You can't buy better!

The '56 Ford inherited its beauty from the Thunderbird. It's long and low-a fine car in every graceful line. And you can have the Transderbird's "lightning," too, at no extra cost for the new Thunderbird Y-8 engine is the standard eight in all Fairlane and Station Wagon bird Y-8 engine is the standard eight in an ransme and manufit vergon models! Here's power that gives you split-second passing ability and hill-climbing "Go." Come in for your Test Drive... today! You're sure to find many more reasons why you can't buy better than when you buy rord. New husury interiors... fine exterior finishes... a quality "feel" throughout... all add up to nake this 1956

It's the fine car at half the fine-car price! **56** Ford

CARL M. SCHAIBLE, INC.

On Deeply Religious Princess

Princess Margaret's dilemma faces few girls in this country because duty is a word that bothers us too little. The genius of the House of Windsor, and perhaps the principal reason for its survival, is that when other kings and princes were building personal power and personal fortunes, the descendants of Queen Victoria put the accent on duty.

In a period of changing attitudes toward ancient institutions, the British royal family has stood firmly through two wars and vast imperial losses because they accepted service not to the state but to the people as their obosen duty. Those who had been subjects became the masters, the people triumphed over their lords, and the kings and queens became servants.

Plan Well Before Green

Michigan dairy farmers who green chopper next season better plan carefully, advises C. R. (Ray) Hoglund, a farm research econo mist at Michigan State University. He figures a 30-cow herd would be best in order to cover the extra costs of green chopping. Hoglund came to that conclusion after a study of 42 dairy farms in the states.

The economist believes, how

ever, that chopping may be pro-

gests: For most farmers he suggests: Consider strip grazing as a sub-stitute to get many of the benefits of green chopping. Develop a good system of grazing practices which provides for about one ton of grass silage per cow to supplement pastures.

Use increased amounts of lime and fertilizer to boost the carrying capacity of the forage crops.

Mr. and Mrs. Laurel Breiten-wischer and family, Mr. and Mrs. Paul Marshell and Joyce and Mr. and Mrs. Ben Marshell were in Michigan Center Sunday for the and Mrs. Jack Watson. Mrs. Watson is the former, Irone Bauer of

fitable with a 20-cow herd if the animals are high producers 10, 000 pounds or better; or if the cows would have to cross a dangerous highway from pasture to the barn. highway from pasture to the barn. But other things are necessary, too, for the best results. Hogland suggests the farmer should have skill in operating the machinery. The farmer should make sure he can grow good forage throughout the growing season. It should include a combination of affafarbrome and sudan.

So, the economist indicates, green chopping will be profitable for only a limited number of farmers. For most farmers he suc

Pennant wimers are traditionally generous with their World's Series Not, says Writer Ed McAuley of Cleveland, as quoted in The Sporting News, And Billy Martin can be thankful for it Bill joined the club on August 20, and played in only 20 games. Yet by the free choice of his teammates, he was voted a full share of the series melon \$5,568. In other words, Billy got as much from the Series pool for one month as Yogi Tales. And other stars and all though they played the full seasons.

"Cocky Grogan" Queer Bird

"COCSY GEOGAN" king o fthe Mosher turnyard struts in a most unusual stance, much like a penguin. Most chickens stand horizontally to their feet. This "queer bird" is the only rooster in the flock of 45 chickens belonging to Howard Mosher, 'Ypsilanti. Until this summer two-year-old-"Cocky" walked and stood like any rooster. There seems to e no reason for the change.

can make quick use of them.

that. Federal expansion can only be halted by rejecting federal aid for everything, roads, housing, our continues:

Colleges and universities fell aid over themselves to get the benefits of the G.I. Bill of Rights. Many of the smaller colleges expanded beyond their justifiable needs; now they find themselves with to much plant, too expensive a facultant of them are in such unfortunated inancial straits that they will probably ! ve to close down. And why mid? From the standpoint of scholarship, some of them should close down.

Professor Donald J. Cowling and Carter Davidson in 1349 published a pamphilet warning their fellow educators of their dangers. They said:

"The social controls that have recently been developing on every hand in America are hailed as something new und, the sun, and therefore better than what we have had before. But the controls are old — as old as government itself—the only new feature is the form of government that is vessing them upon the people. In the past if was tyvanny or monarchy or oligarchy that forced individuals into patterns under a theory of the divine right of kings. But the American public was formed on a new basis, which repudiated the theories and practices of the past. It was unique in that it was established by free men.

Also, they said:

"The basic argument against Federal aid for schools is that it would place in the hands of those in political authority the power to transform our whole way of life Certain controls are conceded to be neceroary from the start—joint responsibility in the preparation of educational plans for each state with au.hority resting with the United States commissioner of the shortage of plants will be according it standards which he decrease, show to cut it up and the venture of the federal acconcy and for annual for financial accounting to it of all menney spent, and for annual for the sum of according it standards which he decrease with a concernative of the federal accney and for financial accounting to it of all menney spent, and for annual

Potato Chip Co. farm four miles northeast of here on Each Rd., Thursday, Secretary, Mrs. H. C. Thursday.

Thursday, Secretary, Mrs. H. C. Ayres reported no special business, with the exception of the apparaments made two runs to the scene, the first in the afternoon and the second about 12:30 a.m. Friday when flames broke out again.

Manchester Fire Chief Lawrence Scheid said the fire apparently started from an over-heated motor in a ventilating machine.

Merle Wright, foreman at the fairm, declined to estimate total loss. The building was a 200 by 55 foot frame structure.

The first alarm was turned in by Mr. Wright's brother, Millard of Kenton. Ohio, who was visiting the farm. At the time, foreman and all employees were working at the firm's Tecumseh farm.

George Hale, who lives nearby, soliced the building in flames alarm acound midnight and called firemen. Manchester and Chelses departments tought the blaze understand and called firemen. Manchester and Chelses firemen Manchester and Chelses firemen Manchester and Chelses firemen was not generally as the blaze under the blaze under the blaze under the work home near Tecumseh.

Thursday, Secretary, Mrs. H. C. Ayres reported no special business, with the exception of the appointment of a nominating committee for a slate of officers to be presented at the December meeting.
