## D. Boutell Named Chairman Of Citizens' Committee

Representatives of the various school districts which now make up the Manchester Public Schools system met at the high school to be brought up to date on the progress of the work of the Manchester public school board during the summer months.

The group was told how the board has been visiting new schools and interviewing architects for the past couple of months in an effort to determine the best possible means of progressing with a building program here.

In order that the former school districts which have annexed to the Manchester school system be brought up to date, a representative from each school was asked to join with the school board and a committee at large to make up what will be known as the Manchester public schools citizens' committee. Of this newly formed group, Dan Boutell was named chairman, Sam Cushman, vice

## Mrs. LeRoy Marx Now Heads MOMS

At the regular meeting of the Mom's Club at the Legion hall, Mrs. LeRoy Marx was named president; Mrs. Edwin Schuman, vice president; Mrs. Robert Kuhl, secretary; Mrs. Clark Bertke, recording secretary; Mrs. Charles Wurster, chaplain; Mrs. Lewis Kemmer, reporter.

Directors of the group are the Mesdames Merle Schook, Earl Lamb and Nathan Braun. Serving refreshments to the sixteen present were Mrs. Lewis Kemmer, Mrs. Ed Steele, sr., and Mrs. Nathan Braun.

Because the date of the Carr Park ice cream social conflicted with the date set for the state Mom's picnic at Bob-lo, the Manchester MOMs cancelled their plans to attend the state party.

Reservations are being made to send two delegates to the state convention in Saginaw. The delegates to the fall convention will be named at the September 1st meeting after the installation of the new officers.

## Year's First Polio Death Is Recorded

Son Born To Woman After She Died; Tests Show She Had Disease

Washtenaw County's first death from poliomyelitis came to light today when the Washtenaw County Health Department reported that Mrs. Roy Fuller, 30, of Cavanaugh Lake, died of the disease last Friday night.

The department also reported two new cases of polio in the county, the 16th and 17th of 1953.

A spokesman at the U-M Maternity Hospital said postmortem tests have established that Mrs. Fuller died of an acute bulbar polio.

He said an infant son was born to Mrs. Fuller by Caesarian section after her death. The infant was born alive and doctors today held out hope that it will survive. It does not have polio.

Also surviving is Mrs. Fuller's husband, an employee of the Michigan Gas Storage Co. at 12201 Pleasant Lake Rd., and a daughter, Margo, 2.

Washtenaw County had one polio death in 1952—none in 1951 or 1950 and three in 1949. The two new polio cases have afflicted a two-year-old Ann Arbor boy and a 30-year-old Chelsea man.

Forrest Graves, son of Mr. and Mrs. Forrest W. Graves of 1442 Ardmore Dr., was admitted to University Hospital Sunday.

Ralph Stinehelfer of Chelsea also was admitted Sunday. A spokesman at the County Health Department said it has not yet been determined whether either case involves paralysis.

The 17 polio cases reported to date in 1953 compares with 27 reported in Washtenaw County by this date last year.

### Manchester Woman Awed As Tornado Strikes Oakley

Miss Nellie Ackerson and Mrs. after spending a few days with Mrs. Schaffer's relatives near Owosso. While at Oakley they had the experience of being in the path of a tornado which uprooted many large elms and blew down several barns in the area. At the farm of Mr. and Mrs. Alton Overpack where Mrs. Bertke and Miss Ackerson were staying, a new house trailer was tipped over. Earlier in the day Mr. Overpack had brought out his newly purchased trailer for the guests to see and it was standing near the house at the time of the storm. Trees blocked highways as well as the driveway to the Overpack home.

The Manchester women thought it would seem good to drive up to their doors when they returned to Manchester but as fate would have it Mrs. Bertke got another surprise when she returned home to find that she had to carry her suitcases from the corner to her home because the street was torn up here while workmen were busy installing a new water main to the Roy Wurster home. Luckily she has a pump at her home, since, because of the installation of the new main it has been impossible to use city water on Auburn street this past week.

## Local Couple Celebrate 25th Anniversary

About 60 relatives and friends gathered at the farm home of Mr. and Mrs. Virgil Mayer at 9123 Sharon Hollow Road celebrating the silver wedding anniversary of the couple who were married on August 8th at Napoleon, Ohio.

For the past sixteen years the couple has lived in Manchester. Mr. Mayer is employed as a mechanic for the Widmayer Sales and Service and Mrs. Mayer is employed at the Ford Motor Company. In his "spare time" Mr. Mayer works on his farm.

A note of interest was that both mothers of the couple were able to be present. Mrs. Vera Mayer of Defiance, Ohio, his mother, and Mrs. Mabel Boesling of Napoleon, Ohio, who is the mother of Mrs. Mayer.

A beautifully decorated cake centered the table and two nieces of the couple, the Misses Janie Lou Maddock of Morenci and Jacqueline Westoven of Napoleon, Ohio, had charge of the guest book. Our town guests were present from Van Wert, Defiance, Holgate, Elery, Florida, Napoleon and Law-ell, Ohio, Chicago, Illinois, and Morenci, Michigan. ## SEED LAWN NOW FOR BEST RESULTS

You can get the best results by seeding your lawn between now and August 25, says Carter M. Harrison, a lawn specialist at Michigan State College.

He maintains that late summer seedings usually look better by November 1 than those made the previous spring. Main reasons that spring seedings usually don't do well, he believes, are low rainfall, increasing temperatures and competition from weeds.

After you have a good seeded prepared, he advises, seed half of your seed in one direction and the remaining half crosswise. That makes for even coverage. Adding screened soil to the seed before seeding will give more bulk and make distribution easier if you do the job by hand, Harrison notes.

## Cool Eating!

By Betty Barclay

BRIGHT and flavorful salads are doubly welcome on summer days, and there's a particular cool enticement to salads—molded in flavored gelatin. Here, for example, is one hearty enough to please the men-folk of the family, yet quick enough to prepare to make it a pleasure for Mom to serve.

## Molded Chicken Loaf

1 package lemon-flavored gelatin; 2 cups hot chicken stock, free from fat; 1 cup diced cooked chicken; ½ cup chopped celery; ¼ cup chopped green pepper; ¼ cup chopped stuffed olives (optional); 2 tablespoons diced pimiento; 1 tablespoon vinegar; 1 teaspoon grated onion; ¼ teaspoon salt; dash of pepper; dash of Worcestershire sauce.

Dissolve gelatin in hot chicken stock. Chill until slightly thickened. Combine remaining ingredients and fold into slightly thickened gelatin. Turn into loaf pan. Chill to firm. Turn loaf out. Cut in slices. Serve on crisp lettuce and garnish with mayonnaise. Makes 6 servings.

Note: If desired, it can be served as a cold soup.

## Poultry Men From Mid-West To Meet

The sessions scheduled include discussions on breeding for disease resistance, comparisons of purebreeding and crossbreeding, how to select for fast feathering and other items.

## Mid-August Best Alfalfa Seeding Time

When you seed alfalfa in late summer, you're practically getting away from the most troublesome item—annual weeds, according to Stephen T. Dexter, farm crops specialist at Michigan State College.

He recommends early August seeding in mid-Michigan—a little earlier in the north and a little later in the south. The specialist points out that it's important to get reasonably good growth on the alfalfa before cold weather sets in so it will overwinter well. Good growth means the roots have strided enough food to make a good crop of hay next year.

## Harvesting a Better America

Rubbed my eyes yesterday when I saw Hap Jackson's truck in Biff Morgan's alfalfa field... helping Biff get in his cutting.

Since they've been carrying on a friendly argument for years (over how much fertilizer to use per acre of alfalfa), I had to ask Hap what was going on.

"Got my own crop in safely last week," he says. "And since Biff's boy is at the summer campment of the National Guard, figured the least I could do was to help him out. After all," Hap went on, "there's no argument

over how important the National Guard is to all of us."

From where I sit, a fellow like me, who's too old to get in the Guard, can still vote, do a turn at jury duty, and respect others' rights. Even a little thing like respecting a neighbor's right to have, say, beer or buttermilk at dinner is important if we want to keep America strong. We have to be on "guard" in more ways than one these days!

Small seedlings, Dexter says, may heave out during periods of alternate freezing and thawing. And even if they do live, they may not be vigorous enough to compete with weeds next spring.

Since soil is often dry at this time of year, he adds, a firm seedbed is very important. He believes that the cultipacker is one of the most valuable tools in getting successful alfalfa seedling started.

Farmers have had good results

by cultipacking both before and after drilling, before and after broadcasting on the surface behind the drill and broadcasting in front of the cultipacker. Dexter also recommends cultipacking after the hand-seeding method is used.

## Statement Given By Attorney General Millard

### GAMBLING LAWS STRICTLY ENFORCED

As you know there is a current agitation for strict enforcement of the Michigan anti-gambling laws, particularly in the field of bingo. I cannot help but feel that the agitation may be overemphasized. The Michigan State Supreme Court has said that there is no distinction in the law between commercial gambling and so-called charitable gambling conducted by churches, fraternal, veteran and other service organizations.

The Attorney General of Michigan, no matter which political party he represents, can only interpret the laws as they are written. He has no power to change them or put them in a state of animated suspension for the benefit of any single segment of the population. Only the legislature and the people can change the present fundamental law against gambling.

Several times in recent months I have been asked to permit charitable organizations to conduct gambling games. I have no more authority to permit anyone to violate the gambling laws, regardless how worthy the cause, than I have to give a permit to commit murder, to steal or rob. Let me state plainly that I have no personal feelings in the matter of charitable bingo. I can only take the laws as I find them and endeavor to do my duty in the office to which I have been elected.

It has been reported in Michigan that I, as Attorney General, have made threats against enforcement officers who do not obey the laws of Michigan. I want to correct that report here and now. I have threatened no one. I do not intend to threaten anyone. You gentlemen have been elected by the people of your community because they had faith in your ability and your sworn obligation is to uphold the laws of this state. Let me point out that the Attorney General of Michigan has no authority over sheriffs, state police or any local police departments. I do not have supervisory control over prosecutors in the 83 local counties.

However, it has been my policy in the past and will be my policy in the future not to interfere with local prosecutors in the performance of their duties unless I have a complaint in writing that there has been a breakdown in law and order and prosecutors are not doing their duty.

Let me assure you that there

has been no such complaint filed with me at this time.

I believe the prosecutors of Michigan and the sheriffs in this room are doing a job to the satisfaction of the people who elected them. Otherwise the people would be clamoring for their removal. Every law enforcement official knows the law pertaining to gambling. Every law enforcement official knows his duties. The Attorney General of Michigan does not have to stand over law enforcement officials with a whip giving them the A. B. C's of the law. The people expect all elected officials to do their duty and I, as one, will endeavor to carry out my path of office to the best of my ability in the future just as I have in the past.

### Republican Party Pre-Primary Report

Approval has been voiced by a great many Republican Party leaders in Michigan to a recent proposal for a G. O. P. pre-primary convention.

Harold O. Love, Detroit attorney, last year manager of the Fred M. Alger campaign for Governor in Wayne County and currently being boomed for Governor, sent out 2,500 feelers on the proposal last week to party leaders and has received a preponderance of favorable replies.

State Treasurer D. Hale Brake, Ann Arbor, wrote Love that there is no question but what the G. O. P. has lost practically all party discipline and that he is inclined to think that the evils resulting from the wide-open primary are greater than those from which the party tried to escape with the convention system. Brake added that he thought pre-primary decisions should be left to elected delegates and that they would lose their value unless given official status.

The last Republican State Convention went on record favoring legislation authorizing pre-primaries to recommend candidates below the State level. Love's proposal, however, is designed to ensure a party-approved gubernatorial candidate in the primary.

Senator Homer Ferguson wrote that the plan has merit provided fool proof mechanics can be worked out.

"It would advise the people as to who are Republicans and who Republicans are actually interested in," he wrote.

Senator Charles Potter thought pre-primaries would contribute to party harmony and responsibility if decisions were kept on a broad base.

Prospective gubernatorial can-

didates generally were favorable.

"I approve the objective if the roots lead to true democratic plan can be kept on a broad, grass fashion and safeguards set up against clique manipulations," said Police Commissioner Donald S. Leonard.

Secretary of State Owen J. Cleary, former Republican state chairman, has long been an advocate of pre-primaries, either informal or by legislative sanction, set up against boss control.

David W. Kendall, of Jackson, new G. O. P. National Committeeman, believes the proposal worthy of thorough discussion in party councils.

"It might be the means of minimizing post-primary conflicts if conducted in a fair and open manner with sufficient safeguards against abuses," Kendall thought. "If it ends in the choice of one man as the strongest possible candidate his party could advance I'm for it," said Lt. Gov. Clarence A. Reid, of Detroit.

### State Fair Queen

Once again the Michigan State Fair is looking for the Queen of all Michigan Beauty Queens.

Her title will be "Miss Michigan State Fair of 1953" and she will be chosen by well-known judges and crowned by Governor Williams on Wednesday, September 9. The State Fair opens September 4 and runs through September 13.

To qualify for the State Fair contest the candidates must have

won a sponsored Beauty Contest in Michigan since the last State Fair. She must be at least 17 and not over 25 years of age.

Only one Queen may be sent by the sponsoring group which pays the Queen's expenses. Entry must be made by Wednesday, August 26, on an official entry blank and mailed to the State Fair in Detroit to the attention of Graham T. Overgard.

The various Queens will be invited to the opening day parade through downtown Detroit and will be guests of honor to other functions on the Fairgrounds.

Last year it was Miss Carol Martin of Dearborn who as "Miss Junior Achievement" won the State Fair crown.

### Poison Ivy

No person is completely immune to ivy poisoning and there is no section of Michigan where the three leaved poison ivy plant cannot be found, the Michigan Department of Health said in advising care in avoiding the plant.

Learn to recognize the plant and stay away from it. Ivy poisoning is always unpleasant and it can be serious, causing a month-long illness which may require hospitalization.

The poison in the ivy plant is an oil which can be carried on smoke, soot, dust, on the fur of pets, garden tools, firewood or other items which have come in contact with the plant. A person may have a recurrence of ivy poisoning from wearing uncleared

clothes which were worn at the time of the original contact. Wash clothes which were worn at the time of the original contact.

First precaution is to learn to recognize the plant and avoid it. If you think you may have been exposed, wash thoroughly with a strong laundry soap, leaving the

clothes to dry, then rinse. If irritation occurs and blisters appear, see your doctor. Poison ivy can be eradicated by spraying the leaves with a 2 to 4 percent "ammate" solution. Spray should be repeated every year.

til the plants no longer appear.

In its program of approving resorts, the Department requires that poison ivy or other noxious plants either be eradicated or controlled for the protection of the public.

## The Home Is Children's First Classroom

**MOTHERS AND FATHERS** are the world's most important educators. Yet most people leave parents out of the picture and think of education only in terms of schools, kindergarten, etc.

But the education of children does not begin in school. It begins in the home. Search though you may, you will not find a teacher who has more influence on pupils than mothers and fathers have on their children.

Mothers and fathers fashion and mold the minds and hearts of their children, like artists working soft wax. In the formative years of early life, their first impressions sink the deepest and remain the longest. This is all in keeping with God's Holy Plan.

**THE PURPOSE OF Christian Marriage** is not only to bring children into the world, but also to rear and educate them. Therefore, it is not only the duty of parents to educate their children; it is also their high privilege. It can be said with truth that the home is God's first classroom. The home is the child's most important school.

The education of a child will be most effective and lasting if it is received in a well-ordered and disciplined Christian family. The two qualifications "well-ordered" and "disciplined" are worthy of being emphasized. If there is too much relaxation of discipline on the part of parents, there will be failure to check the growth of evil passions in the hearts of the children; and control,

which is such an important factor in education, is lost or weakened.

**A WELL-ORDERED** family is careful to make good use of the authority that comes from God. Authority is not given to parents for their own advantages, but for the proper rearing of their children.

In such a home, youthful hearts and minds can develop and grow strong, even from the very first days of life. The mind of a little child is like a white sheet of paper that has nothing written on it. Then from hour to hour, and day to day, the eyes and ears and other senses act like windows through which will pass light and shadows which will mark or mar it.

**EVERY IMPRESSION** will have its own influence. During this stage, and through many later years, the most important factors are the parents. A wise man once said: "The art of forming character in the child is far more excellent than the art of the sculptor. Christian parents by wise and consistent discipline are able to mold souls—masterpieces far above the most extravagant dreams of any artist."—(By Rev. Leo C. Byrne.)

## In every way, more car for your money!

Ford gives you V-8 power like that of costly cars... fine car build... fine car ride and "at-home-everywhere" good looks - but the price tag never moves out of the low-price field

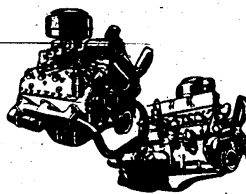

Everywhere you go people are making the swing to Ford. And can you blame them? Many cars costing over \$1000 more offer no more of the things you need and want. Here are some of Ford's "Worth More" features... but to get the full Ford "Worth More" story, Test Drive a new Ford today!

**Less front-end road shock.** The kind of shock you feel most is reduced up to 80% with Ford's new ride. You get a smoother, more balanced, more comfortable ride all around!

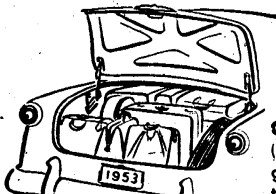

**Suspended pedals** are designed to work easier and make foot space of your Ford's entire floor area. Suspended pedals are also a "keep out" sign to dirt and drafts... make it easier to keep the floor clean!

**Smooth V-8 power** is exclusive to Ford in its field. And Ford's Mileage Maker is the most modern Six you can own! Both the V-8 and Six-cylinder power plants deliver their hill-climbing "go" on regular gas—and not much of that, thanks to Ford's Automatic Power Pilot!

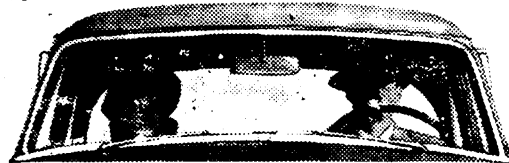

**An extra suitcase** will fit into Ford's luggage compartment—the roomiest in the low-price field. In fact, Ford's combined luggage and passenger space is the greatest in the low-price field... compares with that of many cars of higher price.

**Center-Fill Fueling** permits filling your Ford from either side... saves you time when refueling... and puts an end to hose scratches on your fender!

**Curved one-piece windshield** (below) and large picture windows, give Ford the most "look out" area in the low-price field... another reason your Ford is worth more when you buy it... worth more when you sell it!

### Michigan Forest Fires

Take Only 13,944

Acres In 1952

Careless smokers and debris burners started more than 70 per cent of Michigan's forest fires

last year, according to a report issued this week by American Forest Products Industries.

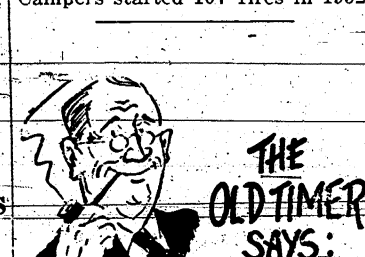

During 1952 a total of 1,850 forest fires burned 13,944 acres in Michigan. In 1951 a total of 756 fires burned 4,868 acres.

James C. McClellan, chief forester, American Forest Products Industries, attributed the increase in number of fires and acreage burned to unusually hazardous weather conditions. He said the Michigan record was reflected nationally in a 15 per cent increase in forest fires and a 30 per cent jump in acres burned.

Citing the efficient work of forest fire fighting organizations in the state in "keeping losses to a minimum," he pointed out nine out of every ten of Michigan's 1952 fires were suppressed before they had spread over 10 acres.

"If the public had exercised more care with smoking in or near the forest and with debris burning, many of Michigan's 1952 forest fires need never have started," the AFPI forester declared.

The AFPI report, based on U. S. Forest Service figures, showed careless smokers started 799 Michigan forest fires in 1952. Debris burners caused 555 fires. Campers started 107 fires in 1952.

"People are like elevators. We lift or lower others—to the level we are on."

## Toward Better Forestry, More Game

Three deer were released recently in a 70-acre pen at the conservation department's Houghton-Lake wildlife station to study a number of color dyes, repellents and chemicals. Purpose of the study is to learn if the chemicals can be used in forestry operations without harming wildlife. The chemicals, if feasible, will speed forestry operations and, by opening more forest grounds, will develop more food and habitat for game. Here, Al Harger biologist at the station has just released one of the deer from a live-trap. Arlow Boyce in charge of deer research at the station, is preparing to release a second.

of Adrian, Robert of Onsted, Donald of Tipton and Lynn and Gerald Hunt at home; nine grandchildren; four sisters, Mrs. Dorothy Frolich of Tecumseh, Mrs. Roy Bower of Clinton, Mrs. Edna Hammond of Flagstaff, Arizona, and Mrs. James Van Riper of Ypsilanti; and two brothers, Alger Clark of Manchester and Lyman Clark of Ann Arbor.

Funeral services were held at 2:30 p. m. Saturday at the Proctor Funeral Home with the Rev. Vaughn Whitely officiating. Burial took place at Riverside Cemetery.

## Junior Playground

Hayride Marks Last Day  
Eighty children and twenty junior helpers and mothers climbed aboard two hay wagons to journey out to Bruce and Brenda Eames's home for the final day picnic. The wagons were driven by Earl Alber and Hank Eames. Drinks were furnished by the hostess and the children all received Dixie cups as a part of the final day festivities. Seven children were given awards for good attendance during the playground season. Those having perfect attendance were Eugene and Mary Jo Huber, Judy Braun, Larry Alber, Marilyn Short, and Michael Lowery. Charlene Clark missed only one day.

Other events crowding the last week's calendar were Brother and Sister Day held on the last Thursday at which 17 little ones—too young to come to playground for the regular program—accompanied their brothers and sisters to the school yard to play games and

listen to stories. Wednesday was parade day with the children decorating their wheeled vehicles in the most colorful way possible. First prize for the smallest vehicle went to Marilyn Huber for her jeep, second prize to Mike Yost for his horse and sulky, and third prize to Bruce Oates for his truck. Stephen Bentschneider won a prize for his decorated wagon. The most patriotic bicycle was judged to belong to Kenneth Buss. Marilyn Buss and Tommy Uphaus first prize for the prettiest bicycle went to Jimmy Mann, Sandra Koernke and Kenneth Altenbernt tied for second, and Larry Alber and Jackie Swank tied for third. Betty Brooks, Ronnie Brown and Jeff Schaffer won awards for the prettiest tricycles. Richard Pniwski brought the most unusual vehicle, Mike Lowery won second prize with his tractor, and Ronnie Alexander won third with his train. Heading the buggies was Marilyn Short, followed by Judy Braun and Barbara Below.

Judges for this event were Mrs. Altenbernt and Mrs. Erwin Huber.

## Open House To Be Held

Open house will be held for the Rev. and Mrs. Alvin Brazee at the Iron Creek Church on Sunday, August 16, in observance of their fortieth wedding anniversary. It has also been twenty-five years this summer since Rev. Brazee first began his duties as pastor of the Iron Creek church, a position he still holds.

The party is being arranged by

the couple's three children and their families, the Emmett Noggles of Manchester, the Neil Brazees and the Donald Brazees of Tecumseh. Open house will be held at the church from 3:00 to 5:00 p. m.

The couple was married August 12, 1913, by Rev. Fred Schwede at the home of the bride's parents, Mr. and Mrs. Edward Smith of Tecumseh. For the first ten years after their marriage they resided in Chinook, Montana, where Rev. Brazee taught school maintained a ranch and held services at school houses on the prairie. Following that period he taught mathematics thirty years in Tecumseh junior high, some of which time he was also preaching at the Iron Creek church. Last year Rev. Brazee resigned from the teaching field and now devotes all of his time to the church.

Smart cooks know how to beat the heat

What homemaker wouldn't like to be free from cooking worries, especially during the hot summer months?

What woman wouldn't like to be able to visit with her friends, take in a movie, or go to the beach with her children on these wonderful summer afternoons?

You may not believe me—but thousands of smart cooks are doing these things every day. It's no trick at all when you cook with a wonderful new, fully automatic gas range. You simply prepare a complete oven meal, place it in the oven of your range, set the automatic controls and you are free to do as you please. When the time comes to sit down to the evening meal the dinner is cooked to perfection, waiting, ready to serve.

Your automatic gas range took over the complete cooking job. It maintained the correct temperature... it turned "on" and "off" at just the right time to meet your schedule perfectly.

But don't take my word for it. Come in. See these new gas ranges. Ask your friends, or neighbors about their new automatic gas ranges and you'll understand why they're called smart cooks.

## Your Gas Appliance Dealer...

will be glad to show you these new automatic ranges. They cost less to buy, less to use, and less to install than any other automatic range on the market today.
