Hart Messinger and family of Chicago are spending the week with his parents here.

Harold Wilcox and Roger Cole of Ferndale and Abbie and Paul Wilcox of Albion College were home for the week end.

Mrs. Nelson Clark brought in some beautiful roses picked from her yard October 29. Yet we speak of Florida as the land of flowers.

Statistics show that an average of \$20 worth of eggs are produced each second in the United States and yet the hen has time to cross the road.

Whenever we see an auto driver going one way and looking another, we feel that they should be immediately deprived of the privilege of driving.

Alice Hudson met with a painful accident last Friday when the accidental discharge of a rifle sent a bullet into her great toe. Dr. Foelsch removed the obstacle and she is recovering nicely and thankful that it was only a toe.

October 22 being Mrs. Charles Howard's birthday her daughter perpertrated a complete surprise for her the afternoon before. The time was spent at 500 followed by a fine luncheon. All present report a most enjoyable time.

George M. Cohan's greatest comedy success, "So This is Lordon," has been landed by Mr. W. H. Wright and will be presented at the Regent Theatre, Kalamazoo, all next week. This is the prize plum of the local theatrical season, for its a play everyone has heard about due to its record-shattering run of over a year at the Hudson theater, New York.

The officers for the Van Buren Council of Religious Education for the ensuing year are: C. E. Lewis. Lawton, president; E. C. Hawley, Paw Paw, vice president; Mrs. H S. Cook, South Haven, secretary; Cort Burbank, Hartford, treasurer; Rev. Gordon C. Speer, South Haven, superintendent of religious education; Rev. W. A. Piper, Lawrence, superintendent aduit division; George Jillson, South Haven, superintendent young people's division; Miss Ruth Robinson, Hartford, superintendent children's division.

Horton law-prohibits hunting without permission, either written or oral, on farm lands or wood lots connected therewith, which means that it governs every acre of land in the settled sections of the state, is now in effect. It is in the matter of penalties that the new law is most drastic. For a first offence it provides a fine of \$10 to \$50, or a jail sentence up to 30 days if the fine is unpaid. For a second offence the fine ranges as high as \$100, and MUST BE accompanied by a sentence of not more than 30 days in jail. The jail term is compulsory in addition to the fine, for offenses after the first. In view of these penalties, however, there is little likelihood that any hunter will be guilty of a second offense. Trespass has never been legal and the Horton act is an attempt to make it unprofitable as well, but hunting by permission will be as accessible as ever to Michigan sportsmen.

Obituary

Otis J. Stoughton, son of Fred and Jane Stoughton, was born near Bloomingdale, April 5, 1875 and day. passed away at his home near Town Line October 19, 1927, aged 52 years, 6 months and 14 days.

His entire life was spent in this vicinity and his sudden death came as a great shock to the community.

He leaves to mourn his loss one sister, Edith Harvey of Otsego, three brothers, Frank of Paw Paw, Charlie of Grand Rapids and Alfred of Onaway, a number of nephews and nieces and many other relatives and friends.

The funeral was held from the home, Rev. Epley officiating, with burial at Covey Hill.

Card of Thanks

We wish to extend our thanks to those who so kindly helped in our recent bereavement, those who helped so tirelessly through the night in our search; the minister and the singers; the friends who sent flowers: the undertakers for their excellent work; and especially do we thank Mr. and Mrs. Terry for their kind watchfulness over Otis for the past few years.

Miss Harris room banked 100 per cent ast Wednesday.

The boys and girls in the Orchestra are working hard two nights each week, we are all looking forward for their first appearance. There are 15 in the orchestra Report cards were given out Tuesday

for the second four weeks of work. Honor Roll and Good Scholarship Roll will be published next week. The cards should be returned to the school immediately.

To all students in the school who are neither absent nor tardy the first semester a special reward will be given; also to those students who haven't a single tardy mark against them. The reward will be a cer ificate presented by the Board of Ed-

Tardy marks and absence marks are very harmful to all concerned; it develops a very bad habit; it disrupts school routme; it makes it disficult for the student to do good work, and it lowers the morale of the student body. We grant excuses in the following manner: All students who are tardy or absent must bring an excuse from their parents stating the reason or reasons for being tardy or absent. Sickness, or sickness in the family, and a very few other reasonable reasons are accepted as satisfactory. The latter is based on common sense. Positively no satisfactory permit will be issued for starting late, fooling along the way, no reason whatever, Kalamazoo with parents, and other similar reasons. Each permit is recorded as to whether it is satisfactory or unsatisfactory. Three unsatisfactory permits will deduct from the final average at the end of each semester. Five unsatisfactory permits in one semester would Archie Smith and a gentleman make it practically impossible for a student to pass his subject, regardless of scholarship record; but please remember there is no excuse for having "Unsatisfactory Permits" as we are very willing to issue satisfactory excuses when a reasonable reason is presented.

The next few weeks will be exceptionally busy ones for the school: basketball practice, junior play practice, preparation for the first debate, orchestra and glee club will be under way at the same time. It means that every student participating in any of the above will have plenty of work to do and should plan ahead so that nothing will be slighted.

Our first debate is with Mattawan at Mattaway; we are to present the affirmative argument. There are about fifteen out for the team at the present time. The hree people to represent the school at this first debate will be picked today or tomorrow, as soon as the tryouts have been completed. The question is "Resolved that the Direct Primary system should not be abelished."

MOON FARMING CALLED BUNK

Moon farming, according to the U. S. Weather Bureau, is "moon-It has absolutely no support from any scientific point of view.

By "moon farming" is meant sow ing or reaping, breeding or butchering, shingling or shearing, or any other farm activities supposed to be affected by the "dark" or the "light" or some other phase of the moon.

The chief things affecting the growth of crops at any stage are: Temperature and moisture conditions of soil and air; composition of adjacent atmosphere; kind and intensity of light; presence, or absence, and severity of plant disease; mechanical condition of soil, loose or compact; fertility of the soil, and quantity of other vegetation, or weeds, present.

Meteorologists can show that the moon has nothing to do with any of these conditions affecting crops. It has no influence on weather or soil.

Periscope of War Fame Now Adapted For Marl Digging

A periscope for digging marl is a new thing in Grant township, put to use on the farm of Supervisor Albert James. It is the kind used in the World war. Merle Martin rigged up the periscope, out of beaver board, a large mirror and a small one—the last taken from an automobile. The periscope projects about ten feet. It is located across the road from the mar bed and Martin can watch operations and save hiring an extra man to start and stop apparatus.

On his side of the road Martin has a tractor, which furnished motive power for the work. A huge shovel does the marl digging, operating on an overhead cable. By means of his periscope Martin can follow each stage of its work.

Farmer Near St. Johns Grows 1,500 Bushels of Tomatoes on 3 Acres

W. M. Yarger, of Clinton county claims the throne as the tomato-growing king of Michigan as a result of the fact that he grew 1,500 bushels of tomatoes on three acres of ground with the rainfall of the season totaling only three and one-half inches.

Mr. Yarger set out plants from May 15 to June 20 in rows four feet apart and used 500 pounds of fertilizer in the hills before setting them out. Deep cultivation was given the plants during the entire season.

Michigan Cattle Wins National Show Honors

Michigan cattle, entered in the vari ous competitive events at the Dairy Cattle Congress at Waterloo, Iowa, early in the month, won high honors for the state.

Out of 16 head of Holstein cattle entered in the open classes, for instance, 13 head placed "in the money". Herds from Michigan's institution herds of Holsteins also finished fourth in a strong list of entries in the "institution" class.

Device Determines **Storage Qualities**

Horticultural students at Michigan State college are being taught to recognize the proper stage of maturity to pick apples for storage purposes.

To test the firmness of apples of the fruit for storage and for shipment, a mechanical tester has been devised which measures the degree of softness in the ripening fruit. It operates on a principle somewhat similar to the gauge for measuring inflation of automobile tires.

Ottawa Farmer Raises "Jack's" Variety of Bean

William Ven Huizen, living east of Holland, is experimenting with growng the "gigantic" bean in his garden. He has raised them before when the largest pod grown measured four feet in length and was 20 inches around.

When You Buy Feeders Just what grade of cattle to select

for the feed lot is a problem that must be considered by every feeder. There are a number of seasonal factors to be kept in mind in this connection. Common cattle are generally lowest in price in October and November during the time of large runs of cattle from the range. Choice finished cattle are usually higher in price than at any other time of the year because there are ordinarily very few grain-fed steers marketed at this time. Because most of the corn-fed cattle are fattened during the winter and sold in the spring, the price of choice steers is lowest in April and May. Common steers, on the other hand, bring the highest price of the year

Crowded coops or houses, and cold, frosty mornings favor the development of roup germs. Frosty weather should see the thinning out of the crowded house.

during May.

Growing chickens and laying hens need green feed the year round to grow best, keep in good health, or to lay eggs.

What the Visitor Sees At Triangle Ranch

Here are a few interesting facts about the Triangle Dude Ranch at Amasa, Iron county, the only one of the kind east of the Mississippi.

There are 1,900 acres of cleared land at the ranch, of which 1,500 acres were in hay this year, producing ver 2,100 tons.

Four hundred acres were in grain, producing approximately 200 truck-

area of the ranch is 8.500 Additional leased pasture land approximately 20,000 acres

If the Triangle barns were placed end to end they would reach nearly a hird of a mile.

There are now 1,300 head of regisered and pure bred stock at the Triangle. About 200 head of weaned steer calves will be sold this fall.

Triangle has its own sawmill, completely equipped, and logging operations will be carried on during the winter.

Riding with the cowboys, hiking over the miles of woodland and lakeland trails, and taking part in the roundups are some of the visitor di versions at Triangle ranch. Hilltop House, at ranch headquarters, has all the conveniences of a modern hotel.

About 150 guests availed them selves of the absorbingly novel dude ranch privileges during the past year. Many of them are booked for return next summer.

Crop Yields Show Farms in U.S. Are

In American experience new farmng regions are likely to be characterzed for a generation or two by methods of agriculture which result in gradually reducing yields. The average pioneer is not a good farmer, not pecause he does not want to be, but partly because he has not the experience and knowledge of his farm and its potentialities in crops under the changes in the organization and manand partly because the abundance and tion, Dr. J. R. Mohler of the United cheapness of land in newly developed States Department of Agriculture recregions is not favorable to intensive ommended to the members of the this period is past does agriculture in we as veterinarians must do to keep such regions attain a stage of develop- our flocks healthy in order that meat yields per acre.

Bureau of Agricultural Economics, industry is based." United States Department of Agriculture. He supoprts this with facts that United tSates is the most important fly in the face of the common belief poultry raising country in he world, that crop yields per acre have been producing more than one-third of the declining as the virgin fertility of the fields has been exhausted. Department 800,000,000 baby chicks last year, statistics show that in 40 years the combined acreage of corn, wheat, oats the rate of 760 a second or 2,000,and potatoes has been expanded about 000,000 dozen a year, and that the of the increased production is the re sult of a better yield per acre.

Increased Yield in Old States. Again, contrary to common belief, ne finds the figures show that "most of the increases in acre yields have occurred in the older farming regions east of the Mississippi river, thus disproving another erroneous impression ginia, Maryland, the New England to 14 bushels in the average yields per

Mr. Weitz concludes that in the course of time, as the farming communities become accustomed to the possibilities of their fields, develop suitable strains of plants, learn profitable use of fertilizers and wise crop rotations, that acre yields in the humid northeastern portions of the United States may approach the present standards in northwestern Europe. In the dryer sections of the United States the acre yields will be limited necessarily by the moisture available to the crops.

Straw Baler Invented That Handles Straw

A new straw baler which takes the traw directly from the threshing machine is the latest wrinkle in saving lapor costs and speeding up the job of which was required to grow White narvesting, says the research depart- Leghorn and Rhode Island Red chicks ment of the National Association of till they were 24 weeks of age. At Farm Equipment Manufacturers. This that age Leghorns had consumed baler is operated by a belt from the pulley which would operate the wind stacker if the baler was not used, and 3.28 pounds and the Reds 4.3 pounds uses practically the same amount of per bird. power as does the wind stacker or blower. The blower is removed when the baler is used, and an extension shaker carries the straw to the baler, which requires one man to tie and pile the bales. The present machines are made for use with threshing machines

Baling of straw and hay is coming nto wide favor in all sections. Farmers declare they can handle baled roughage cheaper than when it is loose, especially when the cost of storage space and the convenience in handling are taken into consideration.

of the individual farm size.

Cow Should Return \$2

A cow should return at least \$2 from a dollar's worth of feed, according to dairy specialists. This is figuring farm value from both feed and milk. With proper management good cows may do much better.

POULTRY

CHECK WINTER RODENT LOSSES

Farmers in every state face an ennual loss running into thousands of dollars each year through the activities of the more common farm rodents -rats and mice. This loss can only be estimated, since it is impossible to get the exact census of the number of each of these small animals existing in each state or to say exactly how much each consumes in a year. The loss is not only in feed consumed, but also in buildings damaged, harness weakened and general depredations of these numerous pests.

Control measures have often been reiterated. Just at present, the one big piece of advice is to get at these pests early in the fall, thus clearing the farm before the cribs are filled with corn and before the ground has become frozen. After the cribs are filled, rats and mice have an ideal hiding place to which they can scurry. once the hunt is on. Boards, boxes. and all other places under which the rats and mice my hide will soon be frozen down, making it impossible for the farmer to exterminate all of the

Dog3 of the right sort and plenty of help are the most valuable aids in getting rid of the rodents. Exhaust from automobiles driven into the holes and runs frequented by the rats and mice will also drive many from cover so that they can be killed. Calcium cyanide, placed in the burrows in small quantities, is also a good remedy to use where it is impracticable to dig the burrows open or drive the Not Wearing Out rodents out. Care should be taken in using calcium cyanide, however, to place it far enough down in the burrows to prevent any domestic animals from reaching it before it has all disappeared.

POULTRY DISEASES DESERVE ATTENTION.

Because the poultry industry represents an annual turnover of more than \$1,000,000,000 and because of recent methods proved best by time and trial, agement of egg and poultry producmethods of utilization or careful hus- American Veterinary Medical Associpanding of soil resources. "what ment characterized by increasing and egg production shall not diminish We are dealing with fowls not only This, substantially, is the conclusion reached by B. O. Weitz, of the commercial units on which a great

Doctor Mohler pointed out that the that the hens collectively lay eggs at 52 per cent. This means that a third annual value of poultry products is now considerably in excess of the \$1,-000,000,000 or 16 per cent of the total livestock production of the country, and outranked only by dairy products and the swine industry.

For years, Doctor Mohler said poultry raising was an incidental enterprise on the American farm. Poultry diseases were regarded as of little hat farms in the older areas of the consequence, and chickens were left United States in general have become to shift for themselves. The last deworn out." In the case of corn, Vir- cade, however, has witnessed an amazstates, Iowa and Minnesota are named of poultry and egg production, as the as states recording gains of from 6 industry has rapidly forged to the to 14 bushels in the average yields per front line of dignified commercially productive enterprise. The humble hen is now recognized as an asset, a chief sourse of income, and as such is favored with the best of feed, shelter and attention, and the increase in size and profitableness of flocks, makes it increasingly feasible for poultry raisers to employ veterinarians in case of disease in their flocks.

THE FEED REQUIRED FOR

CHICKENS From time to time we receive inquiries asking how much feed is required for producing chickens. These people appreciate that the feed cost is one of the important considerations in raising poultry. Too often people believe that it is the whole cost, for some Direct from Thresher do not make allowance for other costs, such as mortality, depreciation on

buildings, labor, etc. The Connecticut Experiment Sta-22.13 pounds per bird and the Red 25.77 pounds. The Leghorns weighed

The Indiana station reports that it took approximately 30 pounds to feed and raise White Plymouth Rock pullets to 28 weeks of age. From these two reports it would seem likely that average amounts of feed needed to reach maturity would be approximately 25 pounds for Leghorns and from 30 to 35 pounds for the heavy breeds.

Some figures are also available on the amount of feed that will be consumed by hens in a year. The smaller breeds require less than the larger breeds and hens that do not lay heavily will consume less than those that are heavy layers. Heavy laying Leghorns will consume approximately 75 In Milk for \$1 in Feed pounds of feed yearly per hen, while the heavier breeds will need about 85 pounds.

> Red mites may be controlled by thoroughly painting the house with carbolineum. Spraying with coal tar dip is also effective.

OIL COMPANY DRILLING TO BEREA SAND

Drilling at the oil well east of Mt. Pleasant was resumed recently and it is reported that officials of the Pure Oil Company have ordered the drillers to go down to the Berea sand at an approximate depth of 2,300 feet.

This was the original objective and it is believed that if oil is found at this level it will be of much better quailty than that found in the higher strata.

There is a rumor that in case the deeper well does not produce oil of better quality and in paying quantities the operators of the well will pump from the Marshall sand deposit which it is believed has a rather high commercial value.

Immediately below the oil sand which the drillers have passed through is the brine deposit. A special device is being used to shut this brine off from the oil sand above it.

The leasing of land in the vicinity of the well was considerably stimulated by the striking of oil and about 20 leases have been recorded with the register of deeds. It is said that a number of leases have been secured that are not yet recorded and that competing companies are making more attractive offers to land owners for their oil rights.

The drilling will be watched with much interest until the mystery of what lies at deeper levels is solved.

Find Human Skeleton Measuring Eight Feet

The strange story of how four men found an eight-foot skeleton of a man in a recess of a cavern near Mt. Pleasant is vouched for by friends of the quartet, who say they have no reason to doubt the integrity of those con-

John Nelson and his three sons were exploring Harlan Cave when they came upon the skeleton, over eight feet in length, according to Nel-

Nelson said he believed it was an Indian's bones. Arrow flints and trinkets were found around the body.

Old Indians living in this vicinity said it was the custom of the tribes to bury medicine men and chiefs alone. They believe the skeleton that of some great man of an ancient tribe.

Coast Guard Captain Sees Unusual Meteor

A meteor of unusual formation and brilliancy was seen recently by Capt. William Preston of the Grand Haven coast guard. The meteor, appearing as three balls of fire, traveled from south to north and lighted the sky about the city with its brilliance. It was mistaken for lightning by many as a thunder-like report was heard shortly after.

Neat Gambling Raid Wrecks Flint Den

One gambling venture in Flint, Mich., stands as a heavy loss to the promoters, Michigan troopers say, after the "police-proof" place, fortified with armored lookout towers and armed watchmen, had been cleaned out as effectively as if it had never been turned into a fortress against

Detectives Eckhardt and William Watkins of the secret service division of the state police, shared in this-one the inter-fraternity council will be of the most sensational gambling raids

The two officers were assigned Aug 11 to aid Police Chief Scavarda, former state police officer, in a raid on a notorious gambling place in that city. Trooper Piechowiah of the Flint detachment and Detective Eckhardt visited the place in plain clothes and were allowed to enter. On one room a card game was in progress, in the other men were shooting craps. Eckhardt went into the craps room and started playing. The trooper sat in a game in the card room.

Midnight was the "zero" hour as on the second the two officers arose, showed their badges and pronounced the place raided. At the same instant a detail of Flint police and Detective Watkins started working on the doors into the place.

The blows were all timed perfectly and those in the place saw it was useless to offer resistance. The officers took the dice, box, field cloth, rake and money bags for evidence while holding the gambling crowd against

Thirty-one men were arrested, over \$2,000 in stakes taken. Those booked as operators of the place were Thomas Worland and Harry Sefigman, both of Toledo, and Jake Zisen, Floyd Fay, George Talbut, Jack Payne and Chris Brown, all of Flint.

When the officers entered the armed ookouts dropped their guns and mingled with the players. When the police had booked their men at police station they returned and demolished the "police proof" place. The first armored lookout tower was located at the head of the stairs leading to the gambling rooms. It was from this point that the elaborate buzzer system controlling the series of doors, and also the alarm system, was operated. A heavy caliber riffe was found in this tower.

Between the card room and the dice room, another lookout tower, heavily armored with plate steel, was located From this lookout the watcher could command both rooms. Two revolvers and a sawed-off shotgun were found here. Thousands of dollars had been spent in equipping and fortifying the place.

Manistee Waltonites After New Members

Plans for a membership campaign designed to bring every sportsman into the organization have been announced by the Manistee county for the afternoon performance. chapter of the Izaak Walton league. Fifteen teams of five members each perform before the student body of have been selected from the membership and prizes have been offered to the college music department and a the teams and individuals bringing in part time member of the orchestra,

THUMB POTATO SHOW NOV. 9-10

Make preparations now for the Thumb of Michigan potato show, which will be held at Mayville, Nov. 8, 9, 10. This show brings together the best potato of the Thumb area, together with speakers on various phases of potato culture. The Thumb of Michigan produces a large percentage of the potatoes of the state, but these potatoes have never borne reputation for high quality. It is the aim of the show to help remedy this condition and if possible have the potatoes that are grown at the door of the Detroit market the best rather than the poorest that comes in there. Plan now to select some of your best potatoes for the show. A show potato speed in trains of three and five cars. should be dug by hand, carefully wrapped and packed so that it will has the money to proceed and is prenot be bruised. It should be free from pared to spend \$228,000 per mile on disease, good type for the variety and weigh from eight to ten ounces. Care must be exercised to guard against blemish, such as fork prints, bruises or scratches. Remove the dirt from your show potatoes with a brush. Do not wash them.

Huron county growers should be well represented at this show this year. Our growers and boys' club members who have exhibited for the past two years have carried off their share of premiums. Will Huron county growers hold the enviable position already attained? Growers interested in making exhibits will be Woodman, at Bad Axe.

Bahorski Stands Mute And Waives Jury Trial At Hearing in Paw Paw

Sen. Joseph A. Bahorski of Detroit, who was bound over to the October term of the Van Buren circuit court before Justice William Prater last August on a charge of fraudulently obtaining a signature to a document, was arraigned before Judge Glenn E. Warner.

He stood mute and a plea of not guilty was entered by his attorneys, Sen. Seth Pulver of Owosso and Duane Mosier of Detroit, who waived jury trial as provided by the new criminal code of procedure.

The date of the trial has not been set by Judge Warner.

Detroit Orchestra to Play Twice for M. S. C.

The Detroit Symphony orchestra will give two programs at Michigan State college Nov. 21. The concerts

will be given in the new armory.

In the afternoon the students of the Lansing junior and senior high schools as well as the student body of the East Lansing school will be guests of and nature lover in Manistee county the college. Arrangements will be made for a seating capacity of 7,000

Canadian Workers in Detroit May Lose Jobs

December 1 is the date prior to which Canadian residents who now work in Detroit must establish their status with the United States immigration officials under penalty of being banned from the country. A questhat there were over 15,000 persons the state by visitors from other states. who daily crossed the Detroit river to jobs in and about Detroit.

Approximately 6,000 of these worklished within the next 60 days. No extension of time is expected. It will the remaining aliens within the remaining time limit, according to R. B. Mathews, acting district director of immigration at Detroit.

Canadian residents who must abide The first need do nothing pay a head tax of \$8 each, while the third, consisting of aliens of countries other than Canada in whose native pay both the head tax and obtain an immigration visa which requires an additional fee of \$10.

Griswold Building Plans Accepted by Allegan Trustees

Plans for a city community build ing at Allegan, to cost \$100,000, drawn up by Detroit architects, have been tentatively accepted by the trustees of the Marilla Griswold fund, the trustees have announced. The buildwest of the library, on the site purchased some time ago. Actual conas bids will be called for as soon as a few minor changes in plans are made.

Plans call for a three-story structure, including a basement. An auditorium with a seating capacity of 850 and lounge and meeting rooms will occupy the basement floor.

Pressed brick, to harmonize with the library, will be used in the construction.

Ask Monorail Rights

The Rapid Transit Corporation of America, through Frank J. Potter of Detroit, chairman of its board of diectors, has asked the Oakland county board of supervisors for a day to day agreement for the operation of a monorail system on the Eight-Mile Road for 38,900 feet. This route is intended to be a part of the one to be laid out between Port Huron and River Rouge, and eventually across the state to Chicago.

Sketches of the proposed system show a track placed 22 feet above the ground on concrete posts 40 inches square and set 50 feet apart. Two lines of rails would be swung from this support and 90-foot cars seating 178 persons would be run at high Mr. Potter asserted that his company the installation.

SAYS DR. LITTLE SHOULD EXPLAIN

Rev. George Carson, pastor of the Catholic church at Marshall, in a letter to the Detroit Times, asserts that Dr. Clarence C. Little, president of the University of Michigan, owes an explanation to the public of a statement made by him a week ago.

Dr. Little's statement, made in a talk at Central Methodist church of Detroit, was that "none but a man imbued with the true Christian spirit and whose religion does not consist of the letter and mere empty forms, has a right to the presidency.

"It may be gratifying to Dr. Little to be assured that no section of the body politic would give more hearty and enthusiastic endorsement to the statement than the Catholic citizens of the country," Rev. Carson states, "although of course, they maintain with the Constitution, a man's religious opinions should not be made a test of his fitness, or unfitness, for political office, and that those who hold the opposite do not deserve to be called American citizens, so truly and eloquently expressed by Dr. Hough.

'President Little, as the de facto head of a great institution and the self constituted arbiter of social and civil righteousness for the whole nation, should be more definite and explicit in his teaching. The public awaits his explanation and elucida-

Oceana Will Retain County Nurse, Agent

Both the county agricultural agent and the county nurse are to be retained in Oceana county as a result of the action of the board of supervisors. The present incumbents, Carl H. Hemstreet, county agent, and Miss Gertrude Zickert, county nurse, are to be re-engaged.

Other reports coming from the board's session are the assessed valuation of the county at \$14,000,000, and an increase in the state tax over last year of \$10,000. During the year \$8,654 was spent for mothers' pensions. Charles Omness of Claybanks township was chairman of the board.

Shelby Women Form Auxiliary of Legion

At a recent meeting of the wives, sisters, mothers and daughters of members of the American Legion of Shelby an auxiliary unit was organ-ized under direction of Mrs. Marie Larsen, president of the Muskegon

The following officers were elected: President, Mrs. Mildred Morrall; vice presidents, Mrs. Muriel McLouth and Mrs. Carol Atwater; secretary, Mrs. Dorothy Pietsch; treasurer, Mrs. Grace Floyd.

DOEMS | GVEZE

WOODMAN, SPARE THAT TREE. Woodman, spare that tree!

Touch not a single bough! vouth it sheltered And I'll protect it now. Twas my forefather's hand

That placed it near his cot; There, woodman, let it stand, Thy axe shall harm it not!

That old familiar tree,

Whose glory and renown Are spread o'er land and sea. And would'st thou hew it down? Woodman, forbear thy stroke! Cut not its earth-bound ties; O spare that aged oak, Now towering to the skies!

When but an idle boy I sought its grateful shade; In all their gushing joy Here too my sisters played. My mother kissed me here; My father pressed my hand-Forgive this foolish tear, But let that old oak stand!

My heart-strings round thee cling Close as thy bark, old friend! Here shall the wildbird sing, And still thy branches bend Old tree! the storm still brave! And, woodman, leave the spot! While I've a hand to save, Thy axe shall harm it not. -George P. Morris.

Still "Baby" Smith to Parents

Although she is two months old Cleveland's "puzzle child" is still "Baby' to Mr. and Mrs. Sam Smith, its parents, who named her "George" after they were told the infant, born to them in a Cleveland hospital, was a boy. Finally consenting to accept the child as their own, they have been unable to find a name suitable for a girl baby. The youngster is above in the arms of her

Leadership Is Lesson Learned By Boy Scouts

With more than 850,000 boys and men in the ranks, the Boy Scouts of America is conducting the greatest school course in leadership that the world has ever known. Boys-products of the cities, suburbs and the farms, the wealthy and poor homes alike, the college and the factory, become Boy Scouts. They become imbued with principles of the Scout Oath and Law, they progress up the ranks from the tenderfoot stage to the rank of patrol leader, in charge of a small group of boys; later they become senior patrol-leaders and then perhaps assistant Scoutmasters, Scoutmasters, and the Troop Committeemen. They have risen stey by step from the ranks of the leaders of boys into the greater walks of life as leaders of men.

A man's Boy Scout training is reflected in his life outside of Scouting. A fellow who can handle eight husky boys at a Boy Scout meeting, make them work and play under his leadership, and still like him, has intentively learned the lessons which make it no trouble for him to manage those under his direction in the office where he is employed. A Scoutmaster who can successfully guide a troop of 32 active Boy Scouts finds it a comparatively easy task to direct the activities of 32 men in the factory, the office or the field.

Women Have New **Commandments**

Men of the Methodist Church in Chicopee, Massachusetts, have drawn up a set of "ten commandments" for women which are rather apt and much to the point. In fact they seem to be so applicable that it is suggested that they are usable for women of every lenomination and organization.

"1-Thou shalt not talk all time; for verily thy husband may wish to be heard at rare intervals.

"2-Thou shalt love thy husband, if it be possible, and prepare for him such food he provides, fit for the palate and at regular intervals.

"3-Thou shalt not meddle in the purely masculine affairs of thy husband.

"4-Thou shalt not spend hours at the telephone in useless gossip for verily there may be other parties on the line whose business may be of importance. '5-Thou shalt not boast of thy ausband before men.

Holland Girl Is Cited As Heroine

Helen Stevens, 13, daughter of Mr. nd Mrs. M. Stevens, was with a bronze medal in Third Reformed church recently in recognition of her heroism displayed a few months ago when she saved two little children from being killed by a Pere Marquette train at the Twelfth st. crossing.

The story of Helen's heroism was briefly told by Rev. James M. Martin, pastor of the church. On Aug. 2 Helen was crossing the Pere Marquette railway track, having in charge two little children of Gerrit Nykamp. She was pulling the smaller child, 2 years old, in a cart and the 4-year-old boy was riding his tricycle.

The tricycle became wedged in the hollow planking and the boy's foot was caught in the wheel. Helen heard a whistle and saw the train coming. She snatched the baby out of the cart and carried him to safety. Then she retraced her steps to aid the boy. She tugged and tugged, but could not free

Then Helen was forced to jump out has not been selected yet, but it probwork is fully completed it is expected of the engine's path to save herself
ably will be somewhat later in the there will be approximately 700 boys after having pushed the tricycle almost out of danger. The engine struck Mr. Richards has received word the tricycle, throwing it and its rider from the state staff that Iron County about 12 feet. The boy escaped with

As usual a felt hat completes the costume. "Dress" hats that were so dear to the feminine heart a decade appointed. Why, of course, unmaror so ago are seen no more—the sim- ried men past 36 enjoy the company ple usually unadorned felt has taken of nice girls. In fact, they enjoy them their place.

Sixth Reformed church, was instrumental in securing the medal for the young heroine, and he took part in the service. The medal was awarded Helen by the Ralston Purina Hero Medal commission and pinned on her dress by Wymand Wichers, superintendent of the school, in the presence of the entire school amid loud applause.

Grand Haven Plans Pretentious Parade

A big parade with prizes for the most timely and best decorated floats will be held here Nov. 11, Armistice The affair, the most pretentious since the close of the war, will be under the direction of the American Legion with other veterans' organizations assisting.

LIVING AND **LOVING**

By Mrs. Virginia Lee NOT WORTH THE BOTHER. A girl writes a pathetic letter com-

plaining that there was never a case like hers. She is in love, so much in love that she thinks she cannot live without the man. But her idol is married. What shall she do? Read the letter below:

"Dear Mrs. Lee: I am a girl 18 years old. About two months ago I met a fellow who seemed to be the one of my dreams. I went with him steady until about two weeks ago when he told me that he is married. But when I told him he wouldn't see me again it seemed as if it would break his heart. I have tried very hard to forget him but I cannot. I really and truly love him with all my heart and if I don't see him I cannot live. Should I see him or not? I can never care for other boys.

"HEARTBROKEN BETTY." No, Betty, do not see this man. Also simply refuse to let yourself think about him. A man who has a wife and leads another girl to believe that he is single until she falls in love with him isn't worth bothering about at all. Do not worry about breaking his heart. He probably is enjoying the fact that a sweet young girl is crying her eyes out for him. Just make yourself go out with other boys and girls and have a good time. You will soon forget.

"Dear Mrs. Lee: Do you really think that unmarried men past 36 years of age care for the company of nice girls? I have a friend who is 40, who has been calling on me and he always wants to hold my hand and to kiss me. When I try to refuse these familiarities, he takes them anyway. He is a bachelor and knows the world. Do you think this accounts for his freshness' with the girls? Do you think his intentions are intended

"FAIRY DREAMS." But really, Fairy Dreams, I suspect that if your friend took you seriously when you objected you would be diseven more just because they know the world. Merely go on being a very nice girl and there is no reason why his attentions should turn out to be

"Dear Mrs. Lee: Here is my problem. Before I started to go out with fellows my girl friend gave a party on her other girl friend, and, of course, I was invited. So at the party I met a nice boy friend whom I just got to love. He called me up and soon after that I went out with him, but he stopped calling. Lately I have heard he talked about me and what he said was a lie. What would you do if you were I?

"BROKEN-HEARTED FRIEND." Oh, I just would not bother much

about the boy. If he doesn't get in touch with you of his own accord, why then there simply isn't anything that you can do. Do not pay any attention to what he says about you. Just forget him and enjoy your old friends.

WITH WOMEN of TODAY

An American woman sitting at her desk in Washington, D. C., "travels by mail" only, yet she sends the healing power of the United States to the sick and needy in far corners of the universe.

She is Miss Clara D. Noyes, national director of the American Red Cross nursing service. Her daily mail omes from all parts of the world.

There are 196 state and local nursng committeees in the U.S. operating under national headquarters in Washngton, with a total of 45,000 Red Cross nurses listed. Of this total 29,-000 are registered as "active" and would be prepared to follow the army to any part of the world, if necessary.

STORY OF RUTH ELDER'S LIFE READS LIKE FAIRY TALE

Week of November 6

General Weather Condition's-As a result of weather conditions expected the week of November 6th in most parts of Michigan we believe winter grains and meadows will be in fairly good condition. While temperatures will average cool we look for considerable precipitation and while this will not be good for most farm work, such as corn husking, plowing, beet pulling, etc., it will give the winter grains a good start. The warmest temperature of the week is expected at the very beginning while the precipitation will be the heaviest at very beginning and during middle of week.

Detailed Weather Forecast-There will be a moderately sharp rise in temperatures at very beginning of week in Michigan, but it is not expected to continue over more than Monday or perhaps Tuesday over eastern part of

Moderately heavy rains or snow may be expected in many parts of the state during Sunday and Monday and will continue more or less through Tuesday and Wednesday and in some sections may last over until Thursday. There is hardly any doubt but that some of these storms will be locally

During the last half of the week temperatures will range below the seasonal normal for this state. However, there will be a reaction about Saturday.

Seasonal Predictions Materialize In our general weather prediction for the year 1927 as printed in this paper last January, conditions so far have been much as expected. Cool weather was forecast for the year with exception of a couple spring months. Government records showed February in Michigan to be the warmest since that the piece of it framed in the arch 1890 and March was also a warm month. May and June have proved very cool and the former month was as wet as the latter was dry, corresponding to the extremes predicted for

For an instant John Moore hesitated; then he said slowly, "Ramon paid me the greatest compliment I John. have ever received. He told me that in this big deal, too?" he considered me the right sort to come down here and do whatever you wished me to do. I hope you will accept his judgment and command me!"

When John Moore spoke in all seriousness as he was speaking now, more experienced judges of men than this girl accepted what he said without question, just as she accepted it. "Thank you, Mr. Morton," she anwered gratefully, "I am asking a great deal, perhaps-"

"Tell me," urged John as she hesitated. "Tell me your name, anyway, won't you?"

"Oh," she exclaimed. "Of course. Ruth Henshaw. I am Burton Henshaw's niece. It is for my uncle really

that I wish to ask your help."
It was Poker-Face Moore, polite but inscrutable, who faced her now. "Then this is your uncle's plan?" he asked

pleasantly.

"No, oh, no! He knows nothing about it. And, please—he must not!" begged the girl.

"Then we certainly will not let

John Moore assured her. He was smiling again, but he now in-cluded in his anger this uncle of hers. The Ambassador had been right. This

uncle was no good; he was troubling this girl. "He shall not know in any case. But I do not quite understand."
"No. I will tell you," said the girl. But instead of doing so she leaned against the old wall of the belfry and gazed out through the arch opposite as if seeking words for her need in

the azure depths of the sky. John Moore had scant attention for sky just then; except to notice beyond Ruth Henshaw was the same lovely blue as her eyes and the scarf she wore at the open neck of her white blouse. Her hair was the color of the brown stucco wall with the sunlight upon it. How fair she was be-neath her tan! How she carried her--this girl in her faded khaki riding skirt! Sending forth her Ambas-sador demanding audience—Well, he had come! He was here at her bidding and within him there was pulsing tumult and excitement like the surge of waters rising higher and higher against a dam. Whoever was troubling her could be stopped. Whatever she asked he would do. Whatever—

But she was speaking.
"I am asking your help, Mr. Morton," she began, "because I understand that you have the real power in this big deal you are down here upon. You have, haven't you?"

"Just what do you mean by real power, Miss Henshaw?" evaded John.
"I mean the power to make or break this deal, whatever it is."

"Ah," commented John rather vaguely. This was not the time to tell her he was not Morton, he decided. If ne did she might refuse to go on with

The girl, believing he had acknowledged her point, went on more quickly. "You can make or break them and they know it. My uncle told me

so; that all of them, even Roderiguez, will do just as you say."

"Ah," said John again.
"But just as you hold power over them all, Roderiguez holds power over the rest of them—even my uncle,"
Ruth added in a low, reluctant tone.
"It is about money I suppose. The
revolutions down here have left my uncle in financial straits. But there must be something else besides money or he would not let—" She paused abruptly and then went on again. "Oh, whatever his hold is, Mr. Morton, there is no righteous foundation for Somehow or other Roderiguez has acquired this power over my uncle. It is horrible! My uncle is trying to drown his shame in tequila and Roderiguez gloats quite openly. He isa dangerous and unspeakable man!"
She caught her breath with a little

John Moore said quietly: "Brutes like this Roderiguez can be attended

must help, Mr. Morton. And you will help me, won't you?" she looked up

"No, no!" cried the girl. "Yes. We will borrow Roderiguez' car and Pedro's services. We can be in Tucson tonight."

"I cannot possibly do that. That isn't what I want at all. I must help

my uncle."

"He is letting this Roderiguez annoy you, isn't he?" John demanded.

"He is not himself, Mr. Morton."

"Her oncle ees a fool an' no good, senor," John thought to himself. He heartily concurred in the Ambassa-dor's judgment. But evidently the girl's affection blinded her. "Then what is your plan, Miss Henshaw?"

he asked.
"This. It occurred to me that if you were—the kind of person I could explain it all to—and if I could talk to you before you reached the ranch -you might be willing to frighten Roderiguez into revealing just what his hold over my uncle is. It would only be bluffing on your part of course. Like poker, you know. But f he is as afraid of you as my uncle thinks he is it might work. He might while the girl stared up at him as if even give up this hold of his—if you threatened him a little. That would in Tucson last night. We are both mean so much to us. And it would only be bluffing for you-wouldn't it?

CHAPTER ELEVEN

"I think it an excellent plan!" said "We will try it. Is your uncle

"No, I am sure he is not. He told ne he was not."

"Ah," said John and thought several things he did not say.

"They are meeting you at our ranch because it is near some of Rodriguez' land, I think."

"I see. Roderiguez does not live

Surprised, the girl glanced up at him. "Why, you must know that he lives in Agua Prieta," she exclaimed. "The whereabout of Roderiguez had escaped me—if I ever knew them." John returned.

"But I thought you were buying some of his land near Agua Prieta."

John smiled at her. "Perhaps I

shall change my mind and buy nothing from him," he said.

At this the girl laughed. "You are beginning to try bluffing me, aren't you?" she asked. "We had better go down. I am anxious to see you begin on Roderiguez. I shall expect to see im reduced to tears and lamentations by the time I reach the ranch.

'But you are not going to desert ne! You are riding back in the car-"Oh, no. I came over here so they would not know, you see. You have been very kind, Mr. Morton. I canyou how grateful I am to not tell

you for being—"
"The sort of person the Ambassador would let meet you here," inter-runted John smiling. "But I need all rupted John smiling. "But I need all sorts of advice and information. Let them suspect what they please and ride back with me!"
"Oh, no. There is Pedro. We must

go or ĥe may suspect now.'

"Stop worrying about Pedro!"
"And there is Clench—he will ride

with you."

"Who is Clench?" asked oJhn.

"I'm Clench," drawled a voice from the stairway door. On the threshold, grinning, stood the man who had with Ruth Henshaw in the with Ruth Henshaw in the plaza. His heavy lidded eyes drooped unpleasantly. "I'm Clench," he re-"Hearing my name I made so bold as to come up. I thought I'd find this young lady here, but I didn't expect—however! Where there's a woman look for a man, as the poet

John Moore stepped forward. "Suppose you look somewhere else," he suggested. There was the clear reson-

As if erased by a sponge the sneer vanished from Clench's face. "Oh," he said with sick cordiality, "that's different. Sorry to intrude, Mr. Morton. I was waiting for you."

"Wait for me at the car," ordered

John curtly.

"Sure thing. Anything to oblige,' agreed Clench.

"Go into the plaza where I can see you—and wait there until I come

right with me," Clench "All shrugged and disappeared through the door. They heard him stumbling down the stairs and a moment later saw him cross the road below, into the shadow of the pepper trees. Chagrined, John turned

said she and smiled. All of her cares senorita need you an' you come!' Raseemed to have slipped from her mon knew." shoulders to his. She was amused and gay; he was the grave and serious one. "Listen to me," said John Moore abruptly.

"I should not dare to do anything ton would have served my plan while else when you speak like that," murmured the girl, her face and voice lovely with laughter.

John gazed at her. "You may be listening—but you are not helping me to think clearly," he told her signifi-

"You believe that I could do that?" "Not when you laugh like that,"

said John very low, coming nearer.
"Oh, very well, sir," mocked the girl, but her eyes wavered from his for all of her gay assurance. "What is it I am so seriously to help you think about?" "A lot of things," returned John

promptly. "But some of them can wait. Right now we are to decide what to do next. As you saw for yourself I am a darned poor plotter; witness my letting that fellow slip up on us just now.

His chagrin was so earnest that Ruth forbore to tease him. "But you did not know—" she protested.

"I should have known," interrupt ed John. "After what I saw in the plaza. I was asleep or dreaming! Any-

way I am a poor plotter. And if we are going to put this thing across you will have to help me."

"You don't need help. It is going to be awfully easy. Why, Clench was a good dog the moment he heard your name."

'But it was not my name. I am not Philip Morton," said John.
Ruth looked puzzled. "You are not
Philip Morton?" she echoed.
"No."

"Then who are you?" she asked.
"John Moore. The man your Ambassador permitted to meet you here." "But I don't understand. You came

in Mr. Morton's place?"

"In a way, I did. But not the way you mean. I came as Morton."

"I do not understand," she repeat-

"I will explain," said John.
"Please." She was grave She was grave enough

John spoke quickly and earnestly from New York and have known each other for years, although having little Now that I have told you it does not seem to be a very good p lan. But it was the only thing I could think of." night and I accepted. If I had not—

by Jove, it makes me turn cold when

I think of it!"
"Why?" asked Ruth.
"Because then I should not be here he answered, looking at her it. "At that dinner we drank so much tequila that we became involved in each other's plans. Morton, as you know, had arranged to come down here. I, thinking it necessary then that I should be in New York on the thirtieth, had arranged to leave on the El Paso train at 1 o'clock—drunk or sober. I am sorry I cannot spare you the details."

"Go on," said the girl.

CHAPTER TWELVE
"At train time Morton was dead
drunk, and they put him, I feel sure, on that east-bound train in my place was nearly as drunk as Morton, but I could still walk and I walked my-self into what I thought was a tax bound for the railroad station. Early this morning I woke up in Sasabe."
"Sasabe! Pedro brought you Why didn't you go back to Tucson

John shook his head slightly. "I met the Ambassador," he said.
"Ramon! But—but—" protested the girl with rising excitement. "I sent him to see Mr. Morton."

'He thought I was Morton." "You did not deceive him?" "No. At first, it never occurred to

me that he thought I was Morton."
"But afterwards—?" Ruth de-John hesitated. How could he tell ner in a few words all the reasons why he had not enlightened the Ambassador as to his own identity? He

could not tell her that Morton was "Ramon worked on your sympathy about me," Ruth said hotly. "He is very much to blame for this!

trusteď him!" "Look here, Miss Henshaw, you are not to blame the Ambassador. the very best of his ability he obeyed

your instructions."
"He did not!" flashed the girl. "I sent him with a message he was to deliver to Mr. Morton."

"Ah!" commented John dryly. "He understood that he was to use his own judgment as to whether he should deliver your message or not." "Yes. That was my plan," Ruth

"Yes. That "Yes. That "Yes. That "Yes. That "Wes. That "Your plan!" exclaimed John Moore with so much energy that he "Your plan! You made "Your plan! You made "Your plan! so did Morton; "caeded?" so did I. Which plan succeeded? None of them. For this reason or suggested. There was the creation and of chilled steel in his voice.

"Suppose," Clench sneered.

"The girl snoke suddenly. "This is that all of the incidents that upset that all of the incidents that upset our several plans fitted together into

another plan."
"Whose plan?" demanded Ruth haughtily.

"Call it Fate," said John Moore.
"Absurd!" commented the girl.
"No it isn't," contradicted John This morning I began to suspect it; now, I know it."
"You cannot know it," returned

"Certainly I can! Ramon knew it, too.'

"Ramon did?"

he knew all about me that I asked and got plenty of fresh aid and sunhim if he knew as much about the shine. But even that early there were man who nearly came instead of me. drastic physics and purges for the re-It was, I thought, fine sarcasm on lief of constipation which Dr. Caldmy part. It never feazed the Am-"You see they are afraid of you," | bassador. He only said. I know de

The girl lifted her chin a little and stared past John. "I have no doubt," said she, with elaborate indifference, that you meant well. But Mr. Morquick retort, but it did not come. Silence reigned in the belfry; a lence which deepened until the little breeze stealing in from the pepper trees and the golden motes dancing in the sunlight seemed to mock it. A moment passed. The silence grew poignant to the girl. Why, O why had she been quite so rude? man was a gentleman and had been very polite. Of course she had been right in putting an end to this nonsense about Fate, but she need not have entirely crushed him like this. Evidently he could say nothing; she digestion, loss of appetite and sleep, must. "You must not think—" she bad breath, dyspepsia, colds and began and looked up at him.

The look-very like tendernesswith which he was regarding her. vanished quickly, but his grin—and actually there was no other word for it—broadened until he laughed aloud "You cannot fight Fate." he said

"You cannot fight Fate." he said soothingly, as if to a child.
"Oh," gasped Ruth. "Oh!" She longed to stamp her foot at him.
"Oh, but I can! This is perfectly absurd! I do not know you and you do not know me! It is absurd!"
"I know just how you feel." soothed John, still grinning. "I felt that way myself this morning. At

that way myself this morning. At one time I even grew nearly as excited as you in protesting that I did not know you. But it did no good. Ramon reminded me—" he paused.
"Of what?" asked Ruth as if against her will.

"He reminded me," said John gravely, "that I was wearing your picture over my heart."

"My picture?" Ruth breathed.

"But that—isn't possible."
"Look at it." Deliberately John drew the picture from his breast pocket and held it so that she might "I had never seen you, nor heard your name; yet I was wearing this picture—as Ramon said. Do you begin to see how everything fits to-"That picture has stood on my

uncle's desk for a year. How did you get it?" The girl was rather subdued with bewilderment.

"I took it from a man I felt sure had no right to have it. You did not give it to Morton, did you?"
"No, no! How did he get it?"
"I do not know. Perhaps we shall

'You took it from him-" Ruth

was thinking aloud, intently. "What was he doing with it?"

"Nothing that matters," answered John. "All that counts really is that my having it, this morning, con-quered me; just as it has conquered you now.

"But it has not," asserted the girl.

"Give me the picture, please."
Reluctantly John released the picture. "All right," he sighed. "But I have an idea that Ramon will think less of me. However—now we know where we are We can lay our camwhere we are. We can lay our campaign against this Roderiguez chap."
"No, no. You said you had to be in New York on the thirtieth—"
"No, I didn't," interrupted John.

"I said I thought—last night—that I had to be there. I have learned a lot of things since then."

"Oh," pleaded the girl. "You must not go on with this, Mr. Moore."

John smiled down at her. "You

know I am going on with this," he said quietly.
"Seriously—I cannot let you." "You cannot stop me,"

John. "But don't you see," urged Ruth. "when it was Mr. Morton who was coming down here on his own business, anyway, it was one thing. But I cannot let you upset all your plans for something which is probably all

in my imagination. Oh, I am sorry I told you about it!"

"You are not sorry you told me about it," said John almost sternly, "and you know in your heart, just as I do, that this thing is bigger and more important than any plans of either yours or mine. We are going to see it through. Afterwards vou need not worry about afterwards. That responsibility is mine. For the rest of it; I came on from Sasabe of my own volition; I am going through with it upon my own determination. Unless—" and he spoke very slowly, 'unless you tell me that you will not

trust me as Ramon trusted me."
"Oh, but I do," protested the girl quickly. "It isn't that—"

"Then that's that," broke in John Gaily. "Now! What do you know of this deal of Morton's?" "Nothing, really. There you see. And the first word you utter will give

"Wait a minute. Do you mean that drugs, but no child of this writer's is none of them knows Morton?" John going to test them! Resides the book was eager.

see I've an idea that the harder I tell them I am John Moore the harder they will think me Philip Morton."
"But—but—" began Ruth.

"No 'buts'!" John told her, smil-"We will go back to the car. No need of trying to fool Pedro now that Clench has seen us together. We will take Clench along with us to keep him out of mischief. Are you ready for a trip to the moon?"
"The moon!"
"Well," John shrugged, "I have dis-

Announcement

Have purchased the LOCAL CHEVROLET AGENCY of Mr. Harrelson and will be pleased to meet all his friends and customers at his old stand.

We have greatest confidence in the Chevrolets of the future and feel that they will always be the BEST lower priced cars on the market

We have been busy elsowhere this first week but hope to be on the job and at your service.
