VETERANS

Veterans eligible for automobile and other conveyances under Public Law 663, 79th Congress, should make application for vehicles on or before June 30, 1947, according to a recent announcement made by the Veterans Administration.

The statement issued is as follows: 1. A to the effect of the delinquent date, June 30, 1947, for completion of claim under Public Law 663, 79th Congress, it may be

stated that this is an appropriation act and the appropriation may not be obligated for the purchase of automobiles after June 30, 1947. However, in a decision dated December 26, 1946, the Comptroller General advised the VA that, under the procedure followed by the VA for the accomplishment of the purposes of Public Law 663, an obligation in the sum of \$1000 to cover the purchase price of a vehicle or conveyance is regularly placed on record against the appropriation involved upon approval of a veteran's application, his obligation being not executed until after that date. The appropriation "3670139, automobiles and other conveyances for disabled veterans, VA 1947" continues available until June 30, 1949, for liquidating obligations incurred on or before June 30, 1947.

2. Inasmuch as the obligation to cover the purchase price of the vehicle or conveyance may not be set up without evidence of the veteran's eligibility, it follows that section 1 and section 11 of VA form 4502, Veterans' Application for Automobile or Other Conveyance, must be completed before the obligation can be accomplished.

SPAFORD SCHOOL CLOSING

The Spaford School closed May 23 with 100 per cent attendance the last six weeks. The pupils joined the McMahon school with a picnic and roller skating at San Lake their last day.

The pupils enrolled are Diane, Ronald and Leonard Ahrens, Pauline Buss, David Hudson and Jerrald Bivins. Their teacher, Mrs. Ray Troit, has been hired to remain for next year.

Michigan cigarette smokers are already beginning to hoard packages of tags before the new state tax goes into effect. One consolation for whatever it is worth: A package of the weeds sells for 60 cents in England. British are taxing luxuries heavily. Twelve percent of their budget goes for national defense, compared to 6.3 per cent in this country.

There may be a hidden blessing in the late delivery of state bonus checks. Michigan veterans of World War II total 636,000, and the current rate of processing bonus applications is less than 1,500 a day. Federal economists insist that a dollar will be worth 10 to 20 percent MORE a year from now, as prices decline and consumers get more than their money's worth.

If a doctor is occasionally hard to find, remember that 55 per cent of all licensed physicians and specialists, so the University of Michigan post-graduate conference on medical education was told the other day.

Since Michigan state troopers no longer mount steeds or straddle motorcycles, Commissioner Donald Leonard has ordered the following new summer uniforms: white shirts, light blue trousers, black Sam Brown belt, and light grey summer helmet. Did you know that Pennsylvania has more state troopers than Michigan? Or that the average daily working force in Michigan is 294 men, spread over 45 posts in 83 counties? With urban crime up 7.4 per cent and rural crime up 141 per cent, Leonard has made a good case why Michigan needs more state troopers.

Fire insurance rates are due to be increased soon. Michigan fire losses have mounted sharply since 1940.

If your neighbor's hen cackles loudly and the rooster crows early and often, this may be why. The average American ate 298 eggs last year. War-time rate was 302.

This is personal, but it may tell why public opinion surveys consistently show that most Americans favor legislative restrictions against labor monopoly. We invited a rooster in Lansing to examine the cost of putting a metal roof over a breakfast room. His bid was \$130. When his bid arrived, the amount was \$180. When we inquired, he said: "I did not believe the men were going to load on the job." And we are NOT going to have our six-room summer house repainted this year.

The painter's estimate, \$400. Members of the Lansing Capitol Club, comprising secretaries of 36 state organizations, are well pleased with the lobbying bill approved by the legislature. Recommendations of the club were incorporated into the final measure. Legislative agents must register with the secretary of state and must maintain financial records for six years.

Despite all the hub-bub at Lansing, the state liquor monopoly system will remain unchanged. The Tripp bill to kill state stores was defeated in the house. S.D.P.s who sell packed liquor are doing all right as it is. They sold 61.94 per cent of the liquor purchased in Michigan last year; an increase of 19 per cent over the preceding year.

Pork sales dropped in 1946 from 34 to 22 per cent. Package dealers total 18,443; bars, 2,768. Whiskey prices are due to skid. Distillers are now able to produce eight times as much as the public consumes.

"Drink milk and save" is the 1947 theme of June Dairy Month. Health experts insist that the following is true: One quart of milk is the equivalent of calcium in three pounds of broccoli, vitamin B2 in two and three-fourths pounds of round steak, protein of two pork chops, vitamin A in two eggs, phosphorus in two pounds of whole fish, energy value of ten slices of bread and thiamine in four ounces of liver.

Michigan's 1947 spring has been the wettest on record. Brer!

Ray Furniture. Why? When buying a piece of furniture with glass doors, examine the inside of the door. If genuine mahogany, most likely each section of glass is an individual pane, held in place by carefully joined sections of wood. Beware the shoddy workmanship indicated by a glass door made of a single pane with wood on the outside to imitate a wooden grille.

Nine Out of Ten Drowning Victims Are Men and Boys

Nine out of every ten persons who drown in Michigan are men and boys, according to figures of the Bureau of Records and Statistics, Michigan Department of Health. Only 25 women and children are.

Learn to swim. Don't show off. Don't swim in swift water. Don't swim alone. Don't swim after dark. Don't swim on an unguarded beach. Do not swim within two hours after eating a hearty meal. Don't dive into shallow water. Avoid the shock of diving into extremely cold water. And don't continue swimming when you are weary.

Deaths by drowning in the state were almost equally divided between persons under 25 years of age and those over 25 years of age. Two thirds of the drownings occurred during the summer months by far the larger share of the drownings did not occur at bathing beaches, and almost as many occurred in rivers as in lakes.

Rivers took the lives of ten children under ten years of age, 37 between the ages of 10 and 25 years and 36 over 25 years, for a total of 83. Eighteen children under ten lost their lives in lakes as did 27 persons between 10 and 25 years of age and 42 persons over 25 years of age.

Miscellaneous drownings, totaling 95 for the year occurred in such places as quarries and gravel pits (4), cisterns, well holes, bath tubs, a private canal, a dump, county ditches and ponds on farms. These included 31 children under ten years, 25 persons from 10 to 25 years of age and 39 persons over 25 years. The greatest number of miscellaneous drownings occurred in June, July and August, in keeping with the general trend in drownings.

Because there are more miscellaneous drownings than drownings in rivers and lakes the first obvious precaution against drownings is to avoid and to cause children to avoid places where drowning might occur. Other precautions are:

Veterans Prove Good Risk

Michigan veterans have proved a good loan risk, according to latest Veterans Administration figures on defaults for loans guaranteed by the Government under the GI Bill. This is especially true in the case of home loans, which constitute the bulk of all loans guaranteed by the VA.
W. E. Powell, Loans Guaranty Officer here, revealed that since the first loan was made nearly two years ago, some 30,000 Michigan veterans have obtained loans under the GI Bill in the amount of approximately \$10,000,000 with the Government guaranteeing nearly \$30,000,000 of this. To date only four actual claims against home loans amounting to \$1,000 have been paid by the Detroit Loan Guaranty VA Office. This means that for every \$1,000 paid to the Government, the veteran has paid \$30,000.
The record for business loans is equally good. In this case, the Government's faith in the veteran has also been justified. Out of approximately 2,000 business loans guaranteed by the State, 15 have defaulted at a loss of \$11,000. A total of 2,000 business loans amounting to \$2,800,000 and guaranteed up to \$2,200,000 have been transacted in Michigan.

Twelve hundred loans made to Michigan veterans by the amounting to \$1,700,000 and guaranteed up to \$1,200,000 have been made by the Detroit VA Office, and only one case of default amounting to \$250 has been reported.

On the other side of the ledger, VA announced that 340 loans of all types have been paid in full for aggregate value of \$1,100,000 of which the VA had guaranteed \$325,000.

THE COW IS QUEEN

National Dairy Month Proclaimed

Governor Sigler has proclaimed June 1947 as Dairy Month in recognition of the contributions made by the dairy industry to the health and vitality of our customers. With the peak of milk production coming during June, a good condition will continue to receive abundant supplies of dairy products at relatively favorable prices, stated Charles F. Sigler, Director of Agriculture. Reports of the Department of Agriculture show that the extremely dry spring has brought abundant milk production for April and May somewhat, but a cool damp season usually brings abundant milk production and may help to maintain milk production throughout the rest of the year.

Milk is the greatest economy food offered the consumer today. With its nutritive value ranging from 15 to 17 cents a quart throughout Michigan and with today's prices on cheese and other dairy products, consumers are getting a nutritional bargain on these foods, according to Director Foy. Consumer prices of dairy products have decreased from 3 to 7 cents throughout Michigan since December, 1946, while prices of many other staple foods have increased in the same period. With 35 per cent of the consumers buying milk for food, the high nutritive value of milk and dairy products makes them the economy food for the average consumer because they make the budget go farther.

COOK ASPARAGUS IN BOILING WATER

Cook asparagus so that the tips and stalks cook evenly, and so that little of the flavor, color or vitamin C are lost.
Zoe McCormick, foods specialists at MSC, gives some suggestions.
To cook whole stalks, tie them together loosely and stand them upright in a kettle of boiling, salted water. The water should come about a third of the way up the stalks. If the pan isn't deep enough, use another pan as a cover or so that the tips may cook in steam. Cook 10 to 25 minutes.
When cooking small pieces, drop them in small quantity of boiling, salted water. Cook 5 to 10 minutes and then add the tips and finish cooking.

Save the water from the asparagus for use in soups or sauces because it holds flavor, vitamins and minerals.

Take Steps Now To Protect Hogs Against Disease

Every pig that dies this year before it is ready for market represents seven times as great a loss to the farmer as did the loss of a pig that died in 1934.

Citing these dollars and cents comparisons, the American Foundation for Animal Health, today said that swine disease control on farms this summer will be more financially important than at any time in the past 20 years. In late spring of 1934, the report showed, market hogs were around \$3 a hundredweight, while this year they have ranged from \$20 to \$25 per hundredweight.

The Foundation pointed to three major threats to this summer's crop of hogs, and urged farmers to take special precautions against them. Hog cholera, erysipelas, and swine fever were named as the greatest hazards for the next three months. Steps listed by the Foundation to guard against them, include:

"All spring pigs should be vaccinated against this disease also. Fresh, clean pasture should be used as a protective measure against enteric. Careful control of rations is also a safeguard against this problem."
"Newly-purchased animals should be isolated from the herd until the owner is sure they are not disease carriers."

invitation to come and stay, as we do not appear to want her. What does she mean by that? I told you

to write and say she was to come to his own convenience. You did write that."

"Er—yes," said George. "But I—I couldn't spell 'convenience.' I made it 'risk'."

Or Not?

The employer, leaving his girl now instructing his own secretary, went to say if anyone called while he went out. He returned in a few minutes. "No one," said she again. "I don't need to tell you," said he. "Is that correct?"

Kept His Eye on It

The teacher had written 24.7 on the blackboard, and, to show the effect of his multiplying by ten, he rubbed out the decimal points.

"Now, Alfred," she said, "what is the answer?"

"On the dunster," replied Alfred.

That Nagging Backache

May Warn of Discarded Kidney Action

Modern life with its heavy and varied labors, increased eating and drinking, increased smoking and drinking—these habits on the work of the kidneys, which are the filters of the blood, may lead to the chronic condition known as kidney disease.

It may either manifest locally, by pain, itching, burning, or itching, or systemically, by general weakness, loss of appetite, loss of energy, loss of sleep, loss of interest in life, loss of weight, loss of color, loss of vitality, loss of power, loss of strength, loss of endurance, loss of resistance, loss of ability to resist disease, loss of ability to resist infection, loss of ability to resist poison, loss of ability to resist all these things.

The Doan's Pills, Doan's Backache Kidney Pills, are the only pills that cure the kidneys, and they are the only pills that cure the backache, the pain, the itching, the burning, the loss of energy, the loss of appetite, the loss of sleep, the loss of interest in life, the loss of weight, the loss of color, the loss of vitality, the loss of power, the loss of strength, the loss of endurance, the loss of resistance, the loss of ability to resist disease, the loss of ability to resist infection, the loss of ability to resist poison, the loss of ability to resist all these things.

BRANTIGAM-CURTIS

Mr. and Mrs. Amos Curtis announce the marriage of their daughter, Mary Louise, to Norman Brantigam, son of Mr. and Mrs. C. O. Brantigam of Jackson. The ceremony took place May 12 at 11 o'clock in St. John's Catholic church, Jackson, with the Rev. Father Leo Zastavsky officiating at the double ring ceremony. Baskets of gladioli and red roses decorated the altar.

The bride, who was given in marriage by her father, was attired in a white nylon tulle gown with sweetheart neckline, long sleeves and a long train, which were trimmed in lace. A fingertip veil of French illusion fell over her face. She carried a bouquet of white roses. The bridesmaids wore white dresses with long sleeves and a long train, which were trimmed in lace. The groom wore a white tuxedo with a white shirt and a white bow tie. The ceremony was held at 11 o'clock in St. John's Catholic church, Jackson, with the Rev. Father Leo Zastavsky officiating at the double ring ceremony. Baskets of gladioli and red roses decorated the altar.
