what makes a co-op work?

Co-operation, of course. Obvious? Maybe, but remember that cooperation means working together toward a common goal.

Co-operation—working together—has built the Michigan Milk Producers Association into the nation's outstanding milk marketing co-op. Co-operation has given MMPA members-year after yearmore services, a more stable market and a greater return for their milk. In price negotiations, for example, MMPA bargaining will add an estimated \$11,500,000 to members' income in 1959. In the Detroit market alone, a recent one-year contract negotiated by MMPA assures members an additional \$8,500,000 return for their milk. Working together, MMPA members achieve goals impossible for anyone to achieve alone.
