High team three games: Lannon's 2205.
High individual game: A. Pniowski 208.
High individual three games: L. Riedel 526.

Last week 7th ranking Widmayer's Hardware & Furniture finally succeeded in trading places with Uphaus Drug who held the 6th spot. This was accomplished when Widmayer's took 3 points from Hamilton's Market, those poor gals may have to start selling "salame" pretty soon, and Uphaus Drug lost 3 to Lannon's Variety. The other teams more or less held their own—Carl M. Schaible, Inc. took 3 points from Manchester Bakery and Schaffer Lumber Company and Manchester Drug split 4 points between them.

Speaking of splits—some dandies were picked up by four of our members. Ira Schaffer nailed a 6-7-10; Margaret Klager a 7-5-9, Pat Soldan a 7-9, and Thelma Aikman a 5-10. Three of the same girls, Margaret, Pat and Thelma, had individual game scores of 172, 171 and 170 respectively but the "Old Pro" (and we say that affectionately) Edna Knauss, topped them all with a 173.

Just as we thought, Turkeys are getting scarce! We have only 1 reported—and that one by Mary Cannon of Uphaus Drug.

The league lead is all tied up again in the Manchester Businessmen's Bowling League as A. B. C. Service was held to 1 point while Mary's Tavern was grabbing 3 points. K. & W. Farm Supply is only 1 league point out of first place as they were held to 2 game points by Jan and Jim's Grill. Short's Electric Service lost the first game to A. B. C. Service but roared back to get the next 3 games and total pins for 3 points. Roy Marx had a 534 series, Dewey Hartbeck 524, and Elwin Benedict 507 for A. B. C. Service, while Russ Hosmer came through with a 502 series for Short's.

Mary's Tavern team got 3 points from Double A Products due to some good bowling by Fritz Wurster (533 series) and Russ Wolff (542 series). Dell Ludwick tried his best (a 520 series) to save the match for Double A Products but he didn't have quite enough help.

Spike's Mobil Service took 3 very close points from Kappler's Contractors. The first game was decided by 19 pins, second game by 8 pins and the third game by 11 pins. Bill Warner threw a 549 series also Art Golas had a 531 series for Kappler's team.

Mann's walked away with 3 points from Carl Schaible's Ford team. The Ford team got the first game by 4 pins. Dan Buotell came through with a 538 series. Dick Fink had a 500 series and Rollie Grossman a 509 series for Mann's while Norm Fielder and Duane Roller of the Ford team tried hard to keep their team in the match with a series of 537 and 508 respectively.

K. & W. Farm Supply and Jan & Jim's Grill battled to a draw. The Farm Suppliers got the first and second games but the Grill team came back strong enough to

take the third game and took total pins by 2 pins. Jerry Bower was the only one in this match to crack the 500 series mark which was 562. This was the high individual series of the evening.

Widmayer Sales & Service, after winning all 4 points two weeks in a row, tangled with Klager's Hatcheries and came out on the short end with only 1 point. None of the bowlers in this match were able to reach the 500 series mark, but this didn't stop Klager's from keeping the 3 points.

Quite a few fellows had a 200 game or better which are: Bill Warner 222, Dan Boutell 242, Elwin Benedict 212, Norm Fielder 209, Chas. Schebor 290, Russ Wolff 208, Jerry Bower 201 and LeRoy Marx 200.

The individual high series and high game leader is the same—Homer Kappler (632 series mark and 252 game). The high team mark for a single game is held by Mary's Tavern with a 1002 game, while Kappler's Contractors have the high team series, 2727.

Briefly Said:

The citizen who calls on government to supply him with security from the cradle to the grave, thereby encouraging government spending, is a danger to himself and his fellow citizens. If his pleas are successful, he can lose his freedom, and gain no security in exchange.—F. A. Truslow.

WHAT'S NEW—A new rubber nipple for baby's bottle is said to make feeding easier. The new nipple, manufacturers say, tastes better, lasts longer, and doesn't clog or get limp.

Honest Answer

"You are now a part of the greatest organization in the world—the United States of America," said a Federal judge in New Jersey as he swore in a British war bride as a citizen. "Tell me, madam, what you like best about our country?" "The food," said the brand-new American.

4-H Clubs Now Organizing For Winter Projects

The 4-H Clubs of Washtenaw County are now organizing and starting their winter 4-H Club projects. Any boy or girl between the ages of 10 and 21 are eligible to join. Projects available to the members are many. The most popular being: Clothing, Knitting, Handicraft, Electrical, Plastics, Home Improvement, Tractor Maintenance, Conservation, Photography, Health and Safety, and many others.

The 4-H Club is organized under the U. S. Department of Agriculture, Michigan State College, and the County Board of Supervisors, and provides their services free to any group of young people.

Many awards and activities are available to Club members, such as Scholarships, Trophies, National and International trips and numerous medals and awards.

Boys and girls can join a 4-H Club by contacting a local leader or Frank Gendron, Washtenaw County 4-H Club Agent in Ann Arbor, phone 21312.

The 4-H's in Club work stand for Head, Heart, Hands, and Health. These four H's represent the four-fold training and development that club members undergo. The meaning of the four H's is clearly given in the following creed:

"I believe in Boys' and Girls' Club work for the opportunity it gives me to become a useful citizen."

I believe in the training of my HEAD for the power it will give me to THINK, PLAN, and REASON.

I believe in the training of my HEART for the nobleness it will give me to be kind, sympathetic, and true.

I believe in the training of my HANDS for the ability it will give me to be HELPFUL, SKILLFUL, and USEFUL.

I believe in the training of my HEALTH for the strength it will give me to ENJOY LIFE, RESIST DISEASE, and MAKE FOR EFFICIENCY.

I believe in the United States of America, and in my responsibility for their development.

I am, therefore willing to devote my efforts for the fulfillment of these things which I believe.

Besides building better citizens, 4-H Club members have the opportunity of learning while doing and have the opportunity of working and playing with other members of their age and of meeting many new friends.

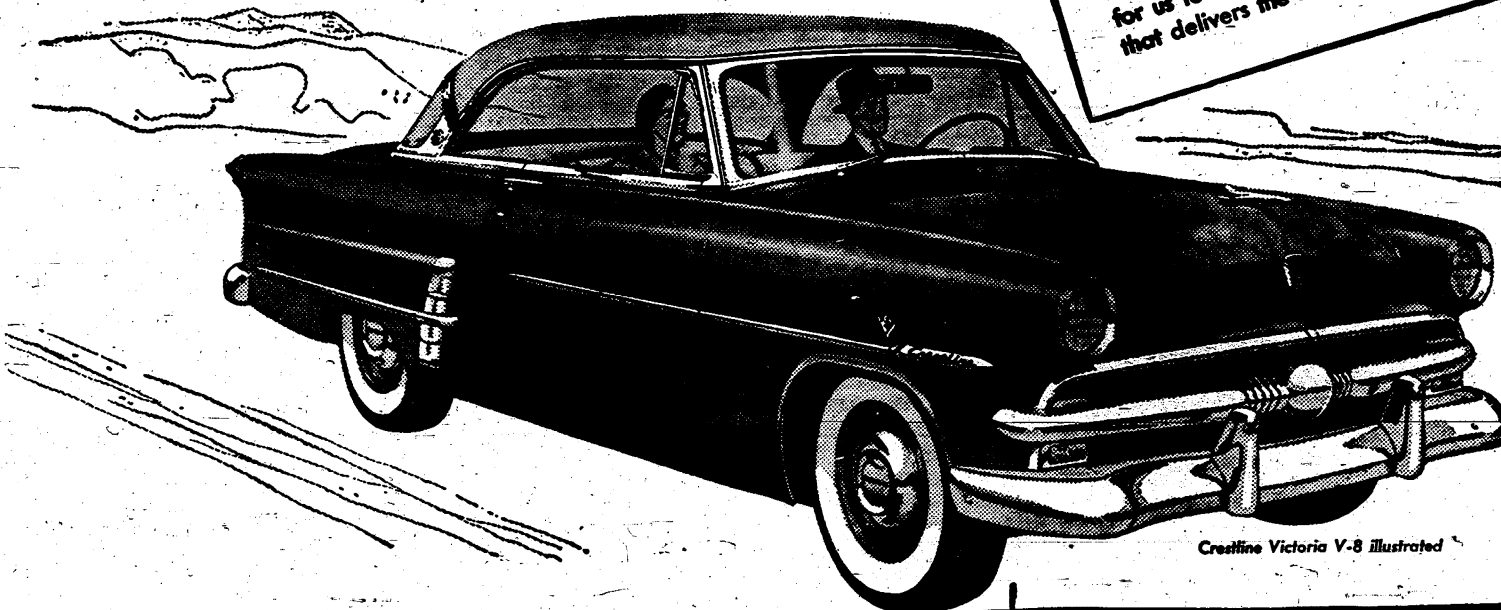

Members learn how to make their own clothes, raise all types of livestock, make electrical and handicraft articles and many other useful articles. Yes, here is the opportunity to join one of the largest youth organizations in the world. Join a 4-H Club TODAY!

Better Eating

BY JEAN ALLEN

PIE PATTY

Ways of making pies richer or
spicier with flakier crust will be
the main topic of discussion if
you serve your guests one of
these old-fashioned pies with
a "secret" ingredient. And every
homemaker has her own special
trick in pie-making.

This pie is
something like an old-fashioned
sour cream raisin pie with spices
added. It is rich and delicious.

Sour Cream Mince Pie

Pastry for 2 crust pie
3 eggs, well-beaten
1/4 cup sugar
2 cups prepared mince meat
2 teaspoons lemon juice
1 cup thick sour cream

Line 9-inch pie pan with pastry.
Beat sugar into well-beaten eggs.
Combine eggs with mince meat
(with as little liquid as possible)
and lemon juice.

Fold in whipped sour cream.
Pour into pastry-lined pan. Cover
top with lattice strips.

Bake in very
hot oven (450°
F.) for ten min-
utes. Reduce heat
to moderate
(350° F.) and
continue to bake
thirty to thirty-
five minutes, un-
til crust is brown
and knife in-
serted in center of pie comes out
clean. Cool before serving.

You can even plan a "pie party"
if you like. Bake two or three
pumpkin pies using your favorite
recipe and varying the toppings.

SWELL "PIE PARTY"

Serve the pies buffet style so
that each guest may choose the
pie she is most anxious to sample.

Sugar Crumb Topping

Mix together until crumbly
one-half cup graham cracker
crumbs, one-fourth cup brown
sugar, one-half teaspoon cinna-
mon and two tablespoons butter.
Chill. Sprinkle over top of
pumpkin pie just before placing
in the oven.

Glazed Honey Pecan Top

About ten minutes before the
pie is finished baking, sprinkle
top with a blend of one-fourth
cup honey, one tablespoon grated
orange rind and one-half cup
chopped pecans. Return to oven
to glaze.

Faithfully

is the King's Daughters.

This group is made up of wo-
men who give much time and ef-
fort in doing the many little
things that help to brighten days
of those in want both in and out
of town. Little is said about their

work from one end of the year
to the other but at Christmas
time they assemble many articles
to take to the University Hospital
and the Infirmary.

Things which they are planning
to take to the children's ward of
the hospital includes many little
articles for the children such as
14 sheets, 16 pillowcases, 11 quilts,
all for doll beds, to gladden the
hearts of many little patients.
There are six boxes of games, six
books, handkerchiefs, pencils and
pads, little bibs and twenty
aprons.

For the infirmary the women
have made twenty bed jackets and
two large woolen lap robes. In

The discussion topic was "Creating Consumer Demand for our Farm Products." It was pointed out that farm produce must be sold in order to convert the produce into cash incomes.

Other questions discussed were: "Do you favor farmer self-help programs in selling and advertising farm produce—like those of the American Dairy Association?" What should Michigan farmers do to increase public acceptance of Michigan farm products as compared to products of other states? It was noted that the dairy farmers have planned a program of improved advertising and merchandising and marketing.

Theodore Parker appointed Robert Dayss and James Pratt to assist him in contacting new members for the membership drive. The next meeting will be held December 8 at the Bridgewater townhall with a Christmas party and grab bag.

Tractor, Garden Project Winners To 4-H Congress.

ROBERT GODFREY, Allegan county, and Bert Fetters, Calhoun county, have been awarded trips to the National 4-H Club Congress in Chicago in late November. They will represent Michigan in the vegetable garden and tractor maintenance programs.

The national 4-H Club committee, a non-profit organization that supports the national 4-H program, sponsors the Club Congress. The Extension Service of the U. S. Department of Agriculture and of Michigan State College cooperates with the national committee which serves as a clearing house for the many gifts and awards made to individual club members from companies and individuals.

Robert, 17, has done outstanding work in his years of garden projects. This year his project won the Allegan county garden award. In his eight years of 4-H Club work, Robert has completed 25 projects. The majority of them in vegetable garden and handcraft. He judged in the garden contest at State Show for the past two years. In high school, Robert is active in sports, the student council and on the staff of the school paper. He is the son of Mr. and Mrs. William Godfrey of Route 4, Allegan. His trip was awarded by the Allis-Chalmers Company, Milwaukee, Wis.

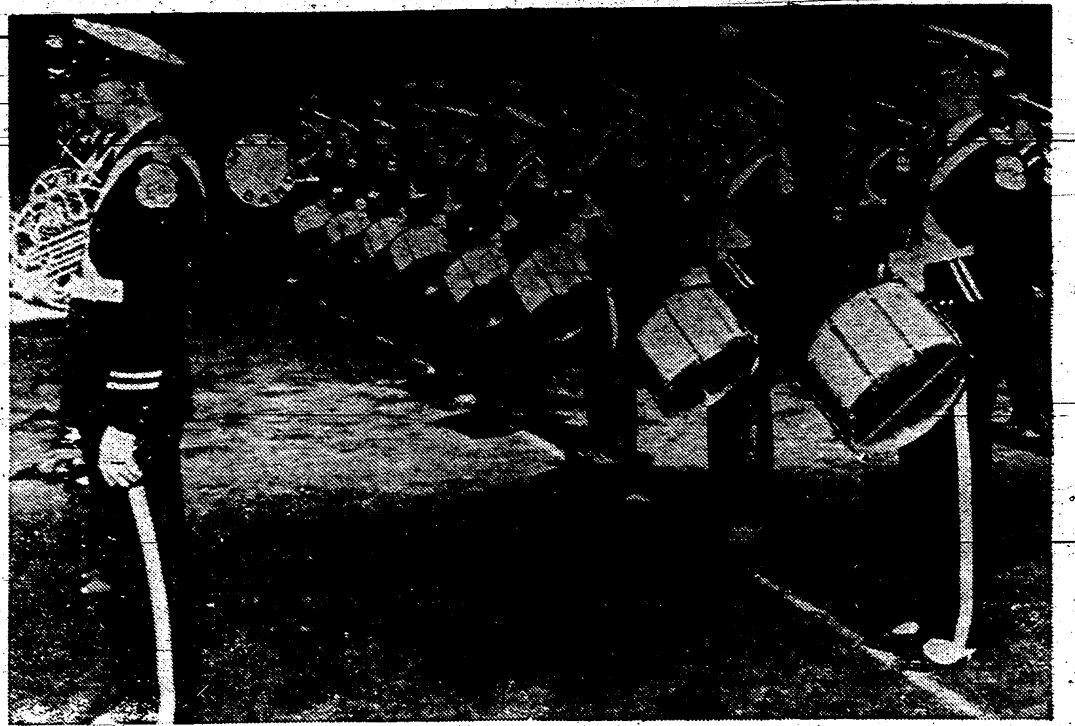

Bert, 16, has six years of 4-H Club work to his credit and has completed 22 projects. This is his third project year in tractor maintenance. In addition to 4-H Club activities, Bert has been active in high school band, Junior Farm Bureau and Grange. He is the son of Mr. and Mrs. Vincent H. Fetters of Route 2, Albion. His trip is sponsored by Standard Oil Company of Indiana.

THE M.S.C. MARCHING BAND! Because the drum section sets the marching beat, these nine men could be called the "ground-gainers" of the Michigan State College marching band. At different times in its pre-game entrance shows and half-time performances, the band members vary the beat from 170 to 210 steps per minute. The 130 members of the "music first, marching second" band traveled to Ohio State on Nov. 7, courtesy of the Oldsmobile division of General Motors.

Farmers Want Hot Water Too . . . Here Are Estimates on Requirements

By IRA MILLER
Farm Electrification Bureau

Hot water is something none should do without. It's necessary for the sake of cleanliness in the home—and it's a "must" from a money-making standpoint.

Hot and cold running water . . . plus telephone give this southern farmer all the comforts of home in a passageway between dairy barn and milk house.

point on the dairy farm. But it can be a terrible nuisance when it's provided by a bucket brigade which starts at the stove and moves unhappily from bathroom, to sink to milk house.

In this automatic age it is only natural that farm people want hot

water available at the turn of a faucet. After all, city folks have enjoyed that luxury for many years. The simplest and easiest way to have it is through a combination of a pressure water system and an electric water heater. This type of water heater can be installed anywhere in homes or service buildings where 220-volt service is available. It requires no long runs and, therefore, can be placed close to the point of use. Automatic, electrically-operated controls keep the water at constant temperature without any personal attention.

If you're curious about how much hot water you need, here are some eye-opening figures. A family of four uses over 1,200 gallons per month in the home for bathing, shaving, dishwashing and laundry. Dairy men, with 30-cow herds, will use an average of 900 gallons per month for washing milking utensils, and other cleaning tasks around the milk house and in the barn. Water of 130 degrees is necessary for cleaning udders and stimulating cows for milking machines. Its use also reduces chances of contamination.

The size of water heater needed will vary in the farm home according to the size of the family and, on the farm, according to the type of operations conducted. It is a good rule, however, to over-estimate your needs, rather than to plan small on a "get-by" basis. When you have lots of hot water available you'll use more than you think. Costs of operation are variable, too. But in general, a good supply of hot water for the home can be supplied for 300 kilowatt-hours of electricity per month. Dairy farmers can plan on using about 25 kilowatt-hours of electricity for each 100 gallons of hot water supplied. Power suppliers, serving your farm can give you all the installation and cost information needed to bring you "winning" hot water where and as you want it.
