THE ANKER-HOLTH
SELF-BALANCING CREAM SEPARATOR

THE ONLY
CREAM
SEPARATOR
WITH A
SELF-
BALANCING
BOWL.

Why the Anker-Holth Cream Separator Satisfies the User

BECAUSE the bowl, being self-draining, makes it non-freezing in cold weather.

BECAUSE it is easily cleaned and easy to turn—that's why the "women folks" like it.

BECAUSE the bowl has no lead or soft solder on the inside in order to effect a balance.

BECAUSE it will get more cream that will make more butter from a given amount of milk than any other Separator made.

BECAUSE it is the only Separator with a dirt chamber that removes all impurities from the whole milk before it enters the discs for cream separation.

GOOD AND BAD WEDDING DAYS

Many and Varied Are the Superstitions That Have to Do With the Marriage Altar.

THE SUPERSTITIONS WHICH CHARLIE ROUND THE ALTAR ARE AS MANY AND AS MYSTERIOUS AS THE WAYS OF A MUSH WITH A MUSH.

Mr. Clark has always had a bad name as a wedding month since faraway Roman days, and Lent has been in equal bad odor.

But why should June be considered the luckiest month of the year? Is it because the sun is at its height, and we can live in comfort?

Or is it because we could live in comfort and work our bodies with a lazy, sedentary motion in posting him on his walk.

One of the many remarkable things about a crab is its ability to throw off a limb, and it can do this and grow them again. The scientists call this "auto-tomism," or "the automatic division of appendages of the body."

When a crab is seized, it

is seized by a leg or claw in the water, it often throws off and escapes, and at the place where he was seized his own leg nature has furnished a new one.

5 MAN FOR THE AGES A STORY OF THE BUILDERS OF DEMOCRACY BY IRVING BACHELLER

COPYRIGHT IRVING BACHELLER

CHAPTER XXV—Continued.

"The firm of Seward, Weed and Greely is terribly dissatisfied by the resignation of its junior member."

"I told them that we had soon to deal with that question."

"It was in his office when Herndon said:

"I tell you that slavery must be stopped out."

"What makes you think so?" Mr. Lincoln asked.

"I feel it in my bones," was Herndon's answer.

"After that he used to speak with respect of 'Bill Herndon's bone phobia.'

He was then in congress having entered,

the same book of the law in partnership with William H. Herndon—a man of character and sound judgment.

The two men had a good road to run, and stood a watershed of

satin and a Wellington high hat. He

was wont to carry his papers in his hat. Mary had wrought a great

change in him.

They used to call him 'dead soured lawyer.'

"I remember that once Herndon had drawn up a fictitious bill of exchange on a railroad company. Lincolns came to him with the papers.

"It founded on fact?" he asked.

"Herndon answered,

"Lincoln scratched his head thought-

"Bill, I think we better withdraw that bill."

"You know it's a sham and generally that's another name for it."

"Don't let it go on record."

The court of chancery and the bench the face long after this suit has been forgotten."

On the whole, he was not so com-

These of our farmers who raised pop-

corn for the International Corn Products Co. at Brooklyn, up to the point that company refused to pay cash for the corn. The farmers need money and oppose financing a pop corn market. There is no market for the corn produced by the Farm Bureau or some other responsible party. In either case it will be a "wait for your money" and a lower price than their contract calls for, five cents a pound.
