Local and Personal

We have to have a little rain about every day.

Teddy Schaeble was up from Ypsilanti Tuesday with one of those handsome Buick cars.

Mrs. Floyd Ager of Tecumseh came here Saturday night and accompanied her parents to the Schmid cottage at Sand Lake Sunday morning.

John Schaffer is procuring the lucky if not expect fisherman of this section. It is claimed that in casting a few days ago in Sand Lake he hooked and successfully landed two large bass on one bait at the same time.

Now that grain harvest has begun we may expect threshing to commence. Some farmers have so much grain, wheat, rye, barley and oats that they can't cut off threshing and will take two or three turns at it.

THE ENTERPRISE

By MAT D. BLOSSER

For nearly 48 years the news giver for Manchester and surrounding towns. We invite every body to call at the Enterprise building, and see the paper in person. We want to know you and you to know us. We want to know what you think of it, and we want to know what you can't call, write us, giving your name. We want your advertisement, your job printing, and order for stationery.

Phone 44

We want you to take the ENTERPRISE and keep posted on what is doing in Manchester and vicinity.

\$1.25 a Year; Single Copy 5c and must first be paid in advance.

The Paid Date

To which every subscriber's ENTERPRISE runs is printed plainly on every paper sent by mail. If the paper is received and used after that date, the subscriber thereby legally assumes responsibility for payment, and the ENTERPRISE is mailed to all subscribers subject to such responsibility.

If you don't want the paper after your paid date expires, don't receive and use it. If you do so you must pay for it.

Notices of meetings or of any event where a fee is collected must be paid for; obituary notices, card of thanks, etc., do not incur a fee.

We want to do your probate advertising. Ask Judge Murray to send the notices to the ENTERPRISE and he will.

When you write or phone, don't ask for anybody in particular just say No. 44.

THURSDAY, JULY 29 1915

The Germans have Warsaw nearly encircled.

We learn that a petition is being circulated throughout the county for another vote on local option.

U. S. Marines have been landed in Haiti and may remain until a good government is established there.

It looks more favorable today for peace in Mexico, and the formation of a government the United States can recognize.

There seems to be a need of more thorough work by inspection officers at lake ports, according to evidence brought out in the Eastland disaster at Chicago last Saturday. If reports are true that boat has been a hoodoo since it was built. The design of the hull was faulty and they knew it.

That there is nothing new under the sun is again proven by the discovery of plumbing work very like that of the present day, in the ruins of Crete cities destroyed 1800 years B. C. We wonder if the plumbers' bills were also discovered. In this country often the bill lasts longer than the job.

Sunday's rain storm was quite general but it was a deluge at Clinton and Tecumseh and the grain was flattened to the earth. Lightning struck Wm. Richmond's new barn in Macon and he and James Hatch and a horse were knocked down. It was some time before Mr. Richmond recovered.

In order to get a bill through to give financial aid to the state fair and the Grand Rapids fair, it is claimed, the legislature voted to give all the incorporated fairs of the state a substantial lift. In making the award the commission finds that many of the fairs have made money and do not need help, so a less amount is given them than to others not so fortunate.

If the state railroad commission is still to allow of grade crossings throughout the country, they should compel the railroads to equip signals at each crossing with "Safe" on one and "Danger" on the other, so located that every person on foot, in wagon or auto may see, read and know the condition of the crossing, whether a train is coming or not. To compel people to stop at every railroad crossing to see if the track is clear, is not satisfactory. At some crossings the track can not be seen for any distance up or down and a train running at a mile a minute speed would be upon him before the driver could get back, start his car and cross the track. The loss of life at grade crossings is frightful and the state should do its utmost to prevent it.

Notice

Manchester Village Taxes are now due and payable at The Union Savings Bank every day except Mondays and Saturdays. If not paid before Aug. 1, 1915, four per cent will be added.

The sweetest and best way to preserve fresh fruit flavored preserves is to make your preserving syrup with one-fourth Karo (Crystal White) instead of all sugar. This formula makes a rich, heavy syrup, not too sweet, and retains the natural fruit flavor. Jams and jellies made with Karo (Crystal White) are sure to "set", and keep free from crystallization.

W. C. Ruckman of Seattle has our thanks for copy of city paper containing account of the great Shriner's meeting held there. He is a member of Nile temple which entertained the visitors and is chairman of the committee on advertising.

Mr. & Mrs. Wm. Oelger and daughter and son, Pauline and George, Mr. & Mrs. Wm. Ran and daughter Grace, Mrs. Boehmke, Mr. & Mrs. Reed and Mr. & Mrs. Beck motored from Detroit to spend Sunday with Mr. & Mrs. Geo. Einkorn and family.

Harry Austin and family of Homer had been visiting at Norwell and Brooklyn and came here Monday afternoon and took supper with Mat D. Blosser. He left at 5:57 for home but Mr. Blosser took Mrs. Austin and daughter to A. J. Austin's in Norwell in his car.

Mr. & Mrs. B. F. Burtless accompanied by Mr. & Mrs. Frank Burtless of Lansing came here Friday night in their auto and remained until Sunday night. They in company with Mrs. Wm. Burtless and daughter Hazel went to Clinton Saturday to attend the Updike family reunion.

Last Friday forenoon Frank Merithew made a business trip to Grass Lake and visited the stock seed farm near there. There are about 580 acres under cultivation and a large variety of crops are grown. We'll bet that Frank knows where the watermelon patch is located. A five acre patch of sweet peas in blossom is one of the beautiful sights of this farm just now.

Pay as you go is a good motto.

The vacation season is here. When do you take yours?

The Enterprise has begun work on the annual school catalogues.

The corn fields are getting somewhat weedy on account of the wet weather.

There are so many automobiles in use that railroad travel is visibly effected.

July is going to make a record as a wet month. The rain fall so far is about double the normal.

We received a very friendly and pleasant call last Friday from Frank Munger and family of Detroit.

Beginning Sept. 1st the post office will give senders of parcel post packages, a receipt on payment of one cent extra.

Look at Dr. Servis twice then you may recognize him, for there's no wool on his upper lip, the place where the wool used to grow.

Homer Fish of the firm of Briegel & Fish, Manchester house barbers, was taken sick Sunday but was back in the shop this morning.

The Methodist Sunday school was to have held its annual picnic in Torrey's grove up the river today, but on account of rain was postponed until after the Chautauqua.

Have you secured your tickets for the chautauqua which will be held here next week, beginning Tuesday and closing Saturday, if not secure them now as you can save money by doing so.

There are a few places about the village that need attention. While the streets are pretty well soaked with water it would be well to use a drag on them to even them up and make those rough spots smooth.

John Wuerthner and family were caught in a rain at Riga Sunday afternoon and decided it safer to leave the car in a farmer's barn and come home on the train, than to tackle the clay roads after dark.

Howard Clark's men are busy on Pet Stab's new house on north Washington street next to Adam Schabale's. It is to be an eight room house with furnace, bath, city water, lights etc., making it a thoroughly modern residence.

Only a few farmers have threshed their wheat, none in this vicinity that we know of. The crop is big and has mostly been secured in good shape. Some pieces will yield 40 bushels to the acre. The rains of the past few days have greatly interfered with harvest work.

Mrs. George Miller is now nearly settled in her new hotel or boarding house near the depot. She has seven bed rooms up stairs and two or three down stairs besides a neat sitting room, a dining room and kitchen. She has several boarders and accommodates some transients.

There is not much dust flying about just now but there are times when the air is full of it and people sigh for relief. The sprinkler can't keep the dust down on all the streets and it might be a good idea to try oil. Clinton and Tecumseh use it on some streets and it would not be very expensive to test it here.

Farmers are finding the letter "W" on the leaves of oats and other grain and some say the omen pertains war. Gottlieb Heim of Bridgewater has left a hens egg at The Enterprise office on the small end of which is embossed what he called a figure 6 or 9 but which has since been suggested as a letter G signifying war with Germany. It's a curiosity anyway.

Farmers tell us that grain has not ripened or cured in the shock as fast as usual. They do not know how to account for this. Some are putting off threshing on that account. Many farmers will stack their grain and give it time to cure as well as give them time to take care of other crops. Grain stacked is not apt to spoil in wet weather and the straw will remain bright.

Merchants generally agree that there is need of more lights on Exchange Place. On Tuesday, Thursday and Sunday evenings when the stores are closed, the street is too dark. They say a good many people are driving through town evenings and there should be more and better lights on the streets to give a better appearance as well as more light. The Enterprise has talked with most of the merchants on the subject. A few, at least one or two favored the park light system, but all the others say "don't encourage that, let's pay our debts first," which we think is good reasoning. But we hope the council will have two or three more lights installed in the business section.

Frances and Louise Goodyear are visiting friends in Detroit this week.

Mrs. Geo. Walz and children accompanied her mother home from And Arbor Wednesday for a few days' visit.

Next week will be chautauqua week and every person who can should attend every session. The management has provided us a fine program and from what has been said regarding talent there is no better. The local committee who are responsible for the financial success of the chautauqua, have labored hard to that end and the only reward they get for their efforts is the satisfaction of furnishing their townspeople and friends a program of pleasing and refined entertainers, literary and musical for the betterment of our fair village. The cost, \$1.50 for season ticket, is very reasonable, and even if you cannot attend every session it is cheaper to buy a season ticket, they are transferable.

It is hoped that all our citizens will make an effort to go. Show your loyalty and appreciation and perhaps we can arrange for a chautauqua next year.

Hurrah for the Chautauqua.

The lively notes of the Scottish bagpipe will be heard here when the Kilites band, bringing with them a real Scottish bagpiper give their program of music and song on the fourth day of the Manchester community chautauqua, Friday, August 6.

The Kilites band is a 19 piece organization appearing in full Scottish costume of kilt and plaid. They give an attractive program of old Scotch ballads and war songs, with a plentiful mixture of good "American music." The members of this band are all Scotch Canadian, and they have but recently completed a tour of the world covering in all over 86,000 miles and playing in 20 different countries.

They journeyed far up into the Scottish highlands and gave a concert before the king at Balmoral Castle. His majesty declared that he had "never enjoyed a band concert so thoroughly" and at his birthday celebration a few weeks later, the Kilites were invited to furnish the evening's entertainment. At the conclusion of this concert the band master who had received a Victorian medal following the first appearance of the band before the king, was again congratulated and was presented with a beautiful baton, decorated with the King's initials and studded with diamonds and rubies.

In addition to the regular band numbers given by the Kilites their program includes several selections on the Scottish bagpipe. Miss Jean Campbell, known as one of Canada's best sopranos accompanies the Kilites as soloist.

The band is under the direction of Alfred Dunn, an accomplished soloist and composer. They will appear twice at the chautauqua, playing the prelude to the afternoon lecture and offering their complete program in two parts in the evening.

Following the concert given by the Kilites, the next entertainment feature will be a concert by the Stratford Opera company. This company consists of five artists, headed by Miss Lulu Hatfield Solomon, a well known soprano. The Stratfords will give the prelude to the afternoon lecture on the fifth day, and at night they will sing a group of popular songs and conclude by giving a portion of "The Mikado" in costume.

Mrs. Solomon who heads the company is a dramatic soprano of wide experience, and has a clear high voice of the fullest resonance. She has studied under such masters as Oscar Sangier, Francis Fisher Powers, Herbert W. Greene and Madam von Klenner of New York.

Miss June Brandon, contralto, is also a soloist of wide operatic experience. She possesses a voice of remarkable range volume and power.

Carver Wolfe, tenor, was tenor for several seasons with the Oberlin male quartet and has appeared in many of the principal cities of this country.

The fourth member is Talmage Bittkofer, baritone. He sings with much power and his selections are particularly pleasing because of his highly developed dramatic instinct.

The lectures which will be given on the same day with the Stratfords will be along the lines of community development, by Fred Eastman, a community expert. The subjects of his lecture will be "Taking Stock of the Old Town," and "Waking Up the Village."

As secretary of the Matinecock Neighborhood association, Mr. Eastman, together with others, undertook the rejuvenation of the little mosquito-bitten town of Locust Valley, Long Island, a hamlet of 240 families possessing no improvements. So successful was the work of the association that Locust Valley now has macadamized roads, a thriving church, a self-supporting library, cooking, musical and training schools, no mosquitoes, a public bathing beach and a \$24,000 neighborhood club house. The "ills" of Locust Valley and how they were "cured" will be told by Mr. Eastman in his lecture.

Thomas Holmes, one of our oldest inhabitants and a sure enough democrat, is something of a fisherman and many visitors to Lowe's lake have been shown where to go to get the kind of fish they want. Whether they get them or not, we will not say, but presume they did. Uncle Tom has seen a big turtle in the lake many times and its size was of such vast dimensions that he dare not talk about it for fear of being dubbed a prevaricator. He says the head of that turtle is high about as big as his, and some day he hopes the tortoise will be captured to substantiate his claim.

WHERE THERE'S A WILL

MARY ROBERTS RINEHART

AUTHOR OF 'The CIRCULAR STAIRCASE, The MAN in LOWER TEN, WHEN A MAN MARRIES'

ILLUSTRATED BY EDGAR BERT SMITH

SHOULD NOT HAVE MOVED

Story of a Man Who Was Making Good, but Roving Fever Got the Best of Him.

On May 4th, 1915, the St. Paul Farmer's Dispatch contained a very interesting account of the experiences of a man from Staples, Minn. Realizing that he was not making much headway, he decided to look up a homestead in Canada. With \$250 he and his wife took up a homestead near Outlook, Saskatchewan. After recounting his experiences of a few years, in which they had undergone hardships which were likely to be unavoidable, with a small amount of capital, he continues the story by stating that in the fall after a fair summer's work on his 100 acres cropped, he cleaned up nearly all his debts, having now four good horses, a complete set of farm machinery including two wagons and a "Swell" top buggy and eleven head of cattle. He continues, "However, I was not satisfied. I had been reading of the splendid homesteads that were to be had in Montana. Wheat was cheap and I thought it would get cheaper, so I began to think that homesteading was better than farming. I did not stop to consider that wheat was not the only thing; as a matter of fact I had sold pork for 14 cents a pound. Eggs and butter had kept up in groceries and more, we had now four milk cows, two heifers coming in and more growing up. We had a cream separator, and some hogs. We had a quarter section of land that could raise an abundance of small grain, roots and grass for feed, but I could not see all that; I had the 'moving fever,' and decided to sell.

I set the price on the land at \$3,000 cash. I could not find anyone with that much money, however, so I came down until I finally sold for \$1,400. We had an auction and sold the personal property. On the sale we got just about enough cash to pay the auctioneer; the rest was all notes. The horses brought about two-thirds what they were worth. The implements sold for hardly one-third of what they had cost. The cattle brought a good price.

Must Make Another Start.
We now have a homestead in Montana, but we find that after moving here and getting settled, what money we had did not go far. We have three horses, about all the implements we need, and a little better buildings than we had on our former place. We have no cattle, though we had to build much fence to keep ranch stock out of our fields. We have about \$500 worth of honest debts.

True, we have a half section in place of a quarter, but that is no good to us, as long as we have not the capital with which to work it. In summarizing it all up I see where I made a mistake. It will take fully five years to get into as good circumstances as we were before we made the change. It is five years lost. My advice to anyone contemplating a change of location is to think twice before you act, and if your present circumstances are not too bad, stay by your bush till you pick it clean."—Advertisement.

SYNOPSIS.

Minnie, spring-house girl at Hope sanatorium, tells the story of her life with the arrival of Miss Patty Jennings, who is reported to be engaged to marry a prince, and the death of the old doctor who owns the sanatorium. The estate is left to a scapegrace grandson, Dicky Carter, who must appear on a certain date and run the sanatorium successfully for two months or forfeit the inheritance of \$100,000. Miss Patty, who is a graduate of the law, is prevailed upon by Van Alstyne, Dicky's brother-in-law, to impersonate the sanatorium until Carter arrives. Dicky, who has eloped with Patty's younger sister, Dorothy, and the couple go into hiding in the old shelter-house. Fearing to face Dorothy's father, who has the sanatorium, Dicky arranges with Miss Patty to continue in the management of the property. Miss Summers, leading lady of Pierce's grand theatrical company, arrives. She is suing Dicky for breach of promise. The prince, under the name of Oskar von Inwald, arrives at the sanatorium. Barnes, character man with Pierce's show and a graduate M. D. takes the place of sanatorium physician. Pierce, who is very much interested in Patty, shows a strong dislike for Inwald. Dick becomes peevish over the independent manner in which Pierce is running the sanatorium. Dick Carter is seeking the owner of the sanatorium. Dick is attempting to steal his love letters from Miss Summers, breaks into the wrong room and gets the wrong letters. Miss Summers does not believe it has been poisoned by the patients. Pierce and start a row. He tells them the truth about themselves and they make preparations to leave. Dick and the blockade compel the patients to return. Pierce lays out a course of rational and simple living and all agree to give it a trial.

CHAPTER XII.

They took to it like ducks to water. Not, of course, that they didn't kick about making their own beds and having military discipline generally. They complained a lot, but when after three days went by with the rain running as much on schedule as it ever does, they were all sick there, and Mr. Jennings had lipped out and spent a half hour at the good pile with his gouty foot on a cushion. I saw it was a success.

I ought to have been glad. I was, although when Mrs. Dicky found they were all staying, and that she might have to live in the shelter-house the rest of the winter, there was an awful scene. I was glad, too, every time I could see Mr. Thornburn's gloomy face, or hear the things he said when his name went up for the military walk.

The strange thing of all was the way they began to look up to Mr. Pierce. He was very strict; if he made a rule, it was obey or leave. (As they knew after Mr. Moody refused to take the military walk, and was presented with his bill and a railroad schedule within an hour. He had to take the military walk with Doctor Barnes that afternoon alone.) They had to respect a man who could do all the things in the gymnasium that they couldn't, and come in from a ten or fifteen-mile tramp through the snow and take a cold plunge and a swim to rest himself.

It was on Monday that we really got things started, and on Monday afternoon Miss Summers came out to the shelter-house in a towering rage. "Where's Mr. Pierce?" she demanded.

"I guess you can see he isn't here," I said.

"Just wait until I see him!" she announced. "Do you know that I am down on the blackboard for the military walk today?"

"Why not?"

She turned and glared at me. "Why not?" she repeated. "Why, the audacity of the wretch! He brings me out into the country in winter to play in his atrocious play, strands me, and then tells me to walk twenty miles a day and smile over it!" She came over to me and shook my arm. "Not only that," she said, "but he has cut out my cigarettes and put Arabella on dog biscuit—Arabella, who can hardly eat a chicken wing."

"Well, there's something to be thankful for," I said. "He didn't put you on dog biscuit."

She laughed then, with one of her quick changes of humor.

"The worst of it is," she said, in a confidential whisper, "I don't feel it. I guess if the truth were known I'm some older than he is, but I'm afraid of him, Minnie. Little Judy is ready to crawl around and speak for a cracker or a kind word. Oh, I'm not in love with him, but he's got the courage to say what he means and do what he says."

She went to the door and looked back smiling.

"I'm off for the wood-pile," she called back. "And I've promised to chop two inches off my heels."

As I say, they took to it like ducks to water—except two of them. Van Inwald and Thornburn. Mr. von Inwald stayed on, I hardly know why, but I guess it was because Mr. Jennings still hadn't done anything that set them off, and with the newspapers marrying him every day it wasn't very comfortable. Next to him, Mr. Thornburn was the unhappiest mortal I have ever seen.

Doctor Barnes came out that afternoon and watched me while I closed the windows. He had a package in his hand. He sat on the railing of the spring and looked at me.

"You two dollars you haven't got on any—er—winter flannels."

"I never bet," I retorted, and went on folding up the steamer rugs.

"I'd like to help," he said, "but you're so darned capable, Miss Minnie."

"You might see if you can get the slot-machine empty," I said. "It's full of water. It wouldn't work and Mr. Moody thought it was frozen. He's been carrying out boiling water all afternoon. If it stays in there and freezes the thing will explode."

He wasn't listening. He'd been fussing with his package and now he opened it and handed it to me, in the paper.

"It's a sweater," he said, not looking at me. "I bought it for myself and it was too small—Confound it, Minnie, I wish I could lie! I bought them for you! There's the whole business—sweater, cap, leggings and mittens. Go on! Throw them at me!"

But I didn't. I looked at them, all white and soft, and it came over me suddenly how kind people had been lately, and how much I'd been getting—the old doctor's waistcoat buttons and Miss Pat's furs, and now this! I just buried my face in them and cried.

Doctor Barnes stood by and said nothing. Some men wouldn't have understood, but he did. After a minute or so he came over and pulled the sweater out from the bundle.

"I'm glad you like 'em," he said, "but as I bought them at Hubbard's, in Finleyville, and as the old liar guaranteed they wouldn't shrink, we'd better not cry on 'em."

Well, I put them on and I was warmer and happier than I had been for some time. But that night when I went out to the shelter-house with the supper basket I found both the honey-mooners in a wild state of excitement. They said that about five o'clock Thornburn had gone out to the shelter-house and walked all around it. Finally he had stopped at one of the windows of the other room, had worked at it with his penknife and got it open, and crawled through. They sat paralyzed with fright, and heard him moving around the other room, and he even tried their door. But it had been locked.

By Friday of that week you would hardly have known any of them. The fat ones were thinner and the thin ones fatter, and Miss Julia Summers could put her whole hand inside her belt.

And they were pleasant. They'd sit down to a supper of ham and eggs and apple sauce, and yell for more.

They fussed some still about sleeping with the windows open, especially the bald-headed men.

Mr. von Inwald was still there, and not troubling himself to be agreeable to any but the Jennings family. He and Mr. Pierce carefully avoided each other, but I knew well enough that only policy kept them apart. Both of them, you see, were working for something.

Miss Cobb came to the springhouse early Friday morning, and from the way she came in and shut the door I knew she had something on her mind. She walked over to where I was polishing the brass railing around the spring—it had been the habit of years, and not easy to break—and stood looking at me and breathing hard.

"Minnie," she exclaimed, "I have found the thief!"

"Lord have mercy!" I said, and dropped the brass polish.

"I have found the thief!" she repeated, firmly. "Minnie, our sins always find us out."

"I guess they do," I said shakily, and sat down on the steps to the spring. "Oh, Miss Cobb, if only he would use a little bit of sense!"

"He?" she said. "He nothing! It's that Summers woman! I'm talking about Minnie. I knew that woman."

"Well, there's something to be thankful for," I said. "He didn't put you on dog biscuit."

She laughed then, with one of her quick changes of humor.

"The worst of it is," she said, in a confidential whisper, "I don't feel it. I guess if the truth were known I'm some older than he is, but I'm afraid of him, Minnie. "You're not warmly enough dressed for this kind of thing," he remarked. "Where's that gray rabbit fur, or whatever it is?"

"If you mean my chinchillas," I said, "they're in their box. Chinchillas are as delicate as babies and not near so plentiful. I'm warm enough."

"Too look it," he reached over and caught one of my hands. "Look at that! Blue nails! It's about four degrees above zero here, and while the rest are wrapped in furs and stamas, you're out on a shawl. I'll bet you two dollars you haven't got on any—er—winter flannels."

"I never bet," I retorted, and went on folding up the steamer rugs.
