WHEN YOU SELECT THE

## Massey-Harris Corn Binder

You get the Best Corn Binder Made. It has the largest metal wheel, making it the lightest draft. It has no packers to knock off ears. It is adjustable for large and small corn. It has no neck weight and no side draft.

This machine is warranted in every way.

F. G. HOUCK

Fordson  
THE UNIVERSAL TRACTOR

Cut your farm costs in half with the Fordson

Save money on every acre plowed with the Fordson

Multiply the work of your farm tools four to six times with the Fordson

Cut your hours in the field over half with the Fordson

This Value Has Never Been Duplicated

It takes something besides engineering to furnish a tractor like the Fordson to sell at this astonishingly low price.

That something is owner confidence built on permanent satisfaction. There are 170,000 Fordson tractors in use—wherever Power Farming is being done Fordson is showing superior service.

If you are not using a Fordson now, start right. The working ability of this remarkable power plant is cutting farming costs in half in almost every kind of work done, at the draw bar or from the belt.

Ask us for all the details—call, write or phone.

HUBER & WIEDMAN  
MANCHESTER

## Neighborhood News

## IRON CREEK

Mr. and Mrs. A. A. Green visited relatives in Detroit Friday and Saturday.

Rev. Price and family drove to Toledo Sunday to visit his son and daughter.

Mrs. Marjorie Howland of Ann Arbor was a guest of Miss Ruth Bowring this week.

G. H. Ford and A. E. Sutton and family visited A. E. Brown's in Detroit Sunday.

Mr. and Mrs. G. R. Sutton and Mr. and Mrs. Harry Sutton were just-rot visitors Friday.

Mr. and Mrs. Robert Leach and son Clarence of Chilson were guests at Hazel Leach's on Friday.

Misses Eleanor Frazee of Jackson and Helen M. School of Detroit have been guests of Henry Herman and family.

Mr. and Mrs. Hiltz Haugan and son Hubert, Jr., of St. Louis, were in town Saturday. They spent the past week as Mr. Haugan's salesmen for auto upholstering supplies.

Friends were very pleased to receive a call from Rev. and Mrs. Ladd and son Ross of Berrien Springs, who returned home Monday.

Mr. and Mrs. S. Remington of Adrian visited at Mrs. Green's and Mr. and Mrs. Ladd Saturday. Mrs. Nicklow, who had been a guest of the Ladds for two weeks, returned to her home with her husband on Sunday.

Mrs. Henry Herman, accompanied by Mr. and Mrs. John Coleman, left for Caro last Friday.

Friends were very pleased to receive a call from Rev. and Mrs. Ladd and son Ross of Berrien Springs, who returned home Monday.

Mr. and Mrs. James Stull and daughter, Leila, and Mr. and Mrs. Coleman left for Caro last Friday.

Friends were very pleased to receive a call from Rev. and Mrs. Ladd and son Ross of Berrien Springs, who returned home Monday.

Mr. and Mrs. S. Remington of Adrian visited at Mrs. Green's and Mr. and Mrs. Ladd Saturday. Mrs. Nicklow, who had been a guest of the Ladds for two weeks, returned to her home with her husband on Sunday.

Mrs. W. G. Gilson of Alpena paid the Enterprise a visit Tuesday while visiting this community in an active campaign for nomination as sheriff. Mr. Gilson has long been a resident of Ann Arbor, but is not very familiar with the county. He is gain new friends and further his interests in the coming campaign. He is a good speaker, and though he has withdrawn from active work in that line, during the late war and saw service in the Asiatic and Pacific in 28 months, he is a good speaker and has probably learned a great deal.

He took a walk over the road to the lake at least. The road was in fair condition, and they are elated at prospect of the future. They drive through the wood and around the lake, and good weather continuing it looks as though a good showing will be made.

If anyone thinks the new state of Michigan is a small state, he will probably be surprised.

He is a good speaker, and though he has withdrawn from active work in that line, during the late war and saw service in the Asiatic and Pacific in 28 months, he is a good speaker and has probably learned a great deal.

He is a good speaker, and though he has withdrawn from active work in that line, during the late war and saw service in the Asiatic and Pacific in 28 months, he is a good speaker and has probably learned a great deal.

STATE NEWS  
IN BRIEFBONUS MEASURE  
THROUGH SENATE

Beverly—Falling down the main street of the Arme Plaster company's main office in Beverly, Illinois, a miner, was killed instantly.

Hougham Francis J. Webb, of Duluth, was elected president of the Superior Mining Institute and the next meeting, the award to the Messing Range.

Lansing—Payment of hundreds of thousands of dollars by the state to road contractors will be held up pending a decision of the \$4,000,000 worth of highway bonds, now on the highway commission has announced.

Gladstone—The mysterious disappearance of Matt Branisch, 26 years old, and his automobile, had solved.

When his body was found in Green Bay, Branisch had been missing for more than two weeks.

Pontiac—Pontiac—Methadone—area.

During the entertainment of the 1,100 visitors from the 1922 ODMR Episcopal conference, Sept. 12. An appeal was made to the public to aid to the home pre-

ations.

Dowagie—Until recently those inter-

ested in marriage licenses had to go to Cassopolis, the county seat, to get one.

Now any more Justice of the Peace can issue a license from on up to the license business himself.

Grand Rapids—Reviving an annual tradition, the city fathers have agreed to hold the Elmwood Fair.

Grand Rapids—Mr. and Mrs. Arthur Rosenthal are to be married at the Ramona park.

Arthur Rosenthal is a

lawyer.

Lansing—An efficiency survey of

every state department will be started immediately. Gov. Groesbeck has announced.

It is planned to check up

on all departments with the idea of

eliminating waste of time and money

and labor, the governor said.

Lansing—Michigan's grape crop will be sold this year at a price more than twice that last year, as a re-

sult of the war between grape shippers in this section.

The stable

this year will be \$40 a ton,

as compared with \$18 last season.

More than 2400 foot-long

motor boats, 1000 sailboats and

row boats in Lake Erie, a half

million miles southeast of here. Men

from New York's office brought

the boat ashore and the sheriff is

investigating.

Glendale—Delegates and visitors

from the Eastern Star chapter of

the upper portion of the Cloverland District association, held their annual convention here, Aug. 30.

Getting

Worshipful Master Irene L. Getty, of Kansas.

Cadillac—Several Granges in Was-

hington County will attempt to prevent

the board of supervisors from appro-

priating \$10,000 for the county farm

bureau. At the annual meeting, the

bureau opposition to the present mea-

sure of employing a county agent was

made by a majority of the members.

Frank Lanning—Mrs. Louise H.

Campbell, state director of home de-

mocratization agents since December

1920, was appointed acting head of

the Michigan Agricultural College.

Mrs. Campbell was re-

commended by the state board of

Agriculture. Mrs. Campbell was re-

commended by Mrs. Mary Sweety, re-

signed.

John H. Chase, 76 years

old, died at the Lake Harbor Lodge, No.

23, F. & M. W. was a

general freight train switching

at Kalamazoo street crossing here.

He had intended to cross be-

tween the cars. Chase was a

resident of Lansing for 40 years.

Harbor Springs—After being out

on Lake Michigan for nearly 24 hours

and driving 100 miles in a 27-foot

boat, the 1000-ton freighter

Rapides—This will give me

a chance to plank back into my boat.

Franklin—Mrs. Fred Thompson, Jr., of Harbor Springs, who had been

on a boat trip to the

Michigan coast, was

met at the entrance to the

Michigan straits by the

## CHURCH NOTES

September 1st is supposed to be the date for dissolving straw hats but not yet.

Automobile courses would indeed be better than to have them.

Editor Ahern of the Chelsea Standard paid the Enterprise a friendly visit last Friday.

Charles Young, of Toledo, was away for 10 days and came back Saturday after an illness resulting from a broken hip.

Dedication of the new soldiers' monument recently erected on the grounds of the high school took place Labor Day morning.

Unless the ducks hurry along the river next week, most of them will be gone by Labor Day.

Mr. Emily Ihm of Ann Arbor

and family are visiting the White House, Ohio.

Mr. and Mrs. Fred Hough

will go to Jackson Friday for the 28th Michigan annual reunion.

## SPLENDID WINTER HOME FOR HOGS

Well-Built House Earns Profits for Swine Raisers.

### SAVES LIVES OF LITTLE PIGS

Sunlight Ventilation and Protection From Cold, Essentials in Successful Raising of Pigs, Are Well Provided For.

By WILLIAM A. RADFORD

Mr. William A. Radford will answer questions and give advice FREE OF COST on any subject relating to the subject of this letter. An account of his wide experience in the hog business, manufacturer, he is writing under the name of "William A. Radford," 1000 Franklin Avenue, Los Angeles, California.

Breeding sows maintained by successful swine raisers will be having their fall litters of pigs within a short time. Seven or eight months from

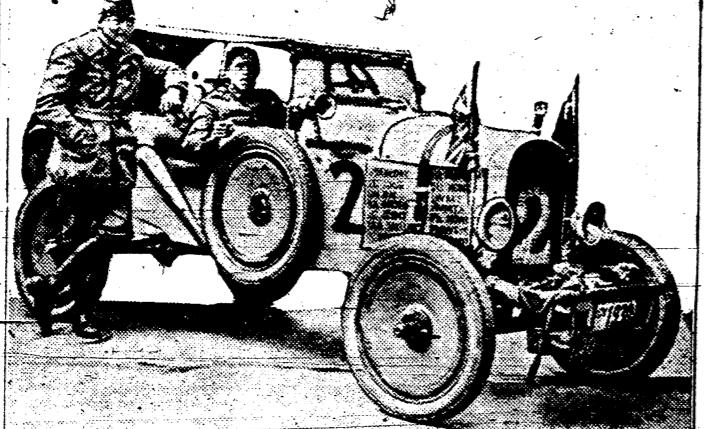

the start, plenty of sunlight to prevent disease and help warn the hogs of the weather in, in the winter, which also carries away the frost air.

Hog houses are constructed from two general designs. One is known as the "pig house" and the other as the "monitorship roof line, with windows set in the side of the wall. These windows, supplemented by windows in the front or back or both parts, permit sunlight to strike the pens on both sides of the interior. The other type of hog house is known as the "garage house" a simple structure of which is shown in the illustration.

This house is of standard frame construction, a good grade of lumber being used to make the frame. The floor is made of concrete, the roof is a monitorship roof line, with windows set in the side of the wall. The building is 41 feet long and 24 feet wide, while the provided room on two sides of the center aisle. Through the center of the building runs a feeding alley, wide enough to run a feed truck, thus distributing the feed to each pen with the least amount of labor.

The long side of the building shown in the picture faces the south. With the sun's rays entering the building through the windows, the pens on the near side and the roof windows admitting the sunlight to the pens on the far side of the building.

1922 by Western Newspaper Union

### Sunday School 'Lesson'

(By REV. P. B. FITZWATER, D. D., Teacher of English Bible in Moody Church, Chicago, Illinois. Copyright, 1922, Western Newspaper Union)

#### LESSON FOR SEPTEMBER 10

##### TEACHING THE LAW OF GOD

LESSON TEXT: Num. 14:14.

"If any man sin, he shall surely pay for his sin, and bring a trespass offering before the Lord, to make atonement for his sin, and it shall be accepted."

##### WHAT TO EAT

Neatly cooked pork chops are always acceptable, though they are more often dried up in the oven. The chops should be cut on a concrete foundation, and have a concrete floor.

Place the chops in an iron frying pan with two or three tablespoonsfuls of oil, to which is added a small amount of water, and the bottom of the pan.

Lay in the chops, and

as the water boils turn

them to the back.

After having traveled more than 60,000 miles, Capt. W. W. Wunderle (and L. Kugus (at wheel) recently arrived in London. They have now toured through the U. S. A., Canada, South America, Mexico and Australia, and are to start on the continent at once. They will not complete their tour until 1924.

## PROPER CARE OF MOTOR BATTERY

Corroded Terminals Are Frequently Source of Trouble, Says Prof. Brokaw.

### FLOW OF CURRENT RETARDED

After Corrosion Has Formed Best Way to Get Rid of It Is to Scrape the Terminal Until There Is Bright Lead Finish.

Corroded terminals are a chief cause of battery trouble, according to H. Clifford Brokaw, technical director of the West Side Y. M. C. A. Automobiles achieve the best economy when the terminals are attached to the main body of the battery, and not to the plates.

They are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the terminals, the current must be taken from the plates.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

As the starting motor takes the current from the plates, the current must be taken from the terminals.

Thus, the terminals must be taken to rinse the plates after each charge.

Corroded terminals are set into the concrete foundation, and will only allow a sufficient amount of current to pass to operate the lights and horn.

## Neighborhood News

## IRON CREEK

Miss Mable Herman spent Labor Day in Saline.

Wesley and Ralph Noggle were Toledo visitors Wednesday.

Lewis Kaupp and family of Wyandotte visited at Geo. Kirkwood's over Sunday.

School opened in district No. 1 Monday with Miss Edith Wilson of Jackson as teacher.

Miss Bernice and Lauri Schell went to Detroit Thursday for a few days visiting relatives.

Mr. and Mrs. Alfred Smith and their son, Fred, spent Labor Day with their parents, Mr. and Mrs. Chris Frey.

Mr. and Mrs. B. Remington of Adrian spent Labor Day with their mother, Mrs. Green.

School in district No. 4 opened on Monday with Miss Dorothy Smith.

Carl Rave and family of Detroit spent Sunday at the Detroit fair Wednesday.

Mr. and Mrs. Ed. Smith of Adrian visited Sunday.

Miss Winona Rushton opened the school in the McMahon district Monday with eight pupils.

The Woman's Missionary Society met with Mrs. Henry Herman Sunday afternoon at Rev. G. Kirkwood's.

Mr. and Mrs. George Sutton and Mrs. J. W. Schable drove to Grand Rapids Wednesday and will remain until Friday.

Mr. and Mrs. Orin Green and children, M. Lake Ogle, and Dorothy and Roy Wiedman, were visiting at Rev. G. Kirkwood's last week.

Rev. Hall of Ludington preached at Rev. G. Kirkwood's Sunday forenoon and A. Burch of White House, Ohio, preached Sunday evening.

Ora Stitt, formerly of this town, now a resident of Los Angeles, Cal., came at Detroit Wednesday from Wednesday until Saturday.

Sunday guest at the home of Mr. and Mrs. John Yeutter and son, Fred, was Mrs. John Yeutter and son, Mrs. John Norek, Ann Arbor, and also Michael Henzie and wife, Cophian.

Fred Welch, who when a boy lived in Adrian, now a resident of Toledo, now owned by Wm. Poor, was invited to marriage to Miss Dorothy and many cottagers entertained friends for the last time this season.

The Young People's Association of Toledo held their annual enjoyable meeting at the home of Mr. and Mrs. J. W. Dresselhouse last Friday evening. The meeting was opened in a new room which had been the close of an attendance of the winning side, of which Miss Ruth Moore was the big one. Not only were the tables filled to capacity during Sunday and Monday, but many cottagers entertained friends for the last time this season.

Mrs. Ethel Bowes and son, Fred, were invited to the home of Mr. and Mrs. Nellie Rader, and son, Fred, spent Sunday at the party.

Mrs. Robert Feldkamp and sons, Omer and Carl, were guests of Mrs. Carl Kochle last week.

Don McLaughlin, a Detroit, a former teacher at Pleasant Lake, called on friends there Sunday.
