VOCATIONAL EDUCATION CENTER TO BE VOTED ON IN JUNE 8 ELECTION

by Carolyn Ahrens

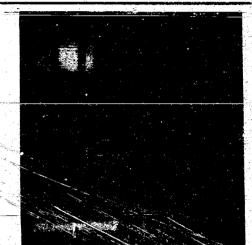

On June 8, Washtenaw County voters will be asked a second time since December, 1968 to vote on a county vocational education center Intermediate District Superintendent Nick lanni pointed out that this would probably be the last chance to approve such a center for the remaining 1970 years. If approved, the center would be open to all 11th and 12th grade students in the county during the school year with the center to be available for adult education, apprenticeship, job upgrading, etc. in the evening and during the summer. Approximately 2,000 high school students could attend the center, which would be located near the Washtenaw Community College campus area on Huron River Dr., on a half-day basis while continuing their high school studies at their local high school the other half. The Washtenaw Intermediate School District would hold the title and the Washtenaw Community College would operate the program under contract with

At an estimated cost of \$500.00 per student per year, the money to pay the high school student's tuition would be the outcome of a countywide levy of 1 mill (\$1.00 per \$1,000.00 of state equalized valuation) and would continue as long as the center was operating or the mill was defeated at the polls. The annual operating cost is estimated at \$800,000 to \$1 million with \$5 million needed to build and equip the center.

The ballot will read in two parts, the first for the 1 mill for operations and the second for permission to borrow no more than \$5 million to build and equip the center. All registered voters will be eligible to vote although the ballots from non-property owners will be kept separate until a decision is reached by the U.S. Supreme Court on a case challenging that only Michigan property owners can vote on a bonding issue. At present only pro-

perty owners may vote on bonding issues. Should the center be approved a wide variety of programs would be available such as business machine repair and service, carpentry, data processing machine operation, cosmetology, horticulture, medical-clinical office assisting and many other skills required in today's highly technical jobs.

The final decision as to whether Washtenaw County will support a vocational education center depends on the voters of the county. Your one vote can make a difference, use it.

BABY CONTEST WINNER ANNOUNCED

The winner of the Manchester Jaycee Auxiliary Baby Contest which was held May 14 thru May 27 is Heidi Lee Huber. Heidi is the daughter of Mr. and Mrs. Lauren Huber of 520 W. Main Street, Manchester.

Heidi will receive a \$25.00 Savings Bond and she and her parents will ride in the Manchester Fair Parade in August. Pictures of the children entered may be picked up at the Enterprise office.

WHO, WHAT, WHEN, WHERE

LETTER TO THE EDITOR

in regards to your recent editorial of May 28, 1970, we feel compelled to write in defense of youth. We wish not to continue a series of written debates with you Mr. Macomber, but want to present the point of view as students on a college campus. Personally, we don't condone what happened at Kent State, Jackson State or violent protest in any way. But we feel, however, that this country is in pretty sad shape when peaceful demonstrations have to become riolent before anyone will listen anymore. It seems quite evident that there is a problem in this country that youth today. will risk bodily harm in order to present their beliefs. We as citizens should begin to face up to these problems instead of isolating ourselves from issues that are

splitting this country. Firstly, in your article we question your sources, when you say only "5% of those college kids really care about the issues they loudly decry." Were these figures taken from Time or Newsweek? It seems doubtful. We doubt if you have been on a college campus recently to make such a statement. Maybe some of the kids at Kent State were having a lark, but remember Mr. Macomber, that the tactics our founding fathers used to establish this country were not exactly non-violent. If I may quote the Secretary of Interior, Mr. Walter Hickel from the May 18 issue of Time Magazine: "About 200 years ago there was emerging a great nation in the British Empire, and it found itself with a colony in violent protest by its youth - men such as Patrick Henry,

and to Jeffery Miller who "wore his hair

Did it show young people that the

establishment means business? Probably it

succeeded in alienating more youth and

drove more young people into believing

that they had no way to influence their

government. Remember, that these "know

May I ask you Mr. Macomber, just who

did invent Ben Franklin glasses? We have

come to the conclusion that we must be

Careful, Studied Approach Needed

Agriculture has a record of responsibility and willingness to cooperate. But that does not mean that we can ignore the pressures which have built up. The self-appointed lunatic spokesmen are all quick to say "pass laws." "put the cost on producers." The mouthings of these people must be tempered with economic reality before we are put out of business. The complexity of the problem is so great that anything short of a patient, studied approach would be disastrous.

We must tell the story of the efforts of the many organizations we support which test, research, control and campaign for responsible use of farm chemicals within our industry.

We must be on top of the situation and involve ourselves in developing practical plans built

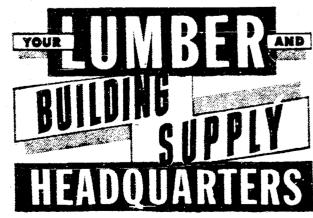

We must fight for the principle that products which give massive human benefits cannot be banned because of isolated injury, misuse or unfounded fear generated by the propagandist. On the other hand we pledge our willingness to work with fellow Americans- mankind throughout the world- to bring about a better environment in which to live.

M.E.A. BACKS MILLAGE ELECTION

Dear Citizen:

The Manchester Education Association wants to inform you that we whole-heartedly support the June 8 vote for operational millage. We realize the tremendous need for this money if we as professional educators are to continue in our efforts to provide a high quality education for the youth of Manchester.

We commend the Superintendent and the Board of Education for distributing the newsletter informing the residents of the Manchester School District on every aspect of this election.

We place great faith that informed citizens will respond to the needs of their schools.

Yours truly,

LISTINGS WANTED

FROM THE SUPERINTENDENT'S DESK - by Robert Swartz

At the annual school election on June 8, 1970 patrons in the Manchester School District will be asked to approve an operational levy of eleven and one-half (11.50) mills for the 1970-71 school year. This represents a two (2) mill increase over the 1969-70 school year. The 11.5 mills to be voted on represents approximately one-third of the total operational monies the school district will need to maintain and improve the present program. The two mill increase will provide approximately \$45,000.00 of a \$110,000,00 increase in operating costs projected for the 1970-71 school year. The remainder of this amount is expected to come to the school district in improved state aid and increased enrollment benefits, plus a small balance from the past year's operation. The anticipated balance amounts to approximately \$10,000.00.

Eleven and one-half (11.5) mills represents a tax of \$11.50 on a thousand dollars of equalized valuation. To find your extra voted tax amount multiply your property's valuation by 11.5 mills.

The 11.5 mills to be voted upon, representing approximately one-third of the total school monies, is needed to assure the continuation of the present program including full day sessions, music, art, athletics, library services, guidance and counseling services and to provide additional new teachers needed for the increasing enrollment.

The last millage increase was requested two years ago, and in that period of time two salary adjustments have been made to keep the Manchester salary schedule competitive with surrounding communities

The Board of Education has kept their request to a minimum level in the hopes that additional state aid monies will provide the greater portion of needed operational fund. At this time there is no indication from the State Legislature as to what the state aid will be for the coming school year. Regardless of what happens at the state level, increased millage at the local level is necessary to provide for some of the increases in next year's operational expenses.

In addition to the local operational millage request, two vacancies on the Board of Education will be filled and the Washtenaw County Vocational-Technical School Proposal will appear on the ballot for the area people to decide upon, incumbents Clarence L. Fielder and Allen A. Alber are running unopposed.

The voting precinct is at the Manchester High School with the polls opened from 7:00 a.m. to 8:00 p.m. on June 8.

The largest crowd of the season was on hand here tonight for our Memorial Day Trophy races. The winner of each event was presented with a beautiful

trophy for his efforts. It was a wild evening with lots of action, blown engines and just good racing. The fastest qualifiers of 56 cars, were Mary Carmen for the Sportsman and Bill Paxton for

the Stocks. In the Sportsman Modified Class, the first heat saw Curt Kelly take the lead on the third lap and hang on for the win over Dick Theide, Don Macey and Jr. Gary. In the second heat, it was a battle between Farmer Budwitt and Jim Martin, til Dick Slagle found a hole between them. They finished Budwitt, Slagle, Martin and Dick Slade.

Rookie Ken Liedel won his first trophy by taking the third heat over Howard Woodman, Cal Byrd, and Paul Whitaker. The fourth had several leaders, with Gerry Lippert coming out on top for the win, just shead of Fred Wordon, Dick Taylor and Hank Mastie.

In the pursuit, all but two cars were eliminated by the fifth lap. Carmen took the checker by passing Macey in the seventh lap. Third and fourth places went to Gerry Tryon and Theide.

Paul Whitaker took the lead half-way through the Semi, with Ray Bernard moving in fast until they run into slower traffic, tying Barnard up and allowing

equipping or reequipping area vocational-technical buildings and other facilities, or any parts thereof or additions thereto; acquiring, preparing, developing or improving sites, or any parts thereof or additions thereto, for area vocational-technical buildings and other facilities; refunding all or any part of existing bonded indebtedness; or the accomplishing of any combination of the foregoing purposes?

Section 6, Article II, of the Michigan Constitution of 1963 reads in part as follows:

Whenever any question is required to be submitted by a political subdivision to the electors . . . for the issue of bonds, only electors in and who have property assessed for any ad valorem taxes in any part of the district or territory to be affected by the result of such election or electors who are the lawful husbands or wives of such persons shall be entitled to vote thereon . . .

Several recent United States Supreme Court decisions have indirectly raised questions as to the validity of the above constitutional provision. For this reason, all resident qualified school electors who are registered with the city or township clerk of the city or township in which they reside shall be allowed to vote on the proposition of borrowing and issuing bonds of said school district. The votes cast by those electors who have property assessed for ad valorem taxes within the district or are the lawful husbands or wives of such persons and the votes cast by registered electors who do not have property so assessed will be tabulated separately.

Only resident qualified school electors who are registered with the city or township clerk of the city or township in which they reside are eligible to vote at this election.

I, Sylvester Leonard, Treasurer of Washtenaw County, Michigan, hereby certify that, as of May 1, 1970, the records of this Office indicate that the total of all voted increases over and above the tax limitation established by the Constitution of Michigan, in any local units of government affecting the taxable property located in Manchester Public School District, Washtenaw and Jackson Counties, Michigan, is as follows:

LETTER TO THE EDITOR

SEX AND SORROW

Most of the trouble we are having now was caused by people thinking that all they needed was money and were so busy making it that they didn't have time to use their Bibles. We made sure there would be more trouble by removing the Bible from our public schools. Since we were allowed to argue about ways of using it in our classrooms, we have been arguing about other things. We will continue to do this until we have destroyed the things that made this country great. The people that made this country a great place to live believed in their Bibles and had faith in their creator. They were proud when they said "One Nation, under God." They must have been proud of "in God we trust" because it can be found in many places.

Our public schools should have been proud to use the Bible. If they would have had teachers that were as interested in using it as they were in getting more money, our children would have more respect for others now and most of our young people would be doing something to improve their future instead of destroying it with drugs, alcohol and sex. Our schools were the only places where most of our children could find out about the rules and promises of the Bible because their parents couldn't afford to dress them in a way suitable to attend church or Sunday School, I can remember when they could. The clothes that children wore then didn't have to be in style or the right size. Just being clean was all that was necessary. I wasn't ashamed to wear that kind because there were others that did the same. Poor people weren't expected to pay for attending places of worship at that time. Unless our children are taught the rules and promises of the Bible by someone that is interested in doing it and there are places where everyone is welcomed to humble themselves and worship their creator, we will soon be a nation that doesn't believe in God.

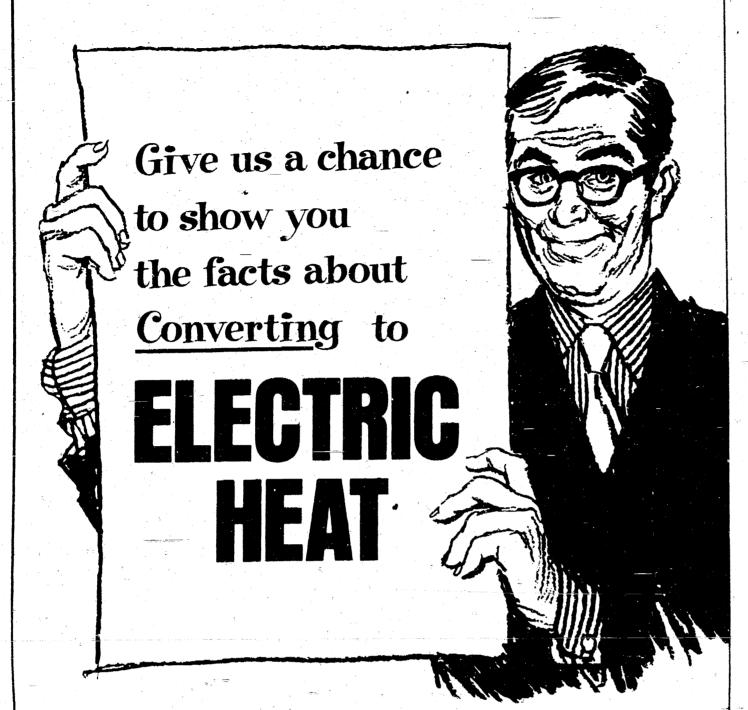

You probably think there is nothing to worry about because of our churches and their millions of members. Belonging to a church doesn't mean much to children, It's the way their parents live that's important to them, when most of them don't even thank the Lord for their food before they eat: when they would rather have their children taught sex than the Ten Commandments. They can only hope that their children will believe in God. When they want someone they don't even know to teach their children about sex there must be a reason. I think they want someone else to take the blame when their children are in trouble.

if parents used their Bibles in their homes and lived by its simple rules children wouldn't have to be taught sex by strangers.

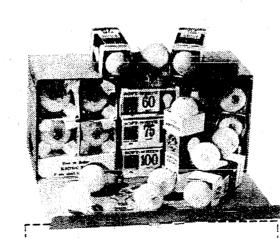

My school teacher knew the importance of using the Bible. She explained this to us; not how much more money we could make by having a better education. My parents also used it. They read from it and knelt in prayer every morning and night. I didn't think this was important at that time. I changed my mind a long time ago. Parents that care enough about their children to do this will be respected. Their children will also respect law and order.

My parents didn't do this and attend church just to set an example for their children. It gave them a feeling of security. Now most of us are trying to get this feeling from the money we will receive from Social Security. If you want it. I think you better dust off your Bible and use it because your future isn't secure if you have to depend on something that has already caused most of our hatred, crime and sorrow. It will be causing more sorror tomorrow and as long as there are people that worship it and are willing to lie, cheat and steal to get it.

102nd Year No. 35

June 4, 1970

by Carolyn Ahrens

To suddenly find yourself in a small village in southeastern Michigan compared to the excitement of the capitol of the state with laws that will affect the entire population being made just down the street, perhaps to see the governor riding in the car ahead of you or in some way referring to Lansing as "home" the same as you, the change could very probably create some difficulty for the entire family as they adjust to the relatively quiet atmosphere of a small village. To readjust your lives from new friendships to realizing that Main Street is just two blocks instead of dozens, that school attendance is a fraction of that of a large city or that the entire community can be your friend rather than those "around the block," can be difficult especially for children. But to several families who have moved to Manchester from large cities it has proved to be a pleasant adjustment.

To one family, the Robert Achtenbergs of Clinton St., Marchester has become "home." With their four children, Kenneth 10, Tricia 9, Eddie 8 and Joey 6, they have, each in their own way; found friends and activities to enjoy as individuals and as a family including membership of St. John's Lutheran Church in Bridgewater.

To Mrs. Sue Achtenberg who is on the Steering Committee of the reorganizing P.T.O., a Brownie Leader, a member of the newly formed Jaycee Auxiliary and the Board of Directors as well as working part-time at the Black Sheep, Manchester has become very important to her family and to her means .

If anyone had told me three years ago that I'd be living in a town the size of Manchester I would have laughed and laughed. My impression of small towns had always been that they must be very dull and uneducational. How wrong was! I don't believe I've had a dull day since we've been here, with the exception of the first month or two before we knew anyone. And as for the educational side, our school system is, in my opinion, equal to Lansing. In some ways it is much better because it offers a lot of extra activities particularly at the elementary level, which would not be available in larger school

One of the greatest things I've seen done is Ted Gulliver giving of his time and energy to promote his elementary wrestling program. It is indeed a great asset to Manchester to have individuals such as Mr. Gulliver in our school system.

A wrestling coach in a larger town would not be able to promote such a program because of the number of elementary schools that would be involved in one high school district. The sad part is that out of 48 boys who participated in the tournament at Hazel Park only a half dozen parents went to watch their boys. But there were a lot of complaints when they got back later than was expected. The reason being that Mr. Gulliver wanted all the boys to be able to wrestle. I say, shame on any parent who does not care enough about their children to attend the functions they are participating

Another excellent program is the Little League groups. The fathers and young men who give so much of their time to coach these young boys are indeed to be commended. Lucky Manchester to have parents who are interested in the youth of today. I would like to see the concern and dedication expand to some of the

other parents. Children are really a joy to watch and help (regardless of the complaining I myself sometimes do). Some other parents might find this is true if they would give it a try. Maybe now that we finally have, to my great delight, a P.T.O. we can draft some more parents into action.

I, too, would like to see round-theclock police protection. I have complete respect for law enforcement and I think one of the biggest problems is that more people don't. Our police department is just like our village council, they need our complete support.

I think probably my biggest personal complaint here is the amount of traffic and also the speed of that traffic in the alley behind the bank parking lot. I would like to see it made one-way. A lot of the village side streets are like raceways and I have a great fear of someone being very badly injured one of these days. There really isn't any excuse for anyone to go so fast in the village. It may seem like a lot of fun to tear up the road and squeal your tires but just stop and think how you'd feel if you hit someone while you were acting up.

Something else I would like to see eliminated immediately is some young men who have taken up "housekeeping" in a car. There is absolutely no excuse for this type of thing to continue in Man-

I have seen Manchester progress in the 2½ years we have been here. I think one of the most wonderful things about living here is that it is small enough that if you feel strongly about something, be it P.T.O., Scouts, Council or whatever you can voice your opinion and whether others agree or not, you will be considered and at least have the satisfaction of expressing

REV. O. WM. COOPER LEAVING AREA

On Sunday, June 14, Rev. O. William Cooper will conduct his last two worship services in the Manchester United Methodist Church. He will be appointed to another charge on Thursday, June 11 at the opening session of the Detroit Annual Conference at Adrian College.

Rev. Cooper was first appointed to the Manchester charge by Bishop D. Loder in June, 1965. This Sunday he will complete five years as Pastor.

Some of the accomplishments during his pastoral leadership at the local church have been; secured and paid for the new church property on Ann Arbor St., studied the needs and approved the preliminary church drawings, and set up and completed a successful building fund drive. The building program will continue as scheduled.

Rev. Cooper has been active in affairs of the community. He is a trustee of the Manchester Township Library Board and President-elect of the Optimist Club. Mrs. Cooper has been a teacher in the Manchester High School and Director of Music in the local church. The Manchester-Parish as well as the entire community will greatly miss the Cooper family and wish them well in their new appoint-

A farewell party is planned for Tuesday evening June 16 from 7 to 9 at the Manchester Fellowship Hall. Mrs. Arthur Blanchard is general chairman. Everyone in the community is cordially invited.

Mary Kidd, daughter of Mr. and Mrs. Maynard Kidd is in room 302 Bed 2 at St. Joseph Mercy Hospital.

Mary, age 18, was involved in an accident following Baccalaureate on Sunday, May 31. She received facial injuries and a broken back in the accident.

Visitors are limited, but cards and letters would be appreciated. There is a possibility that she may be home in 10 days to 2 weeks in a cast.

IULIE SMITH TO ATTEND GIRL'S STATE

Manchester Unit No. 117 the American Legion Auxiliary has selected Mona Juliana Smith to attend American Legion Auxiliary Girl's State to be held on the Eastern Michigan University, June 14 thru June 21. Miss Smith is the daughter of Mrs. Russell V. Smith and is a member of G.A.A. and was elected Parliamentarian of F.H.A.

For seven days the girls attending American Legion Auxiliary Girl's State will play the role of Junior Politicians and build a unit of government, electing from their own representatives, city, county and state officials for a model state. Under the sponsorship of the American Legion Auxiliary, the girls will be assigned to cities, petition for offices, form party platform and caucus their way into a whirlwind week of self-

At the close of this session, two girls will be selected to represent Michigan at Girl's Nation held at the American University in Washington, D. C.

Miss Smith will leave for the campus of Eastern Michigan University in Ypsilanti to join 504 High School Juniors who will attend the Thirtieth Annual American Legion Auxiliary Girl's State. The conclave is a government education program, sponsored by the American Legion Auxiliary, where the girls will be duplicating city, county and state governments in a demonstration of democratic principles at a 7 day gathering closing
