished himself by shoveling more snow out of the courtyard than any other man there, and made himself still more famous by getting a greater amount of work out of the prisoners than any other man since Hendrik Hudson threw the first drunken redskin into a stockade and forced him to roll cigars for the colony. Tom was going to punch any guy who didn't keep his shovel going.

But while Tom added to his laurels in the Tombs his famous \$10,000 mahogany bar was going, going, gone for \$250.

## Conductor Tells of Troubles With Passengers

INDIANAPOLIS, IND.—"Yes," said the street car conductor, growing comical after an altercation with a passenger about a transfer of ancient vintage, "this here job's a cinch—you oughta try it. In this business you learn things about folks, you do. For instance, t'other day a sorry-looking old party wanted to ride free with me because he hadn't the price of a fare and he was too old and sick to walk, but I'd seen him before and I said 'miz'! I thought the men on the back platform would put me off, the way they went at me and the company and everybody connected for a soulless bunch, and at last one man tried to make me ashamed by coughing up a nickel. The old man was grateful to him and went and picked out the choice seat in front where he could put his two feet on the other seat."

"Says I to the nickel giver, 'You think I'm a cigar sign for heart, but if you want to get-wise just drop off when the venerable gent does and be a silent. If everything's all right report the next time you ride with me and I'll give you this nickel back.'

"Well, that got him curious like, and he did it, and some time later I happened to pick him up again, and the first thing he pushed me out a cigar."

"Say, pardner, you were right about that old guy," he said. "What did he do but beat it for the nearest booze joint and load up with a good stiff 'un, and then carry off a pint of red juice, and he didn't ask the barkeep to give it to him neither."

"A girl one day handed me a transfer. It was punched for the wrong day, the wrong hour and the wrong line, but she crossed her heart and said she'd just got it, so I let it go, 'cause, of course, you can't set a little kid girl out on the curb. At the end of the line I noticed she was having trouble with her mind and she says, 'Say, mister, I wasn't telling you no story about that transfer. I did just get it. I just got it off the pavement. I ain't got a cent now, but I'm goin' to bring you the nickel I owe you.' All right, sissey," I said, and thought no more of it, 'cause folks don't usually fetch nickels when they once get away, but a day or two after that, when I came to the end, there was my girl waiting, all shriveled up with cold, and with my nickel tucked in her mitten. Say, I just felt like I wanted to wait for that girl and marry her by and by."

It was punched for the wrong day, the wrong hour and the wrong line, but she crossed her heart and said she'd just got it, so I let it go, 'cause, of course, you can't set a little kid girl out on the curb. At the end of the line I noticed she was having trouble with her mind and she says, 'Say, mister, I wasn't telling you no story about that transfer. I did just get it. I just got it off the pavement. I ain't got a cent now, but I'm goin' to bring you the nickel I owe you.'

"All right, sissey," I said, and thought no more of it, 'cause folks don't usually fetch nickels when they once get away, but a day or two after that, when I came to the end, there was my girl waiting, all shriveled up with cold, and with my nickel tucked in her mitten. Say, I just felt like I wanted to wait for that girl and marry her by and by."

"Well, that got him curious like, and he did it, and some time later I happened to pick him up again, and the first thing he pushed me out a cigar."

"Say, pardner, you were right about that old guy," he said. "What did he do but beat it for the nearest booze joint and load up with a good stiff 'un, and then carry off a pint of red juice, and he didn't ask the barkeep to give it to him neither."

"A girl one day handed me a transfer. It was punched for the wrong day, the wrong hour and the wrong line, but she crossed her heart and said she'd just got it, so I let it go, 'cause, of course, you can't set a little kid girl out on the curb. At the end of the line I noticed she was having trouble with her mind and she says, 'Say, mister, I wasn't telling you no story about that transfer. I did just get it. I just got it off the pavement. I ain't got a cent now, but I'm goin' to bring you the nickel I

## BIG RANCHES BECOMING COMMON IN NORTHEASTERN MICHIGAN

By H. J. DANIELS.

Big ranches are becoming more and more common in northeastern Michigan. Hundreds of thousands of acres, comprising hundreds of square miles in the counties of Roscommon, Iosco, Montmorenci, Crawford, Arenac, Oscoda and Alcona are being developed along the bug unit idea adopted from the West. It is the apotheosis of the "back to the farm" movement, the conversion of farming into a business, and is "big business."

Near Houghton Lake, N. Michelson, an extensive lumberman, has an 8,000-acre farm where he grazes several thousand head of sheep and cattle every year. Six hundred acres of this ranch are under cultivation.

F. C. Poppleton's 4,000-acre farm adjoins that of Michelson, on the south shore of the big lake. This is a new ranch and is being inclosed with woven-wire fence. A mammoth barn was erected last season. Several thousand cattle, sheep and hogs will roam over most of that area the coming season.

Another large ranch is the Milwaukee ranch, also bordering on Houghton lake; it consists of 19,000 acres and is owned by Dr. Albert Thomas of Chicago. This ranch is also inclosed with wire, and keeps 2,000 head of stock within bounds. Of this tract 340 acres are set out to fruit.

Henry B. Smith of Bay City has a 4,000-acre ranch in Arenac county and is rushing the clearing, fencing and stocking of it. J. A. Whitaker is establishing a 7,500-acre ranch on the south side of St. Helens lakes, and is getting ready for a sheep and cattle ranch.

On the Au Sable river, northeast of St. Helen, lies the big ranch of the South Branch company, with 13,500 acres, all fenced. For several years this company has been raising and grazing cattle and sheep. Over \$100,000 have been spent on this ranch to improve it and to put up modern buildings.

These are but a sample of more than thirty large ranches in the northeastern part of the state, where many large fortunes have been spent to the end that may be proven that northern and northeastern Michigan is a great country for cattle and sheep, far in excess over the value of Montana lands for the same purpose.

**Rowlette's Bear Story.**  
Robert Rowlette, a Frenchman by birth, deserves to be classed in the same grade with Munchausen, according to the allegation of some of his friends. He tells a bear story with several thrills, just as thrilling in fact, as though the story were true. He tells of a pet bear he had taken into his bosom after the brute had scared him out of a seven-year's growth.

Rowlette's little shanty is far from the path of habitation in a distant corner of that country. It is just one feeble glow of human life in a little world of stumps, scraggling pine slashings and old windfalls, and in this cabin in the heart of the wild land, alone with his traps, the little Frenchman first met his strange companion. While following a trap line recently Rowlette saw a huge bear. The animal did not run, but stood still and made whining sniffs and then slowly approached him. Rowlette took to his heels, but brim followed in a leisurely fashion. Once securely behind barred doors, Rowlette thought himself safe. But the animal scratched on the door and gave vent to long dismal howls. He was of the opinion that the animal would leave shortly, but the animal curried himself on the

Roger M. Andrews, who was publisher of the Menominee Leader before he located in Los Angeles, Cal., was the originator of a plan for Cloverland to become the "state of Superior."

The idea received much popular support, but the matter was never taken up in an official way. That Cloverland's development has been greatly hampered because of its geographical isolation from the balance of the state is not to be doubted. The natural channels of trade and communion with the world are through Wisconsin rather than through the lower peninsula.

### Potatoes in Antrim.

Better than three hundred bushels of potatoes can be grown to the acre in Antrim county, and has been done for a number of years. One of the most recent to prove that assertion was Henry De Vries of Central Lake, who is but thirteen years old. Under the direction of his school teacher, Henry laid out, planted and cared for a potato field covering one-eighth of an acre. He harvested 38 bushels and 18 pounds. Better than 37 bushels of these potatoes were marketable and at the prevailing price were worth \$18.95. The expense of producing the crop was \$10.08, and his profits \$8.87. Had he used an acre of ground his crop would have amounted to 306.4 bushels, the potatoes would have been worth \$151.60; and the profits would have been \$70.96, which is a greater sum than the cost of good land in the Antrim section of western Michigan.

### Holstein Breeders Meet.

The breeders of Holsteins in Chippewa county have not only brought that business up to a high state of efficiency, but they have organized so that in future years an even greater success may be attained. Recently at Sault Ste. Marie a mass meeting of Holstein breeders was held, officers were elected and the following name was adopted, "The Chippewa County Cow Club—Holsteins Only." The members

threshold and was prepared to make a night of it. Rowlette could do nothing but go to bed. Shortly after midnight he was awakened by something damp upon his face and he was horrified when he saw a bear sitting beside his bed. He yelled in an effort to frighten it and also furnished a means of escape for his own flight. Then the bear climbed upon the bed and sat upon him. The animal licked his face and gently hugged him.

Rowlette said the bear went away,

but returned the next night and that the two are now the best of friends.

One day, he says, the bear went into the woods, killed a deer and brought it to the cabin door.

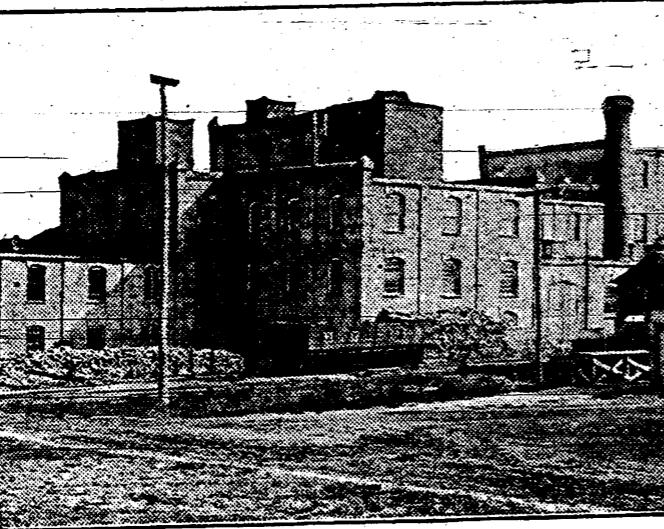

### On the Right Track.

Alpena is on the right track in the matter of procuring pure corn and other varieties of seed for the farmers in that county. The chamber of commerce will act as a clearing house between farmers who have seed for sale and farmers who want to buy it. Great care will be taken in the matter of eradicating the county of all old corn so that a brand new start may be made this year, and that within three years the county will be well started in a campaign to make of Alpena county the leading corn growing county in the state.

### Want Separate State.

During the farmers' short course at the Menominee County Agricultural school, the question of whether Cloverland should become a separate state was again debated. The immediate possibility of a move in that direction is not bright, but it is believed that eventually the northern peninsula will be separated from lower Michigan

### LACK OF BEETS CLOSES BIG FACTORY IN CHARLEVOIX

Best Sugar Factory at Charlevoix.

Things are in hard lines when a company has to abandon a plant that cost upwards of half a million dollars. Yet that had to be done in Charlevoix county, and not because there is no money in beet sugar. The farmers could not be induced to furnish beets in large enough quantities to make the running of the plant a paying proposition. The farmers of Charlevoix county and the adjoining counties are doing too well in general farming and fruit growing to be willing to do the harder work of raising sugar beets. Then, too, the soil necessary to raise good beets is heavier than almost any other crop that can be grown in the north.

bers agreed to use only pure bred Holstein registered sires, and to urge others to do the same. They also agreed not to keep or sell unregistered bull calves, rendering all such useless, and will prevent bulls of all ages from running at large. Joseph N. Welsh was elected president and L. C. Holden secretary.

### A True Story.

A true story from Otsego county: A farmer living in the county had a chance to buy an 80-acre farm with some fair improvements for \$975 cash. The owner was hard up and needed the money. The deal was made and the man who bought the place put ten acres of it into potatoes as soon as spring work could be done. The potato crop was given about half the attention it should have had, but the yield was good, and the returns from the crop more than paid for the 80-acre farm and the cost of taking care of the crop. There are thousands of acres of land left in Otsego county on which the first crop will often pay for the land.

**Work in the Orchard.**  
Fertilize and cultivate the orchard now for the coming crop of fruit.

pump as much out of the stomach by the aid of a stomach tube as possible. Then administer a purgative and anemetics. It sometimes happens that expert help is not available. If such is the case then the matured horse should receive from one and one-half to two quarts of raw linseed oil and two ounces of turpentine. Many neglect a horse that has over eaten until the symptoms of colic appear and then call a veterinarian who may have difficulty in saving the horse.

The same precautions should be

taken when a cow has accidentally eaten a part of a sack of oats, wheat or corn. From one to three pounds of epsom salts given to a cow immediately after such a large feed may save the cow's life and also prevent her being foaled. The thing to remember is to do something for the cow immediately after the accident has been discovered.

### Make Feed Profitable.

Try and raise all your feed and feed all you raise.

pine tar to four parts of kerosene, sprinkle the sulphur over the cobs and set on fire. Be sure to have everything arranged so as to beat a hasty retreat from the room and close the door quickly, as sulphur fumes are suffocating. Sulphur burned in this manner will penetrate every crevice as well as covering the surface and aids wonderfully in purifying poultry building and in destroying poultry vermin. One pint of turpentine may be added to the half gallon of kerosene as well as the pine tar with benzene in a solution of one part of

## NOTES FROM MEADOWBROOK FARM by William Pitt

Plant some apple trees. . . .

Feed the capons liberally. . . .

Turkeys must have free range. . . .

Much depends on the hen's feed. . . .

Apple growers favor the open center head. . . .

Order fruit trees for planting now. . . .

Don't delay. . . .

Corn occupies a valuable place in the rotation of crops. . . .

Concrete floors in the barn help a great deal in saving manure. . . .

Seed oats should be cleaned with a fanning mill before being sown. . . .

Plenty of pure water is imperative where large egg yields are expected. . . .

The difference is in the cow, rather than the feed, or milk or the churn. . . .

Use a scrub sile and your herd will soon run all to nose and bristles. . . .

Use lots of straw in the winter season. Bed it deeply under all your stock. . . .

Do not plant more apple trees unless you are taking good care of what you have. . . .

It is not just to judge another if you cannot place yourself in the other position. . . .

Egg-eating is a vice acquired by fowls when a tempting broken egg lies before them. . . .

Decay is certain to follow in the wake of the man who does just a half-way job of pruning. . . .

Whether times are hard or prosperous, the herd of cows on the place is always good insurance. . . .

A lot of hogs in a hog lot well-grown with clover will bring a lot of money to their owner's pocket. . . .

Hand separator cream produces better butter than that separated any other way, say those who know. . . .

See that the sheep have a good supply of cool, clean water. It is absolutely necessary in hot weather. . . .

Oats and peas are cut for hay when the oats are in the dough stage and peas are beginning to form in the pods. . . .

The part of cabbage growing that makes the expense low is the cheapness with which harvesting is done. . . .

You may know what you have gotten out of your milk since January 1, but do you know what you put into it? . . .

It is quite universally conceded that oats and field peas are superior to either oats or barley for soiling purposes. . . .

Stagnant water will make young chicks ill about as quickly as any other bad thing that may be introduced into their systems. . . .

Many farmers pasture their rye for six weeks or more in the spring, and then take all stock from the field and later cut the stand for grain. . . .

Nearly every farmer does and should be liberal in the liberal use of oil and grease. These lubricators are much cheaper than new machinery. . . .

The red mites or lice do not stay on the fowls during the daytime, but hide in cracks during the night, sallying forth after dark to seek their prey. . . .

In planning for that new orchard give plenty of room. Sunshine destroys fungous growth and should be let in about the trees and to the ground beneath. . . .

A filthy hog trough is a seedbed of disease and, next to hog cholera, it is the greatest enemy to the swine industry. Get a sanitary trough of some kind and keep it clean. . . .

All crops for the sile should be grown thicker than where they are grown for grain and nearly all of them should be allowed to mature well or the grain to harden, before they are cut. . . .

When you use a trough in grinding in cold weather, let the water out after you are done. To let the lower part of the stone stay in water freezing out and thawing, is a pretty sure way to ruin the place which touches the water. . . .

Fix the hog pasture at the back of the farm so the growing pigs and the brood sows will be compelled to go out for their forage and back for their ration of grain at night. The exercise is beneficial, particularly to the pregnant brood sows. . . .

For the land's sake, haul out the manure and scatter it over the field where it will do the most good. The farmer who does not value this waste product of the dairy cannot appreciate the true benefits accruing from the business. . . .

When you use a trough in grinding in cold weather, let the water out after you are done. To let the lower part of the stone stay in water freezing out and thawing, is a pretty sure way to ruin the place which touches the water. . . .

Fix the hog pasture at the back of the farm so the growing pigs and the brood sows will be compelled to go out for their forage and back for their ration of grain at night. The exercise is beneficial, particularly to the pregnant brood sows. . . .
